away from Benes that he usually knows what he is after and how to get it.

Had it not been for Masaryk and Benes there would be no Czechoslovakia today. They and their countrymen had been the sewers of wood and the drawers of water for the Austro-Hungarians up until the World War. That conflict gave the Czech patriots their opportunity and they used it to help bring about the downfall of Franz Josef's empire.

WAR MATERIAL

Masaryk and Benes, working in Switzerland, England and Russia, organized the Czechs on the side of the Allies. Regiments were equipped for France, with in Siberia, an army of Czechs, made up largely of prisoners-of-war taken by the Czarist armies, fought the Bolsheviats and prevented supplies from getting through to the Germans.

This help and the doctrine of self-determination, promulgated by Wilson and accepted by the Allies, led to recognition of the Czechoslovakian Republic.

Looking back, it seems strange how this principle of self-determination of peoples applied only to those in the domains of the conquered. It did not free the Irish, the people of India or of France's Morocco. It did inside 3,000,000 Germans in the new country of the Czechs, almost one-fourth of the entire population.

Hitler is working on these Germans today and at least one-third of them are Nazis, agitating for union with Germany.

The Czechs, with their munition plants, manufactures and their agriculture, are prospering and should grow more so—unless that war comes along. They are expecting it, though not immediately, and Benes is working frantically to avert it.

But, in Europe, [illegible] should know believe that unless Czechoslovakia puts herself commercially under German domination the blow will fall, sooner or later.

Today she stands astride the highway of the Berlin-to-Bagdad commercial empire which Germany has built up since the war. She is blocking the road and she has France and Russia at her back.

Czechoslovakia, itself, is not so important to these allies. They are more concerned in keeping Germany in check, both commercially and in a military sense. The Germans insist that they won't be kept in check. Of such stuff are our wars made.

and the upbringing of children, have from time to time made good first-page copy, now, at the ripe age of 84, is a daddy.

When Mr. Russell was a school teacher he advanced the theory that children should grow up like "little savages." This was carrying the idea of freedom to limits never contemplated by the originator of the KINDERGARTEN plan.

When a philosopher becomes a papa at 64 has he the courage to apply his theories to his own flesh and blood?

Or, maybe, Mr. Russell's theories at this time in his life are for the children of "the other fellow."

There is a great amount of unnecessary jitters over the question of being able to preserve our neutrality during the next European war.

Peter Molyneaux, editor of the TEXAS WEEKLY, addressing the American Academy of Politics and Social Sciences, said:

"If such a war should emerge mankind is there is no legislative cyclone cellar into which we may crawl to escape its consequences."

What is required to stay out of a war that is not of our making or concern is the WILL TO STAY OUT.

Holland, Denmark and Switzerland preserved their neutrality in the World War when that war was much nearer to them than it was to us.

What they did then, we can do if we have the backbone to do it—AND WE HAVE!

If you are thinking of spending your vacation this summer in the jungles of Ecuador you must pay admission—$100 for the leader of the party and $25 for each member—says the Ecuadorean government.

Ecuador is the wildest and least known of South American countries. It is a mystery-land where the thrill of the unknown may still be had in a world that is rapidly becoming commonplace.

Ecuador is on the Pacific coast and owns quite a peaked hat into Peru, with which it is always having boundary disputes. Of its seven million people (a mixture of whites and Indians) live on its 167,600 square miles, thousands of miles of which have never been explored.

For those who venture into the unknown parts of Ecuador, scenery that has only been dreamed of will greet them for both the Andes mountains and the Amazon river are part of the country, and one may have the noisy companionship of 1500 different varieties of birds, apes, monkeys, "howlers," jaguars, pumas and armadillos—if you like that sort of vacation after paying the "gate."

U. S. Labor Ultimatum Warns Employers to Meet Maine Union

KELLY KISSES ADMITTED IN LOVE SUIT

His kisses for Miss Zaheyla "Sally" Griffin, attractive young Portia law student, were "neither hot nor cold," Joseph F. Kelly of Arlington, father of five children, testified in Middlesex superior court today.

He denied that the quality of his kisses could ever have been termed "passionate," but admitted that he had frequently kissed the girl who is suing him for $25,000 on the grounds of breach of promise.

"How often did you kiss Sally," Attorney William R. Scharton, counsel for the girl law student, asked Kelly.

Kelly's wife, who, Miss Griffin testified, was to have been divorced by Kelly to make way for his second marriage, was one of today's witnesses in her husband's defense.

"That youd be hard to say," Kelly answered. "I can't exactly place the number."

"More than 15 or 20 times," asked Scharton.

"Yes."

"PROBABLY" MORE THAN 50

"More than 50 times?"

"Probably," replied the dapper Arlington oil salesman.

"What kind of kisses did you bestow upon Miss Griffin?"

"Well, that is hard to answer."

"Were your kisses passionate?"

"No, I wouldn't say so. They were neither hot nor cold."

Calm and seemingly unaffected by her husband's revelations of having kissed the striking looking young plaintiff, Mrs. Kelly heard

Find Springfield Girl's Body in Pond

Springfield, April 23—The body of 17-year-old Laura Manna was recovered this noon from a pond in Van Horn Park by police several hours after clothing found on the shore had been identified as hers by her father, Edigio Manna.

The girl disappeared from her home this morning, according to her father. The latter, Egidio Manna, told police his daughter was to have been placed under special care today because of a recent nervous breakdown.

Red Sox, Yankees Work Out at Fens

Rain failed to stop the Red Sox and Yankees from practice sessions today even if it did prevent the local American League opening.

The Red Sox worked out with Lefty Grove pitching. The Yankees, under Manager Joe McCarthy, also staged an hour session at Fenway.

Mellon's Co. Sued by U. S.

Aluminum Concern Called "Monopoly"

Washington, April 23 (AP)—Attorney General Cummings said today the Justice Department had filed suit in the southern district of New York against the Aluminum Company of America, asking complete rearrangement of its property on grounds that the company has established a monopoly in violation of anti-trust laws.

The government's 45-page petition named as defendants, in addition to the company itself, 25 subsidiary and affiliated companies and 36 officers, directors and stockholders.

Cummings charged that the company's "most recent act of oppressive and unreasonable price-fixing" was last March 1, when it "advanced the carlot price of virgin ingot."

In a prepared statement the attorney-general alleged that the advance was made despite an increase in earnings from $9,571,206 in 1933 to $20,866,938 in 1936. This amounted to an increase in common stock earnings, Cummings estimated, of from 25 cents per share to $8.65 per share over and above the requirements for dividends on preferred stock.

The government's suit charged that the Aluminum Company, in which Andrew W. Mellon, former Secretary of the Treasury, has extensive interests, exercised power to fix arbitrary and discriminative prices. It charged the defendants with conspiring to restrain and monopolize competition in the industry in violation of the Sherman anti-trust act.

The petition contended further that the company and its subsidiaries are manufacturing all virgin aluminum in the United States and selling more than 90 per cent of aluminum steel and nearly 100 per cent aluminum wire, cable and tubing.

Windsor Demands Coronation Book Be Withdrawn

London, April 23 (INS)—The Duke of Windsor is determined to institute suit against William Heinemann, Ltd., publishers of "Coronation Commentary," Geofrey Dennis, author of the book, unless it is withdrawn and an apology published, C. G. Allen, the Duke's solicitor, said today.

Allen confirmed reports he had asked the publishers to withdraw the book from circulation and publish a suitable apology on grounds it contains false reports on the Duke. Allen stated that unless the request is complied with a writ will then be issued.

The book, which dealt with Edward's abdication from Britain's throne in strong terms, is a best seller.

The publishing firm told International News Service it had received Allen's demand for withdrawal of the book, and indicated a statement would be issued after officials of the publishing house confer with Dennis and their respective attorneys.

20 BROOKLINE MAN DENIES CHARGES

From a second Brookline policeman today came a denial in superior court at Dedham that he had solicited or accepted a bribe or that he had participated in the "shakedown" of any motorist or girl companion.

The denial was made by Patrolman Thomas G. Grennon, one of three defendants on trial in the Brookline graft cases, a short time after counsel for Patrolman James J. Donovan had rested his defense.

Yesterday, without offering testimony, counsel rested the case of the third defendant, Frank L. Cilley, Back Bay automobile salesman.

Taking the stand in his own defense, Grennon testified that he is 39 years old, married, has been 13 years a member of the Brookline police department and is past commander of Stephen F. Rutledge Post, Veterans of Foreign Wars, Brookline.

PARKED CAR CASE

By Peter Borre, his counsel, Grennon was led through the case of Delia Roddy, young Brookline housemaid, and Darius Giordano, chain store clerk, whose parked car was visited early in the morning of December 1, 1935, by Grennon and Donovan, who were patrolling in a police car.

Grennon denied having said anything about a bribe in this case or having heard any mention of money made in connection with the incident.

He supported Donovan's story of yesterday, declaring that when the police car pulled up and Grennon opened the door of Giordano's parked car, Miss Roddy cried:

"Thank God it's you. This man

Quincy Tax Rate Again Decreased

For the second consecutive year a decrease in the tax rate was announced in Quincy today.

Nathan G. Nickerson, chairman of the board of assessors, announced the 1937 rate as $33.40, 20 cents lower than last year. The 1936 rate was marked by an 80-cent decrease.

The personal property valuation was given as $9,310,550 and the real estate as $112,380,025, the total of which is about two million dollars less than last year.

Pontiff Limited To Necessary Work

Vatican City, April 23 (INS)—Because of the Pope's weak heart, Dr. Aminta Milani has ordered the Pontiff to refrain from public speaking and limit himself strictly to necessary church affairs, it was learned on good authority today.

Dr. Milani visited the Pope three times today, remaining two hours at each call.

Tax Boost Sought In Congress

By WILLIAM S. NEAL
International News Service Staff Correspondent

Washington, April 23—A movement to impose new taxes immediately—especially upon the low income groups which have thus far escaped the new tax laws—developed in Congress today among blocs demanding that Federal relief be maintained at present levels.

Leaders in the movement were ready to accept the administration demand for early balancing of the federal budget, but demanded that it be balanced by new tax levies instead of by reducing relief costs to $1,500,000,000 for the next year.

A treasury alternate to the corporate surplus tax bill submitted to Congress last year was seized upon by many backers of a relief

Chelsea Boy Shows Cuts From Beating

His back criss-crossed with livid cuts and welts a 15-year-old Chelsea schoolboy stood stripped to the waist in Chelsea district court today to offer mute evidence against his father, a husky Chelsea ashman charged with assault and battery.

After Judge Paul J. McDonald had viewed the boy's back and expressed amazement, Daniel McNeil, 33, pleaded guilty to assaulting his son, Robert. When officials of the Massachusetts Society for Prevention of Cruelty to Children notified the court they wished to further investigate the case, Judge McDonald postponed disposition until May 1.

The complaint against McNeil was brought by Chelsea police and Miss Margaret Newcomb of the M. S. P. C. C. after neighbors had complained that the boy had been beaten on many occasions with a strap by which had been cut into a "cat-and-nine-tails."

When asked if he cried during the beating, Robert said in court: "I couldn't cry. The licking knocked all the breath out of me. I cried later."

McNeil said he had a bad temper and that he lost it when he attempted to punish his son. McNeil, whose wife is employed in a bakery, has three other younger children.

Guns Blaze in Strike Clash, 50 Wounded

Stockton, Cal., April 23 (INS)—Gunfire raked Stockton's labor battle-front today as several hundred special deputies discarded their pickhandle weapons for shotguns.

One unidentified striker was wounded in the first volley. He was taken to a hospital.

Several score strikers, armed with shotguns, returned the fire.

At least fifty men were injured in an hour's rioting at the plant of the Stockton Food Products Company. A dozen were taken to emergency hospitals.

Scores of deputies and strikers alike were cut, bruised, and bleeding but refused to leave the scene of the battle for medical treatment.

National Guard Held in Readiness

Sacramento, Cal., April 23 (INS)—Acting on a request from Sheriff Harvey Odell of San Joaquin County, where rioting broke out today, Governor Frank Merriam today ordered the Sacramento unit of the national guard to stand by for orders.

Too Ill to Call Aid as Woman Dies Nearby

Because he was so ill that he could not call police or neighbors, Arthur Landry, about 60, of Fuller street, Lynn, lay confined to his bed all day yesterday, knowing that his aged housekeeper was dead in the next room.

Her body was being guarded by her faithful Spitz dog, "Buddy," as police were notified, and came to take the body today. They had to use force to remove the dog from the bedside of his mistress.

She was Mrs. Agnes Nelson, 69, a housekeeper for Landry for several years, he told police. She had lived in Lynn for many years.

Dr. Nathaniel P. Breed, medical examiner, said that death was due to natural causes.

Landry told police that he knew she was dead yesterday, and could see her body lying across the bed, but because of his fevered condition he was unable to get help.

The woman had no relatives, and left no possessions, as far as police could determine today.

17 CIO HEADS FACE ACTION IN COURT

Lewiston, Me., April 23—Unless shoe manufacturers in this city and Auburn agree to meet with strike representatives, they will face formal complaint and hearing, Dr. A. Howard Myers, New England region director of the national labor relations board, asserted here today.

At the same time Dr. Myers, upon whose shoulders fall the hopes of arbitration, added, however, that he expected both sides to agree soon on a conference.

Dr. Myers, who arrived here from Waterville after arbitrating successfully, a shirt makers' strike, started separate conferences with manufacturers and workers.

At the same time, 17 CIO organizers and workers prepared to appear in court to answer warrants charging conspiracy, coercion and intimidation.

WAGNER ACT FACES TEST

While the courts continued crippling the campaign of John L. Lewis in this state, added worry to CIO chieftans was the action of Supreme Court Judge Harry Manser who ruled the strike illegal and issued an injunction against the strikers.

Seven CIO leaders, including Powers Hapgood, New England secretary of the CIO, William J. Mackesy of Lynn, Mass., strike director, and Ernest Henry of Saugus, Mass., were under orders to appear tomorrow before Judge Manser to show cause why they should not be held in contempt of court for allegedly ignoring his ruling.

The others were Sidney Grant, associate CIO counsel; Martin J. Lawless, Paul Salvaggio, and John Nolan.

Indications that the recent validated Wagner Act would be given a supreme test in this state were seen in the message sent to Secretary of Labor Frances Perkins in Washington by CIO leaders here.

BARROWS BARS ANARCHY

Secretary Perkins was urged to demobilize the National Guard here and to withold Federal money of the National Guard until assurance was given that the militia would not be used "to nullify the

U. S. AIDES SEEK PEACE IN MAINE SHOE STRIKE

17 CIO CHIEFS FACE ACTION IN COURT

Continued From First Page

Federal law, the National Labor Relations Act."

The message concerning the militia was sent while a ring of steel—bayonets carried by steel-helmeted national guardsmen surrounded 18 strike-torn factories in this city and Auburn. Despite a downpour of rain, sleet and snow, the soldiers, under orders of Governor Barrows, continued their patrol.

The Governor, who ordered the troops out following a demonstration Wednesday afternoon, during which police used tear gas to disperse the strikers, today declared:

"There is no room for anarchy in Maine."

Meanwhile, as Meyers started his conferences, with the expectation that he would be able to arrange a public hearing before an examiner within ten days, CIO leaders also awaited Thomas J. Williams, representing the labor department in Washington.

HITS "GANGSTER RULE"

Williams according to yesterday's announcement, has left Washington headed for this city.

Cushman Abbott, president of one Auburn shoe factory still operating after the workers voted against striking, today declared his plant was always true to the principles of collective bargaining but:

"There will be no negotiations with a bunch of outside gangsters."

It was in front of his plant that the Tuesday afternoon violent demonstrations occurred.

Meantime, prospects for any untoward demonstrations seemed small today, as the khaki-clad young citizen soldiers settled down to military occupation of the twin shoe cities. They foot-slogged in pairs stolidly through the streets.

WOMEN IN SCUFFLE

Two young women who persisted in trying to force their way past officers were taken in custody and were hauled unceremoniously to Auburn police headquarters.

One of the girls, attempting to put up a fight, was picked up bodily by stalwart police and was carried kicking and screaming from the scene.

CIO organizers, generally credited with shrewd and successful resort to forceful measures in tickish strike situations, were definitely on the defensive here today.

Bayonets and gas bombs were trumps in the Lewiston-Auburn game, pending the economic wearing down process effected by the strike itself.

CIO STATEMENT

Thomas J. Burns, chairman of the New England Council of the CIO, issued a public statement, copies of which were sent to Governor Barrows, to Secretary of Labor Frances Perkins and to Maine United States senators and congressmen.

The statement said in part:

"The nation is aghast at the brutality and repression, masquerading as law and order, used in Maine against the Auburn-Lewiston shoe strikers. All reasonable people recognize that this destroys the very roots of American democracy.

"The New England Council of the CIO emphasizes that the present situation was provoked by the official agencies of the state governments . . .

"The New England Council of the CIO calls upon the defenders of democracy to sound an immediate protest against the Maine scandal. It demands the immediate demobilization of the National Guard. It demands that all federal money for the National Guard in Maine be withheld until the authorities give assurance that the militia will not be used as it is used now, to nullify a federal law—the National Labor Relations Act."

Her Strike Fight Lost

- Boston Evening American Photo

When the striking shoe worker shown above with state trooper, tried to crash through police and military lines in Auburn, Maine, she was repulsed with force. She and another girl were the only ones to resort to violence in a day of tension, during which militiamen patrolled the streets of the twin cities with fixed bayonets.

GREEN LAUNCHES NEW DRIVE AGAINST CIO

By the Associated Press

The American Federation of Labor tightened its battle lines today for a new offensive against the John L. Lewis Committee for Industrial Organization.

President William Green of the A. F. of L. coupled an attack upon the rival labor group with a call for a conference May 18 in Cincinnati "to marshal the forces of labor in America."

Ten "rebel" unions suspended for allying with Lewis were still technically within the A. F. of L. fold. The executive council, meeting at Washington, announced no formal expulsion order, but the breach was considered irreparable.

Green said the federation would continue to suspend units which supported the CIO.

CIO leaders, active on several sectors of the strike front, refrained from immediate comment.

The decision of Stockton, Cal., vegetable canners to reopen canneries despite a strike involving 1300 workers engendered fear of violence between strikers and 700 deputized citizens.

At Akron, O., 100 of 200 maintenance men abandoned the Firestone Tire & Rubber Company factories which they had occupied since the start of a seven-week-old labor dispute affecting 10,000 workers. The company and the United Rubber Workers' Union, A. C. I. O. affiliate, remained deadlocked.

The C. I. O. pushed its unionization drive into the Fort Worth, Tex., oil fields with an announcement it would never surrender "our right to strike," although declaring it did not intend to use the sit-down strategy. Governor Allred recently said sit-down strikes in connection with the drive to enlist 100,000 Texas oil field workers would not be tolerated.

One of the two warring factions in the Georgia state federation of labor—split over Green's demand that the state president resign because of his support of the C. I. O. —indicated it might ask the La Follette civil liberties committee of the Senate to investigate the row.

At Janesville, Wis., 2700 General Motors employes were thrown into idleness when a group of union workers on the frame line in the Chevrolet Motor Company refused to work.

CONGRESS BLOC ASKS BOOST IN U. S. TAXES

Continued from Page One

fund ranging from $2,000,000,000 to $2,500,000,000.

The alternate plan called for reduction in personal income tax exemptions for single persons from $800 to $800, and for married persons from $2500 to $2000, with an increase in the normal income tax rate from 4 to 6 per cent and commencement of surtaxes at 3 instead of 4 per cent. The plan would yield $175,000,000 to $300,000,000 a year.

While failure of the movement was indicated in view of administration opposition, foes of relief funds planned to make taxation an issue in the congressional fight over the relief program.

Senator LaFollette (P.) of Wisconsin was expected to make a fight for his own program of increasing income taxes on the smaller taxpayers. Rep. Voorhis (D.) of California, urging a $2,500,000,000 relief appropriation, suggested that Congress meet the situation with new taxes.

While stating that he did not propose specific levies, Voorhis suggested that Congress could fix the income tax exemptions at $1000 for single persons, $2000 for married persons, and raise the normal income tax rate from four to six per cent, together with increased surtaxes and estate taxes. Chief revenue, he said, would be obtained on incomes of $5000 to $50,000 a year.

Meanwhile Senator Byrnes (D.) of South Carolina submitted a two-point plan for balancing the 1938 budget by sharing relief spending with the states and imposing a 10 per cent cut in all Federal department appropriation bills.

APPROPRIATION CUTS

House Republicans planned to introduce a formal resolution today providing for a horizontal 10 per cent cut in all appropriations—a total of about $700,000,000.

The House was slated to pass the $927,000,000 annual agricultural supply bill in virtually the same form as reported by the appropriations committee, which cut $5,000,000 from budget estimates.

As an indication of tightening of purse strings, the Senate approved an appropriation to fight pests with a proviso requiring that the money be spent under the personal direction of Secretary of Agriculture Wallace and that a report be submitted to Congress.

Republicans continued to twit Democrats on every opportunity over the new economy program. Approving the Senate amendment, Rep. Taber (R.) of New York said: **"I think it is appropriate that the Secretary of Agriculture take personal charge of spreading poison. He is experienced."**

Merle Oberon's Mother Is Dead

London, April 23 (AP)—Mrs. Constance Charlotte Thompson, 56, mother of actress Merle Oberon, died today after a long illness. Miss Oberon was injured in an auto accident here last March 16.

Campaign to Free Luciano Begun

New York, April 23 (AP)—A move to fre Charles "Lucky" Luciano, convicted czar of New York's vice ring, from prison was launched in Supreme Court her today.

Opening with a bitter attack on Special Prosecutor Thomas E. Dewey, Defense Attorney Moses Polakoff filed affidavits from "Cokey Flo" Brown, Nancy Presser and Mildred Harris, witnesses for the state, recanting their testimony against Luciano at the first trial.

The affidavits asserted their evidence was untrue.

Boy, Hunger-Strike Prisoner, Is Dead

McAlester, Okla, April 23 (AP)—Jack Scott, 17-year-old hunger-striking prisoner, died today in the state penitentiary hospital. Dr. T. H. McCarley, prison physician, said he died of paralysis induced by a hunger strike started 16 days ago in the county jail at Ada.

The boy, a cripple, was awaiting trial for the slaying of a deputy sheriff after a drug store holdup.

AUTO WORKERS END STRIKE IN CANADA

Oshawa, Ont., April 23 (AP)—General Motors of Canada strikers voted today to go back to work Monday. The vote was 2,302 to 36.

The strikers thus brought to an end their 16 day old strike for recognition of the United Automobile Workers as their collective bargaining agent.

They won a wage increase and a cut in working hours. Whether the union obtained recognition was disputed.

The vote was on an agreement drawn up yesterday afternoon in Premier Mitchell Hepburn's office. Both company and union officials sat in on that conference.

REMOVE PICKET TENT

J. L. Cohen, union counsel, told a strikers' mass meeting before the vote today that General Motors recognized the union in the premier's office when company officials sat down with C. H. Millard, president of the U. A. W. A. Oshawa local, and Cohen.

Millard, Cohen said, would sign the agreement for the strikers today.

He maintained that act would accord the union recognition.

The agreement, however, is "between General Motors of Canada, Ltd., and its employes." The union isn't mentioned.

Even before the vote was announced, Millard ordered the pickets to remove the tents and shanties they had built at each of the plant's 20 gates.

3700 WORKERS QUIT

The 3700 workers walked out April 8, a few minutes after they had gone to work. Just the day before they had received the largest two weeks pay ever distributed here, $323,000.

Hepburn immediately entered the picture, accusing John L. Lewis and his "foreign agitators" of having come into Canada to "dip their greedy paws in the pay envelopes of Canadian workers for dues."

The United Automobile Workers, a Lewis union, had sent Hugh Thompson, an organizer from Detroit, to Oshawa, to manage the strike.

Each of Hepburn's efforts to mediate collapsed until Thompson left Oshawa Tuesday for Washington, D. C.

ENCYCLOPEDIA, VOL. 1, READY TOMORROW

Tomorrow's the day.

It's the day when you can start getting your set of the new Standard American Encyclopedia.

Volume one, the book you have been waiting for, is on hand at the Boston Evening American, 5 Winthrop square, or any of the other coupon redemption stations.

Clip today's coupon and the one in tomorrow's Boston Evening American on Page 3 to complete your week's set of six, consecutively numbered. With these six coupons plus the small cost of either 44 or 88 cents you can get your first book in the beautiful set of 15 volumes.

Do not be confused over the two prices.

2 TYPES OF BINDING

There are two types of binding and therein is the difference in price. The 44-cent volume is bound in luxurious, simulated marine blue leather. The other binding is the "luxury lifetime binding" of simulated leather heavily tooled and stamped in gold leaf effect.

It is durable, heavily seamed and stitched and is a careful reproduction of a binding that ordinarily would cost many times this "give-away" price of 68 cents.

But remember that regardless of what binding you select the contents are the same.

In these marvelous volumes you will get a parade of all the great figures of history. You will find all the momentous happenings in the annals of man, military, scientific, religious and otherwise spectacular.

AMAZING OFFER

All this kaleidoscope of men and things since the era when events were first set down in the form of permanent records is presented you for the first time at incredibly low cost through the Boston Evening American's amazing offer to its readers.

Beginning tomorrow, with the first volume, there is made available a wealth of illustrated knowledge, representing all the important places, events and human figures in history.

It's the chance of a lifetime to place on your bookshelves the finest encyclopedic collection ever assembled for widespread distribution at a minimum cost.

For the "luxury lifetime" binding edition, the cost for mailing is 79 cents if you reside within 150 miles; 84 cents beyond 150 miles. The extra charge, of course, is for postage and packing.

The mailing cost for the other edition is 54 cents within 150 miles; 59 cents beyond 150 miles. Address your special mail order blank, found on page 2 every day, to Encyclopedia, Boston American.

It's your chance of getting something you've always wanted. A modern encyclopedia and just for a few pennies.

COUPON NO. 5

THE STANDARD AMERICAN ENCYCLOPEDIA in 15 Volumes Offered by The BOSTON AMERICAN

Clip these daily coupons every day. Each six that are differently numbered entitle you to purchase one volume of the STANDARD AMERICAN ENCYCLOPEDIA at one of the conveniently located supply stations. Pay 44 cents for the Popular Home Binding or 88 cents for the Luxury Lifetime Binding.

DIVINE Freed, Flees FLOCK

OUT ON BAIL, RUSHES AWAY

New York, April 23 (AP) Marked by a shouting demonstration of 1000 cult followers, Harlem's self-styled Messiah, Father Devine, was arraigned by Magistrate William Farrell today on a charge of felonious assault and released on $500 bail.

A jostling, noisy crowd of Negroes milled frantically around the white leader as he was taken from the courtroom after furnishing bail.

A dozen burly detectives and police battled in vain to force the man who calls himself "God" through the surging throngs, who screamed "Father! Father!" in a crescendo chorus, and threw handkerchiefs and pocketbooks high in the air.

For ten minutes, the diminutive "Messiah" was lost in the jam, until plainclothesmen finally recovered him and rammed him bodily into a maroon-colored sedan.

Baker Real Name

Divine arraigned under the name of George Baker, bobbed his bald-pated head as the car slowly forged its way through the densely-packed street and finally, with gathering speed, made a getaway unseen after a four-block chase by his "heavenly disciples."

Four other Negroes, all cultists, were arraigned with the "father" on similar charges of felonious assault, resulting from the stabbing of Harry Green, a white contractor, of Weehawken, N. J., in a riotous free-for-all following a summons in a civil suit.

Immediately the summons was placed in Divine's hands, police said, the little "Messiah" and his followers set upon Green and the process-server.

The dapper, smooth-shaven evangelist, was arrested after a two-day hideout in one of his "extension heavens" at Milford, Conn. He appeared in police lineup prior to arraignment in court.

Obviously nervous, the Harlem "god" prefaced most of his replies by clearing his throat and he blinked into the bright glare of the lineup floodlights as Police Captain Thomas Dugan began to question him.

"Did you strike Green?" Dugan demanded.

"I did not, your honor," the cult leader replied, as though answering a judge in court.

Denies Fight

"Did you direct any one to do so?"

"No, your honor, I did not."

"What was the cause of the trouble?"

"I was not the cause of the trouble," the prisoner said, wrinkling his high forehead in annoyance. "I was preaching at the table and looking at the organist, and preaching on 'The Great Enthusiasm.' Someone snatched me and some others started to push. The crowds pushed and I pushed back. Then someone snatched me."

"Was it Green who snatched you?"

"I don't know."

"Had you a knife in your possession?"

"I did not. I have a very small knife on my watch chain. I didn't leave the table. I didn't hit anyone."

The cult leader breakfasted heartily before his lineup and court appearances from a tray brought to headquarters by a young Negress.

Angry growls swept through the crowd outside felony court when detectives sought to form a lane to permit the "Messiah's" departure following his arraignment.

"If you don't let him go," one demonstrator shouted, "the father will get tired of all this and walk away—just vanish."

The crowd began to gather long before the self-proclaimed "prophet" was due to appear, intermittently shouting "they can't jail God!" and "he's still God to us."

And when the arraignment was over, they hailed his departure with fervid cries of "victory! victory! God is back on earth!"

There was no question of their continued faith in the little messiah whose slogan "Peace! Peace It Is Wonderful" has allegedly led hundreds of his disciples to turn over all their worldly goods to his "kingdom."

Police found Father Divine at Milford yesterday, in the cellar of an "extension heaven" crouching behind a dust-covered furnace.

Two Ship Lines Freed of Strikes

New York, April 23 (AP)—Joseph P. Ryan, president of the International Longshoremen's Association, today announced settlement of the strike of longshoremen against the Cunard White Star and Furness Withy Lines.

Wife Weeps as Bensons Face Charges Here

Jack Benson, former Michigan convict, being fingerprinted at the Federal building, after arrival to face charges under Lindbergh kidnap law. He faces life if found guilty.

Boston Evening American Photos.

Mrs. Rhea Benson, 23, wife of Jack Benson, just after she arrived at the Federal building from Detroit, to be held with her husband in connection with the kidnaping of Roland Robichaud, a Lawrence taxi driver. She wept as this picture was taken.

PAIR FACE LIFE TERM IN LAWRENCE KIDNAP

A former Michigan state prison convict and his pretty, 25-year-old bride arrived at the Federal building today to answer to the Lindbergh kidnap law and face possible life imprisonment.

The pair, Jack Benson and Rhea Benson, are charged with violation of the Lindbergh law and another federal offense in interstate automobile traffic as the aftermath of a wild automobile ride last December from Lawrence to St. Louis, Mo., and the kidnaping of Roland Robichaud, Lawrence, taxi driver.

The Bensons, who were arrested during a raid on a Detroit apartment house, were brought here by U. S. Marshal John Barc of Michigan and turned over to U. S. Marshal John J. Murphy. They were fingerprinted and held for arraignment later in the day.

Robichaud was spirited at gunpoint from Lawrence and was unable to escape his captors until after his taxi was in a crash in St. Louis. Police still are seeking a third man who allegedly accompanied the Bensons on the cross-country dash.

Aged Couple Robbed by Fake Gold Buyer

Forced to look helplessly on because of fear, an elderly Jamaica Plain couple was robbed of $250 in jewelry by a man professing to be an antique dealer and buyer of old gold, it was revealed today.

The victims of the theft, which occurred yesterday afternoon, were 73-year-old Adolph Schworer and his wife, Anna, 64. The couple live on Chestnut street.

According to Mrs. Schworer, a short, dark-haired man, about 35 years old, told her he had come to look at her antique furniture and old gold since he was in the market for both. She said he showed her a roll of bills.

After she took out her jewelry, watches and rings from three bureau drawers, she said, the man took them and hastily went out.

"We were afraid of him," she said. "That's why we didn't try to stop him."

So Stolen $50,000 Is Gone

Woman 'Had to Keep Up With Joneses'

New York, April 23 (INS)—Pretty Mrs. Helen Harper, trusted bookkeeper who took $50,000 from her employers and spent it in "keeping up with the Joneses," stood in the police lineup today and smilingly admitted she had not a cent of it left.

Accused of embezzlement, the comely 33-year-old woman who traveled around the country before voluntarily surrendering stood before questioning policemen, calm and unconcerned.

"Is there any of the $50,000 left?" Captain Duggan asked.

"No," was the quick reply, "I haven't a cent left."

Mrs. Harper told police she took the money to enable her to live like her swanky neighbors in Great Neck, L. I. She admitted she had manipulated her company's books over a six-year period.

To all questions as to whether she used the funds taken from her employers to finance her husband in the production of independent movies, Mrs. Harper answered in the negative.

She simply said:

"I have lived in a nice section of Great Neck. The people live well there and I wanted to live the same way."

From the line-up, Mrs. Harper was taken to court for arraignment.

She did not lose her nerve as she faced Judge Allen.

"I haven't got a lawyer, your honor, and I'd like time to get one," she said in well modulated tones.

Judge Allen adjourned the hearing to April 29.

Couple in Noted Mate-Swap Now Expect Stork

San Francisco, April 23 (AP)—A baby is expected this week, the San Francisco Examiner said today, by a couple who figured in Redwood City's mate-swapping case last year.

The newspaper quoted friends as saying Mrs. William Werder had engaged a room at Palo Alto maternity home.

Mrs. Werder was Mrs. Roy Burness until a year ago in January, when she divorced her husband in Reno, Nev., and married Werder.

Their marriage preceded by six days the wedding of their former mates, Burnett and Mrs. Desira Werder.

The two young women, friends and neighbors in Redwood City for years, and their husbands, equally friendly, went to Reno in the same party.

Their wives occupied a Reno apartment together. Their husbands returned to Redwood City to resume their jobs with two oil companies. They "batched" together while awaiting the divorce decrees.

Strikes Sweep Poland

Warsaw, April 23 (AP)—A wave of strikes was unabated throughout Poland today, topped by a walkout of 3500 workers in an Otorkow textile mill. Several hunger-striking miners at Siemianowice were taken to a hospital.

SMOOTH Speech BY KING

STAMMERING CONQUERED

By DAVID P. SENTNER

Windsor, Eng., April 23—Clearly and flowingly the words of a man who once blushed and stammered when he faced an audience were spoken today when King George VI made the first public address of his reign.

A tremendous crowd gave the King and Queen Elizabeth an immense ovation as he unveiled a memorial to his father, George V, in brilliant sunshine overlooked by the towers and battlements of massive Windsor castle.

In an exceedingly rare departure from royal precedent, text of the speech had been sent to the newspapers in advance.

But of highest interest was delivery of the words themselves, as this speech of the former stuttering Prince was a veritable preview of his replies at the Coronation ceremony May 12 and the Empire-wide broadcast he will make on Coronation night.

Queen Elizabeth stood close at the King's side, lending him courage, and glancing up at him several times as though to remind him of the many hours through many years she had worked with him to cure his speech defect.

Worried, however, lest he should make some slip, the King uttered the 300 words of his speech with strong tones and with deliberation.

SHIRLEY TEMPLE AGEING; SHE'S 8 TODAY

BABY QUEEN OF FILMS FETED

Hollywood, April 23 (AP)—Dimple-cheeked Shirley Temple, Hollywood's answer to folk who think precocious children ought to be gagged, is eight years old today.

She is impressed by the event, but there'll be no special hullabaloo.

Here is the schedule:

To school in the morning. She isn't working at present. Then a quiet birthday dinner with her parents, Mr. and Mrs. George Temple.

Shirley makes enough money to float a good-sized bond issue, but it wouldn't be apparent in the relatively homespun gifts her parents have selected for her.

The principal one is a cooking outfit. Shirley recently has shown a great interest in culinary arts. She said she wants to have a pie factory when she is grown.

Some cynics, however, have suggested the motive behind this is not strictly artistic—that her interest in the finished product and what it overshadows the joy of pure creative work.

Her two brothers, George and Jack, aren't home to help their amazing sister observe the momentous day. One is at Leland Stanford University, the other attending a prep school in New Mexico.

From over the nation last year Twentieth Century-Fox Studio received notice of 21 Temple parties. This year there are at least 35.

Saturday at the studio Shirley will entertain 175 children. A dining room will be turned over to the party.

Shirley has not changed much since her last birthday. A more finished actress, with more accomplishments, she so far hasn't undergone the radical physical changes that frequently visit children of her age.

She was the movies' number one box-office attraction in 1936—and four years ago she was just another cute, dimple-cheeked, curly headed tike.

SHIRLEY TEMPLE

Shirley regards her piano playing as her most significant accomplishment in the past year. "Silent Night" is outstanding.

Seat Rush as Mrs. Norton Again Accuses Clark Gable

HER SCREAMS ROUSE COURT

Los Angeles, April 23 (UB)—Seats in the Los Angeles court room where Mrs. Violet Wells Norton, buxom Englishwoman, is being tried for conspiracy to defraud Clark Gable and others of $150,000 through a paternity charge involving her 14 year-old daughter, Gwendoline, are at a premium today.

Mrs. Norton, who yesterday kept the court in an almost constant uproar with her histrionics, will resume the stand in her own defence. It is expected that she will have further sensational statements to make and more exhibitions of excitement and dramatic screaming to put on.

Sensations followed in quick succession in the paternity fraud case featuring the screen idol of a million women.

Mrs. Norton twice "identified" the famous star as the father of her daughter, born out of wedlock after a romance fifteen years ago, and finally half-raised herself from the witness chair to shout defiantly:

"I still believe Clark Gable is the father of my child."

DAYS DEVELOPMENTS

Other developments of the drama-packed day were:

1—The famous star returned to the witness stand to submit to minute scrutiny by the graying Englishwoman who claims to have known him when he was Frank Billings" in England.

2—Mrs. Norton's attempt to clear her co-defendant, Jack L. Smith, and Frank J. Keenan of any complicity in the alleged plot to extort money from Gable on a false parentage claim. Keenan was indicted but never been extradited from Canada.

3—Reading into evidence amorous love letters from the accused woman, which caused spectators to lean forward avid for more and brought an expression of amusement from Gable.

4—Introduction by the prosecution of documents—birth and marriage certificates—which were claimed to blast forever any claim by the Englishwoman of any romance with Gable in 1922 closely paralleling the star's outstanding screen hit, "It Happened One Night."

The prosecution believed that through a parade of witnesses and a hillock of evidence it had proved such a romance was impossible, as the great screen lover had never been in England.

MRS. NORTON INSISTS

But the 47-year-old Englishwoman insisted otherwise.

Recalled to the witness stand by the defense, Gable sat motionless and the spectators fidgeted as the Englishwoman left the seat, advanced and closely inspected the star.

Asked by her attorney she returned if he was "the man," Mrs. Norton huskily whispered:

"Righto. 'E is, indeed."

Gable smiled.

A few minutes later, on the witness stand, Mrs. Norton was shown photographs of Gable taken during the period of 1922-23 when witnesses said he was a humble toiler in Oregon. Without hesitation she identified them as those of the man she knew as Frank Billings.

GWENDOLINE NORTON

MRS. VIOLET NORTON

Spectators gasped. The 14-year-old "love child," Gwendoline Norton, gasped. Federal Judge George Cosgrave ordered a recess.

WARNED BY JUDGE

When the session was resumed, Assistant U. S. Attorney Powell demanded:

"Do you mean to say that you still believe Clark Gable—the man you saw on the witness stand this afternoon—is the man you knew in England as Frank Billings, the man you say is Gwendoline's father?"

After being admonished by Judge Cosgrave against "screaming" a reply, the Englishwoman cleared her throat and declared firmly:

'Yes. That's what I say, and that's what I mean. 'E's one and the syme, if you ask me."

Spectators were in disorder. One was ejected. Jailing of others for contempt of court was threatened, when her intercepted letters to Gable were read into the evidence.

She also looked pleased when her daughter, again placed on the stand testified Herbert Norton, the English bank clerk to whom Violet was wed two years after Gwendoline was born, and with whom she lived, by her own admission, for some time therefore, had told her:

"Clark Gable's the kid's father. Let him support her. I won't."

Gwendoline testified too that Norton, in a fit of anger, had taken a knife and slashed from the wall of their cottage in Essex a fan magazine photograph of the star.

PEERED AT GABLE

Mrs. Norton continued to smile as a marriage certificate introduced by the prosecution showed her to be an unwed mother when the child was born; nor did her smile lessen when the birth certificate listing Norton as the girl's father was introduced.

She was smiling when she walked to the witness stand, peered at Gable and announced:

"'E's 'im. Clark Gyble or Frank Billings, hit's one and the syme. Righto! Yes, hindeed."

But when she herself took the stand her demeanor changed. She screamed, she shouted, she shook a finger in Prosecutor Powell's face. She stared angrily at Judge Cosgrave when he suggested she tone down a bit.

She employed such histrionic gestures as hiding her face with her hands and heaving a sigh from the very depths of her ample bosom.

She fingered a photograph of Clark Gable and announced:

"This, yer 'onor, his a true likeness of 'im that hi knew as Frank Billings—'im that clyme now 'is nyme's Clark Gyble.

"Ho Hi'd know it anywhere. Hit's the nyme tu'appy 'pon that used to light hup so tenderly when 'e 'eld me in 'is harms.

"Hafter little Gwendoline was born, 'e went to London, Frank did. Hi saw 'im hafterward, though. 'e said 'e was going to Hamerica.

"Hand hi never saw 'im again until now. His 1931 hit was when hi picked up a cinema magazine and saw 'is picture — the spiting himage of Frank, hif hi may sy so."

FORCED TO LEAVE

Differences with Norton, she said, had forced her to leave England and go to Winnipeg, Can., where she met Frank Keenan, elderly Canadian to whom she told her story and who financed her trip to Los Angeles and also enabled Gwendoline to come here.

She said her letters to Gable had caused an investigation by Canadian postal authorities, but denied they had advised her to cease writing.

Upon her arrival here, she testified, she went to Attorney Hiram MacTavish and asked him to get her a room near Metro-Goldwyn-Mayer studios, so she might see Gable.

Powell showed her the birth certificate. She winked knowingly and said:

"Ho! That' 'Herbert Jymes Norton never signed that, 'e never. Hi gyve 'is nyme as Gwendoyine's father.'

She revealed, in passing, that her taste in films was limited to "Gybis pictures."

GABLE LAUGHS

Out of the corner of her eye, as she sat in the witness chair, she watched Gable's reaction to her tale.

When he laughed—as he did frequently—she was inspired to new dramatic efforts.

And when she screamed she seemed to be screaming for his benefit.

In defending Smith, a private detective, who testified he was prompted by the "spirit of fair play" when he suggested that the movie industry or Gable's studio establish a $150,000 trust fund for little Gwen, the child's mother said:

"I never saw Smith until this case broke."

She described Keenan as a "kindly old gentleman" without ulterior motive when he financed her trip to Hollywood.

Smith was almost the "unknown man" in the trial until he took the witness stand when the defense opened its case. Attention had centered on Gable and the woman who claimed to have succumbed to his impetuous wooing.

THE BRIGHTER SIDE

By DAMON RUNYON

(Copyright, 1937, by King Features Syndicate, Inc., International and All Rights Reserved)

Mr. Tony Biddle, Jr., our minister to Norway, has just been appointed ambassador to Poland.

We understand that this is in the nature of a promotion. An ambassador is much classier than a minister, though a minister is not to be coughed at, you understand. The ambassing job pays more.

Damon Runyon

We doubt, however, that the salary is any great consideration to Mr. Tony Biddle, Jr., as he already has more money than most folks have hay. Indeed, we are informed that while he was in Oslo, the capital of Norway, Mr. Biddle's salary as minister just barely sufficed to keep him in ear-laps. It gets right nippy in Oslo in the winter, and Mr. Biddle is a man who likes to have his ear-laps match his various changes of apparel.

It is unnecessary, of course, to mention that Mr. Tony Biddle, Jr., is of the Philadelphia Biddles. There are Biddles elsewhere in these United States, perhaps, but outside Philadelphia they are in the lower brackets.

The Biddles, to Philadelphia, are about what the Cabots are to Boston. Well, maybe more so. There are Lodges in Boston to cut in on the Cabots' play. There is no one in Philadelphia to out-Biddle the Biddles.

Carry Notes

We do not know much about our ambassadors as a class and are not altogether familiar with their functions. About all we ever hear of them is when they are carrying notes from our government to some other government, and getting no satisfaction.

We want to state, however, that if it takes a man of even temperament, friendly nature, and plenty of human sympathy, to make a good ambassador, our Mr. Tony Biddle will do all right in Poland. If we were in any sort of a jam over there, we would not want a better man in our corner than Mr. Biddle.

The only dubious mark on his record goes back to the time he well nigh ruined the manly art of scrambling ears, otherwise known as the boxing game, by feeding it champagne and caviar. Mr. Biddle afterwards frankly admitted his error, but it was too late then. An entire generation of the manly art was corrupted.

It all happened a matter of about ten years ago, when the manly art was flowering—or perhaps we should say cauliflowering—in New York as never before or since, and Madison Square Garden had as its best customers a coterie of gentlemen known as the 600 millionaires of which two remain. That is, two who still are millionaires.

Paid $35,000

It suddenly became the fashion for millionaires to own prizefighters, and Mr. Biddle, who would rather be dead than out of fashion, was one of the first in the field. He purchased for the tidy little sum of $35,000, a contract on a Belgian heavyweight, Rene De Vos, by name.

This Rene De Vos was somewhat celebrated as a three-handed fighter. He dealt out punishment to an opponent with his right, his left, and his head. This last was his best punch. He was a pretty good fighter, at that, and Mr. Biddle turned him over to the management of Mr. James Bronson, a well known fistic director.

"Now," said Mr. Biddle, "I think a fete, or carnival, is in order."

"What for?" demanded Mr. Bronson.

"Why," said Mr. Biddle, "so that I may meet the members of the fistic fraternity."

"They aren't worth it," said Mr. Bronson, positively.

Nonetheless, Mr. Biddle had his way. He pitched a party at a high-toned Fifth avenue hotel, and he made it open house for the manly art of scrambling ears, as well as for his own friends.

The hotel management commenced to have disquieting qualms when the first delegation of guests, ten in number, stepped into the lobby. At that moment, a clerk banged a bell to summon a bell-hop, and all of Mr. Biddle's guests began shadow boxing.

However, the management was not really disturbed until two hours later when the chef rushed into the office reporting the theft of one of the kitchen stoves. There was a fire in the stove, too.

In the banquet hall, Mr. Biddle had provided lavishly of caviar and champagne, disregarding Mr. Bronson's advice to ladle out more simple fare. Mr. Biddle insisted that the caviar and champagne were symbolic of the new era that had come to the manly arc of scrambling ears.

He began regretting that he had not listened to Mr. Bronson's advice when he noticed a prominent exponent of the manly art who was an adept in the pleasantry, characteristic of the boys, of shooting birdshot through his teeth, practicing his science with the caviar on the white shirt fronts of his millionaire guests.

Good, Clean Fun

A slight diversion was created by one of the ten leading featherweights of the period. He passed an open door down the hall from the banquet chamber, and noting an elderly lady taking a siesta by the window, stepped in and gave her a "hotfoot."

A few days later, however, the iniquitous effects of Mr. Biddle's well-intentioned entertainment became apparent.

The exponents of the manly art who had been to the party, began demanding caviar as part of their training diet.

It is only within the past few years that the manly art of scrambling ears has recovered from the taste of high life given it by Mr. Biddle, and gone back to the old standard diet of pork and beans.

A Royal Collection of

English Topcoats

TAILORED IN LONDON

To the ranking woolen mills in the West of England and Scotland went our men's clothing buyer. There, where weaving has been a fine art for generations he bought his materials, then commissioned a well-known firm of London tailors to make up the topcoats for us. By dealing directly with the mills he was able to include such aristocrats as cashmere and wool coatings (so fine they feel like kitten's fur; seldom found outside of fine custom-tailor shops). All tailored in characteristic British fashion with all the details and refinements for which Bond Street is so well known; all finished with luxurious Celanese yokes.

GRENNON, ON STAND, DENIES GRAFT CHARGE

BROOKLINE OFFICER TELLS OF AUTO CASES

Continued From First Page

is choking me. He's been getting fresh and trying to attack me. Now he's trying to choke me."

Recalled to the stand as a rebuttal witness, after Grennon's defense had rested, Miss Roddy denied vigorously that she had ever said Giordano was choking her, attempting to "get fresh" or was in any way annoying her. They were merely talking, she declared.

Grennon testified that he hauled Giordano out of the car after he refused to come out voluntarily. The officer admitted that although he told Giordano the offense was serious he did not place him under arrest.

The officer's explanation was that he did not know whether or not he had sufficient evidence and that he felt a "good scare" would be good for Giordano.

Likewise did Grennon support yesterday's testimony by Donovan that the girl had lost a glove at the spot, that Donovan found it after the girl had gone into the house, and that he gave it to Donovan to return, as Grennon's beat was being shifted.

In between, however, there was a trip by the two officers and the man and girl to a police box at Hammond and Boylston streets, Grennon said, but no mention of money was made at the police box, either, as the girl had testified.

STORIES DIFFER

Here, however, the two officers' stories differed. Where yesterday Donovan testified that the couple were allowed to go home from the police box and that the officers came again on the car parked, Grennon testified today that he and his partner escorted the couple back to the house where the girl worked.

Grennon also claimed that when Giordano first got out of the car, his clothing was disarranged.

In the case of Daniel MacLeod and Miss Bella MacDonald, also a Brookline housemaid, Grennon denied having asked MacLeod for $10 to drop a serious charge against him and the girl.

The policeman made the same explanation today on the stand for not arresting either of the couple—that he was not sure he had sufficient evidence. He admitted having threatened both with arrest, however, as late as two nights after the incident.

SAYS HE WAS ALONE

According to Grennon's testimony, he was alone and on foot when he came up to MacLeod's car, parked in Brookline.

This was shortly before midnight on July 4, 1933, Grennon said, and when he suddenly opened the door of the car he discovered MacLeod and Miss MacDonald in a compromising position.

Grennon claimed in his testimony that he was "so disgusted" that he merely closed the door of the car and started to walk away, but MacLeod left the machine and followed him. Then Grennon asked for his license and registration, he said.

The officer declared he then departed to pull a box, and when he arrived at the box, MacLeod pulled up alongside in his car and asked what Grennon intended doing. Grennon said he told MacLeod both he and the girl were going to court.

DENIES ASKING MONEY

MacLeod then offered to drive the officer to a second box, said Grennon, but he denied asking for money or mentioning money on this ride.

He also denied having waylaid Miss MacDonald, as she claimed, two nights later near the house where she is employed, asking her to take a walk with him and sit on the grass or attempting to "date" her.

Counsel for the state and for the defense agreed that the case would probably be in the hands of Judge Edward F. Hanify today, after brief closing arguments.

All three defendants waived their right to a jury trial.

First witness for the defense was Patrolman Donovan, a veteran of 31 years on the Brookline force.

He denied demanding an receiving $5 from Miss Roddy.

He also denied putting his arm around Miss Roddy or asking her to sit on his knee.

He said he never returned $5 to Miss Roddy, never gave $5 to her escort, Giordano, and never even met Francis T. Whitehead of Weymouth, another alleged extortion victim.

Police Chief H. Alien Rutherford of Brookline took the stand as one of the last defense witnesses, but contradicted the testimony of one of his own officers, Donovan.

The chief said that when he questioned Donovan last June on the Roddy-Giordano case, Donovan claimed he had never been out of the car and had not talked with either Miss Roddy or Giordano.

Donovan testified that he saw Giordano on the street after the parked auto incident and Giordano poked a finger in his stomach and threatened to "get even."

FATHER OF FIVE

Stocky and pink-faced, with a fringe of white hair around a bald spot, 57-year-old Officer Donovan was a self-possessed witness. He is the father of five children, he said.

Describing the auto parking incident in which Miss Roddy and Giordano figured, he testified:

"It was about three o'clock in the morning. We (he and Grennon) pulled alongside this car, parked in a dark street. They were sitting parked in their car.

"As we pulled up, she (Miss Roddy) hollered out to us, 'Thank God you're here. This young man threatened to choke me if I don't do what he wants.'

"That was just how she put it.

"Giordano was there in the seat some time before getting out. Finally, Grennon put his hand on his collar and pulled him out.

"Giordano let out two or three great yells. Then I drove my car up ahead of their car. I got out and went back.

'SHE WAS AFRAID'

"Grennon and the young fellow were in the street, having quite an argument. The young lady said he brought her there much against her wishes. She said she was afraid and she wanted us to take her home. I said no.

"We drove down to the patrol box at Hammond and Boylston streets. When we got there, Grennon and the boy walked across the street to the box together. They were gone about a minute.

"We told the boy to take her home. Grennon said, 'We'll go along to make sure she gets home all right.' We drove along a different way.

"When we got to her house, we saw they had the car pretty well opened up. She said to Grennon, 'I lost my glove.' We looked around and couldn't find it.

NO COMPLAINT

"Grennon ordered Giordano to go home and not bother this girl any more. She made a statement he'd been bothering her for two years and she didn't want to go out with him because her sister objected and only went out with him to get rid of him.

"Grennon asked her if she wanted him locked up and she said she didn't. Grennon said, 'We can't do anything unless you make a complaint.'

"Then we drove back by the place where they had been parked. We found the glove near there. Grennon gave it to me saying, 'I'm getting shifted tonight and I won't see her again.'

"Next morning she called up my house and asked me if I had found the glove and I said yes, I did, and would leave it for her at the station house.

"She said: 'Please don't ask me to go to the station. I want to see you. Won't you please bring it up?'

DENIES WRITING

"I was going over to West Roxbury, anyway, and her house was on my way. I drove up there and left the machine running. She answered the door. She asked my if anything could be done about last night. I said it was up to her and she said no. I gave her the glove and left, and that was all there was to it."

Q—(By defense counsel) Did you ask her for $5? A—No, I did not. I'm positive.

Q—Is this your handwriting? (Showing the witness an envelope addressed to Miss Roddy) A—No.

Q—Did you ever see this envelope before. A—Only when it was shown me by Chief Rutherford, last June."

Donovan was then questioned about his contacts, if any, with Giordano, after the parking incident.

Captain David Brickley, an overseas officer, who testified for Patrolman Thomas G. Grennon, one of the Brookline police defendants. He was a character witness.

State Detective Michael F. Fleming was a prosecution witnes

TRIAL SLATED TO GO TO JUDGE TODAY

U. S. Maritime Day Set by President

Washington, April 23 (AP)—President Roosevelt proclaimed May 22 today as national maritime day. The action commemorates the sailing of the steamship Savannah from Savannah, Ga., May 22, 1819, on what was described in a congressional resolution as the first successful trans-oceanic voyage under steam.

Markham Feted On 85th Birthday

New York, April 23 (AP)—Staten Island did special honor to Edwin Markham today on the poet's 85th birthday, but the occasion also was observed in all New York city schools.

Borough President J. A. Palma designated the day as Markham Day. Markham rose at noon, received many congratulations, then prepared to attend a reception later in the day. The poet's health, failing some months ago, has improved.

Kelly Admits Kisses

Testifies He Soon Tired of Portia

Continued From First Page

him till how he had met Sally on a boat trip to New York in October of 1934.

ATTRACTED BY DANCING

"I was attracted by her dancing," Kelly said. "She was a good dancer, and we spent some time dancing together on the boat."

He continued to take her out, Kelly said, because Miss Griffin was nice looking and a good dancer.

"I went only as an escort, though," he said. "I was proud to be seen with her."

"How many cocktails did you have," asked Attorney Scharton.

"Very few," Kelly replied.

He also denied that their companionship ever went farther than "just kissing" and said:

"Nothing further than that ever entered my mind."

"NEVER INTIMATE"

Previous testimony that their relations had been "intimate," he branded as untrue, and denied ever introducing Miss Griffin as "the future Mrs. Kelly."

He met Miss Griffin when he was 27 years old and was the father of three children, Kelly said.

During their entire friendship he spent a total of not more than $25 on her, and never did he keep her out until 5 o'clock in the morning, he testified.

He never gave her any money for room rent, after she had left the home of Bertrand Garland, allegedly because of a quarrel over her seeing Kelly after she had found out he was married.

"I never contributed any money to her home life," Kelly said.

NOVELTY "WORE OFF"

The novelty of their friendship soon began to wear off, the salesman said. He became tired of her kisses and reluctant to talk with her, but Miss Griffin persisted in calling his home, Kelly said.

"I told her several times that we were through," the defendant testified.

"She would insist on calling me at my home, leaving assumed names when my wife answered the telephone."

"You would imply that Sally was a huntress?" asked Scharton. "You mean to say she tracked you, even to your home?"

"Yes," said Kelly, simply.

Then he told of the last telephone call that severed their relations, and which Miss Griffin said yesterday, convinced her that he did not intent to keep a promise as he claims he made to divorce Mrs. Kelly and marry her.

"She called my home, and was talking to my wife," Kelly said. "I took the phone, and when I got through telling Miss Griffin what I thought of her, she was speechless!"

Mrs. Christina Kelly, loyal wife of the defendant, was called next to the witness stand to testify that her husband's devotion to her was constant.

If Joe stepped out with other women, she didn't know it, she said. And she added:

"I don't think he did, either."

She had married Kelly 10 years ago, she said. Now they have five children, and she is fighting for their honor, she said.

Miss Griffin, she met through Bertand Garland, Jr., whose home Miss Griffin was formerly a warder, Mrs. Kelly said.

TELLS OF CALLS

She never suspected that her husband and Miss Griffin were anything more than friends, until Sally began to call him on the telephone, she said.

"Miss Griffin repeatedly called the house on the telephone, and would ask for Joe," Mrs. Kelly testified.

"She never used the name of Miss Griffin, but would tell me she was 'Miss Jones.' She said she wanted to talk to my husband for business reasons."

On one occasion, Mrs. Kelly said, she went with her sister and with Miss Griffin to a beano party in Charlestown, but at that time she never suspected that Miss Griffin's interest in her family was in anyone but herself.

Kelly's sister, Mrs. Margaret Mayo of Brookfield road, Medford, took the stand to corroborate this statement.

Questioning of Miss Ada Lynnfield, formerly a maid in the Kelly house, by Attorney Scharton proved futile this morning, and the courtroom had to be quieted on several occasions.

Miss Lynnfield denied repeatedly, in answer to Scharton's question, that she remembered any part of conversations alleged to have taken place in the attorney's office two weeks ago.

A witness for the prosecution, Mrs. Catherine Thervierge, wife of a Lexington druggist at whose home on Massachusetts avenue Miss Griffin had formerly been a boarder, said that Kelly had often called for Sally while she lived there.

She testified that he called as many as 15 or 20 times, and that he kept Miss Griffin out until the early hours of the morning up to the time she complained to Sally about it.

That was when Sally was still a 17-year-old student in Lexington High School, she said.

Joseph L. Kelly, oil salesman, and father of five, who denies everything except that he found "the affair very pleasant."

Publishers Elect Tennessee Man as President

New York, April 23 (AP)—James O. Stahlman, publisher of the Nashville (Tenn.) Banner, was named president of the American Newspaper Publishers Association today at the annual election of officers, which concluded the golden jubilee convention.

John S. McCarrens, publisher of the Cleveland (O.) Plain Dealer, was elected vice president. E. H. Harris of the Richmond (Ind.) Palladium-Item was re-elected secretary, and Walter M. Dear of the Jersey Journal, Jersey City, N. J., was re-elected treasurer.

Jerome D. Barnum of the Syracuse (N. Y.) Post-Standard, retiring president, was named to the board of directors to replace McCarrens.

Five other directors whose terms expired were re-elected. They were Norman Chandler, Los Angeles Times; Howard Davis, New York Herald-Tribune; F. I. Ker, Hamilton (Ont.) Spectator; W. E. Macfarlane, Chicago Tribune, and Charles H. Taylor, Boston Globe.

2d Divorce Sought By Rutland Wife

Salem, April 23—On grounds of desertion, Mrs. Emma V. Dugan of Rutland filed suit for divorce in probate court here today, revealing she had married her husband a second time after he had once divorced her because of desertion.

In her petition she stated that she was remarried June 1, 1929, at Lowell but that her husband left her four months later at Marblehead. She said she was first married January 7, 1921 at Chicago and her husband, John W. Dugan, secured a decree nisi December 10, 1925. Mrs. Dugan stated they have one child, Frances, 14.

Her husband entered an appearance to contest the action.

3-Alarm Blaze At Prison's Wall

Wethersfield, Ct., April 23 (AP)—Heavy smoke surrounded the northeast part of the State Prison here early this afternoon when a three-alarm fire broke out in the prison garage just outside the prison wall.

From 15 to 20 cars were destroyed.

Guards and policemen armed with riot guns were on duty, but there was no trouble inside the prison.

Langone Objects

Loud protest was voiced by Senator Joseph A. Langone, when the state Senate passed to be engrossed on voice vote a bill to bar members of the executive council from appointment to state jobs.

Ask Spain Gas Ban

London, April 23 (US)—The British government has urged both Belligerents in Spain's civil war to refrain from the use of poison gas, the foreign office has disclosed.

No Police Banquets

Commissioner Timilty has cracked down on future banquets for promoted or transferred police officers, declaring it bad business for police officers to sell tickets.

Lily Pons Rests

New York, April 23—Lily Pons, Metropolitan Opera soprano, was in Lenox Hill Hospital today for rest. Her physician, Dr. W. R. Dajell, said that she needed rest.

Melrose Tax Up

A rise of $1.80 in the Melrose tax rate was announced today by the Melrose board of assessors, bringing the total assessment to $33.50 for 1937.

Mosquitos 'Spit'

St. Louis, April 23—Dr. Robert L. Benson of Portland, Ore., said today, that mosquitos not only bite but also spit. It is this saliva which makes the bite swell and itch.

'Rent' Masterpieces

Chicago, April 23—Reproductions of Rembrandt, Cezanne, and other masterpieces may be rented for 60 days at the art institute of Chicago.

DIPLOMAT HITS COURT PLAN AS MENACE

By WILLIAM K. HUTCHINSON
International News Service Staff Correspondent

Washington, April 23—Jacob GouldSchurman, educator and diplomat, today opposed President Roosevelt's Supreme Court plan as a "menace" to free government and a "precedent for dictatorship" in America.

Schurman, former ambassador to China and Germany, warned enactment of the plan would destroy the "independence, dignity and world-wide fame" of the Supreme Court. He urged the Senate judiciary committee to reject it as "contravening the spirit of the Constitution."

He was to be followed by J. Francis Smith, Democratic state chairman of Connecticut. Their testimony will end the public hearings. Chairman Ashurst (D.) of Arizona announced the committee would begin secret deliberations on the President's plan Tuesday.

Administration leaders were ready to authorize immediate consideration of the bill in the Senate. This indicated debate on it would start the first week in May.

Rechecking of an earlier International News Service poll indicated the committee was still lined up against any material change in the President's plan. This was due chiefly to the attitude of opposition Senators, who believe they can defeat the proposal for six new justices in the Senate.

Nock Scores President In Court Plan Article

New York, April 23 (INS)—President Roosevelt's Supreme Court plan was termed a "proposal to add a kept judiciary to a kept Congress" by Albert Jay Nock today in an article in the American Mercury.

Nock asserted the testimony of Mr. Roosevelt's career in the presidency "bears substantial witness to his having been fashioned by nature out of the very stuff of which the wost and most dangerous autocrats are made." He urged editors and publishers to "leave off a pedantic discussion of Mr. Roosevelt's proposal, and confine themselves to charcterizing it as it deserves."

Asserting editors and publicists should warn the public against "the danger of experimenting with Mr. Roosevelt in the role which he proposes to fill," Nock said:

"If they do not do this, I submit that they are putting the country in a bad way. They are leaving a clear field for the inert thoughtlessness of the masses who are now idly saying that 'anything F. D. R. wants is good enough for me!'"

All Lost and Found Ads published in the Boston American-Sunday Advertiser are broadcast over Radio Station WCOP each morning at 10:55 A. M., 11:05 A. M. on Saturdays at no additional charge to the advertiser.

Judge Dowd Hits Farley Talk Here

Greeting Postmaster James A. Farley's vigorous appeal for support of President Roosevelt's Supreme Court reorganization with silence, more than 200 Boston University Law School alumni wildly cheered Judge Thomas H. Dowd's attack on the President's proposal.

Hazing his appeal on the grounds that the people of this country gave the President a mandate in the last national election by a majority of 11,000,000, Postmaster Farley compared the present criticism of the court plan with the fight made by the Tories against Thomas Jefferson.

Judge Dowd's attack on the proposed changes in the tribunal came after Postmaster Farley had left the City Club to catch a 9 o'clock train for Washington.

SORRY FARLEY LEFT

The jurist, prominent for years in Massachusetts court circles, expressed his regret that the Postmaster-General had to leave before he could give voice to his criticisms of President Roosevelt's court-change plan.

Judge Dowd Said:

"What's wrong with the Supreme Court? What's the necessity for a change? Isn't the business of the court cleaned up, and in the thousands of cases it has passed upon, less than one per cent have had to do with invalidating acts of Congress?

"If you are going to reorganize the Supreme Court because it invalidated legislative acts, then they should go the full distance and reform every other court in the land, because for 147 years they have all been invalidating acts of legislation.

NO NECESSITY

"I listened with attention to the address of our distinguished guest tonight and was unable to find any valid necessity for the proposed change.

"Did you ever see nine men so pilloried and vilified? I have the greatest possible respect and admiration for our great President, who has done so much under trying circumstances during the years he has been the head of this nation, but I cannot follow him in a matter like this, in which he appears to strike down on the minority and deprive that minority their right to protection under the Constitution."

Throughout his speech, Farley referred as a parallel for today's situation, that which confronted Jefferson, who Farley said, "socked the Tories of his time with the assertion that no man, nor group, nor class has a divine right to mount and ride on the backs of the masses of mankind."

NEW BLOOD NEED, HE SAYS

The President's plan, he emphasized, removes no man who prefers despite old age, to remain on the supreme bench.

"But it does make possible the infusion of fresh blood, and the introduction of new minds fresh from the problems of human beings with which nations must deal speedily in critical times like these," he said.

Quash Warrant For Ann Harding

Quebec, April 23 (Canadian Press)—Judge Lastara Roy today quashed an 11-months' old warrant for the arrest of Ann Harding, which Miss Harding's former husband, Harry Bannister, obtained in an unsuccessful attempt to keep the actress from taking her nine-year-old daughter to England last May.

Miss Harding is now Mrs. Werner Janssen.

Admits Spinster Hammer Killing

Chicago, April 23 (INS)—After several hours of questioning, Albert H. Watts, 55, a mild-mannered night watchman, coolly confessed, police announced, the hammer murder of his wife's invalid sister.

"She had it coming," he said. "She was the meanest person in the world. She abused my wife, she nagged me, she wouldn't work, and she sat around the house all day smoking cigarettes."

His Daily Dozen

Seattle, April 23 (AP)—After an early morning ferry boat landed here, the captain decided to dock at a different place.

A man appeared suddenly, leaped from the pier across the ever-widening space between it and the boat, exuberantly shouting, "Golly, I made it."

"What's the hurry?" someone asked, "You've got 20 minutes before the return trip starts. We haven't even landed."

Soviets Execute 30 Far East Spies

Moscow, April 23 (AP)—The Communist party newspaper Pravda reported today "destruction" of 30 foreign secret agents in the Soviet Far-East, which, it said, has been honeycombed with spies, wreckers and armed bands.

Some of the spies, the newspaper charged, even wore Red army uniforms.

Berlin Reports Turks in Revolt

Berlin, April 23 (INS)—A serious revolt in eastern Turkestan, a semi-autonomous division of the Soviet Union, was reported by the Nazi newspaper Angriff today.

Turkish tribesmen rose in revolt near Bukhara, the newspaper reported, seized and occupied several towns, annihilated the Red garrisons and hanged all Communist officials.

Amazing New Fuel for Modern Motors

Not GAS alone . . Not OIL alone . . BUT . .

GAS OIL INE

THE MODERN MOTOR FUEL

ORDINARY GAS can no longer do a complete job in your high-speed, high-compression motor. Parts are smaller. Heat is greater. *Power alone is not enough! Constant protection* is needed in the upper cylinders . . . *constant lubrication* for the fast-flying, close-fitting valves and pistons.

You simply cannot get this *constant protection* from *gas* alone. You need *oil in the gas.* You need GAS OIL INE . . . the modern motor fuel. The amazing motor fuel that *protects as it powers* the modern motor.

GAS OIL INE is the exclusive creation of the Tide Water Associated Oil Company and can be purchased only at Tydol stations. GAS OIL INE is a scientific blend of hi-test Tydol *gas* and heat-proof, carbon-free *oil.*

GAS OIL INE brings to you a new high in all-around motor performance. Instant power from *smoother* working parts. Longer mileage from *cooler* working parts. Real economy from *protected* working parts.

Get your *first* tankful of GAS OIL INE today. And get it at any Tydol pump at the identical price you have always paid for old-fashioned *gas.*

A PRODUCT OF THE TIDE WATER ASSOCIATED OIL COMPANY

SOLD ONLY BY TYDOL DEALERS

TYDOL
GAS OIL INE

. . . AND SOLD AT THE REGULAR GAS PRICE

GAS OIL INE takes the place of old-fashioned gasoline and top-cylinder oil.

FASCIST BLOC SAVED BY DUCE AT PARLEY

By FRANK GERVASI

Venice, Italy, April 23 (INS)—Premier Mussolini apparently won another major diplomatic victory over Italy today as his conference with Chancellor Kurt Schuschnigg ended in an atmosphere of complete agreement.

The conference broke up after the two men drew up a communique.

This statement proved to be little more than a general affirmation of the identity of Austrian and Italian attitudes on current problems.

"Il Duce and the Austrian Chancellor," the communique said, "noted with satisfaction their perfect identity of views, and confirmed the principles upon which they will continue to base amicable relations.

"The parties were pleased with the favorable results from application of the protocols of Rome, which will continue to be done with the approval of Hungary, and reiterated their desire to collaborate in consolidating the unity of Italy and Austria."

DUCE BIG WINNER

This collaboration, the communique said, will have as its minimum systematization of the Danubian Basin, with the full approval of Germany. This was interpreted to mean that Mussolini has definitely saved the central European Fascist bloc and quelled an incipient rebellion that might have smashed Italo-German collaboration.

It appears, however, that settlement of pressing Austro-German and Austro-Italian problems had been reached with Il Duce winning everything he wanted and maintaining intact the anti-Communist Central European bloc so dear to his heart. Mussolini also succeeded in preventing any embarrassment in his relations with the Nazi Reich.

HAPSBURG RULE OUT

According to authoritative information, the agreement reached by Schuschnigg and Mussolini runs along these lines:

1—Austria will abandon all hopes of restoration of the Hapsburg's on the vacant throne and all thoughts of anschluss with Germany for the present.

2—Italy will make further economic concessions to Austria, which he was fully prepared to do before the conference began.

3—Austria will abandon plans for an entente with Czechoslovakia, a move which might have seriously strained the Rome-Berlin "axis," a vital link in the Central European anti-Red bloc.

MORAN DEFIES OUSTER MOVE

George J. Moran of Somerville, named as the next Curley appointee due for removal by Governor Hurley, today defied the present administration to fire him and branded both the Governor and Lieutenant-Governor Francis E. Kelly as "leading grabbers."

Moran, who holds down a $3500 post as director of reclamation and soil survey in the department of agriculture, arrived at his office in the State House at 9 a. m. and immediately announced:

"I won't resign, and I doubt whether they can fire me."

While blasting the two leading officeholders of his party, Moran paid tribute to Attorney-General Paul A. Dever and State Auditor Thomas Buckley as "two real Democrats."

"Hurley and Kelly are a couple of headline grabbers and they get the headlines by demanding the removal of real Democrats, both in high and low positions.

"The Governor's secretary, John V. Mahoney, has said that I have not been in my office for 9 days. Well, that's not true. I have been, and the rest of the time I have been doing my job on projects in all parts of the state."

Tech Robot Critic At Dance Tonight

The M. I. T. Catholic Club will hold a "Spring Fever" dance tonight in Walker Memorial, with Joseph Smedile of Belmont, chairman of the dance committee.

A feature of the dance will be the use of a device known as a "heartbeat-overometer" which will act as a robot critic of the girls attending, labeling them as "overheating," "freezing," "hanging on" and "no hope."

BRITISH FOOD SHIPS RUN SPAIN BLOCKADE

Bilbao, Spain, April 23 (AP)—Five British food ships, running an attempted insurgent blockade under the partial protection of British men-of-war, steamed into besieged Bilbao today to the cheers of famished Basques and the crash of the insurgent air raids.

Government and insurgent pilots engaged in deadly sky fights over the Basque capital, while the cargo boats, loaded with 6100 tons of provisions, docked in Nervion river.

The food freighters MacGregor, Manchester and Stanbrook defied threats from the insurgent cruiser Almirante Cervera and armed trawler Galerna outside the three-mile limit, under the protecting guns of H. M. S. Hood, the world's largest battleship, and a flotilla of British destroyers.

The Basque Trawler Bizkaya then convoyed the food fleet into Bilbao's port inside the three-mile limit, in which official British protection has been forbidden.

While joyful Basques were applauding the captains and crews of the vessels, insurgent fliers dumped more than 50 bombs on Bilbao but made no attempt to damage the British ships.

Government aviators, rising to battle the air raiders, lost one plane. Basque officials said one insurgent ship fell in the sea and two others crashed behind the insurgent siege lines.

The three cargo vessels, bringing relief to Bilbao's starving population defied the shells of the insurgent fleet during the night and docked early today.

HOMER LOVES HAMBY!

International News Photograph Service.

While 12-year-old Hamby Feel's hillbilly ma rages against "that ornery Homer," the gangling bridegroom, Homer Peels, and his child bride (shown above) mooncalf ecstatically on their Tennessee mountain porch.

CHILD BRIDE, 12, ILL IN TENN. CABIN

HUBBY HELD IN $250 BAIL

Madisonville, Tenn., April 23 (US) — While his 12-year-old child bride lay ill in their mountain cabin, tall, raw-boned Homer Peel was arrested for violating Tennessee's marriage laws and was marched off to jail.

Also arrested, but released on own recognizance, was County Clerk Fred Payne who issued the license on which the mountaineer wed the girl on March 28.

Peel's preliminary hearing was set for May 30, Peel later furnished bond of $250 and hurried back to his child-bride. Previously he sat wordlessly in his jail cell after a wrathful outburst as he was arrested when he exclaimed:

"HANG ALL THIS LAWIN' "

"Hang all this lawin' agin' us!

We ain't done nothin' wrong and the papers for our marriage was wrote right down here in Madisonville. We was hitched right up by a reverend.

"I can't see for the life of me why you-all can't leave decent married folks be."

His wife, who has declared she'll "stay right along" with her husband, was secluded in their rickety cabin, Peel saying:

"Leave her be. She's sick."

The warrants were sworn against Peel and the clerk by Mrs. Annie Hamby, mother of the girl, who hitch-hiked her way here from her home in Decatur, Ala., where she left her four other children.

The girl, Geneva, has spent most of her life in Polk county (Tenn.) orphanage.

REFUSES TO SEE MOTHER

Mrs. Hamby went into the hills and tried to get Geneva to leave Peel's home and go with her. Refusing even to see her mother, the girl cried through the cabin door.

"I'll never go with you. You never took care of me and you're too mean."

Peel is charged with "wilfully, unlawfully and fraudulently signing an application for marriage license giving the age of one of the contracting parties as 18 when said party was only 12 years of age."

The Tennessee Legislature enacted marriage laws fixing 16 as the minimum age, after the nation-wide storm over the "child bride" wedding of Eunice and Charles Johns at Sneedville, Tenn.

Mrs. Hamby has also filed an annulment suit as "next friend to her daughter." Hearing was set for June 7.

New 'Child' Bridal (In Reverse)

Twice widowed, Tyman Rudman, 87, Everett junk dealer, is all set for a third marital voyage with 60-year-old Mrs. Anna Lux of Roxbury, also twice married and widowed.

Rudman, a spry and active man for his 87 years, declared he wanted to have a home and a real wife to care for him.

"Anna and I will be happy. We like each other," he commented.

Speaking to reporters as to his agility, Rudman revealed that his father, Elijs, lived to the ripe age of 115 years in Russia.

The couple will be married Thursday from a friend's home on Devon street, Roxbury.

Friends 50 Years, Builder, 72, and Woman, 78, Wed

A romance of more than a generation ago has culminated in the now month-old marriage of a 78-year-old Marblehead spinster and a 72-year-old North Shore contractor, it was revealed today.

In a bedside marriage, at which a district court judge and a nurse were the attendants, Mary A. Green, 78, was married on April 15 to Harry J. Parker, 72, builder of both the fashionable Eastern and Corinthian Yacht Clubs, at the bride's home on Walnut court, Marblehead.

The couple were married by the Rev. Harris G. Hale, with Judge Luke Colbert and the elderly woman's nurse attending. The two had known each other for nearly 50 years, but Parker had married. He has been a widower for three years and has four grown sons.

The romance began anew six months ago, when he found the woman unconscious on the floor when he came to call. He summoned nurses and a doctor, and during her long illness has been nearly constantly at her side.

Save 22 on Stricken Ship

Kobe, Japan, April 23 (AP)—A Japanese army plane dropped packages of food tonight to the captain and 22 famished seamen on the half-submerged Nikkwa Maru. Then, despite high seas, a rescue boat took the men off.

MATTSON SUSPECT'S PAST UNDER PROBE

Providence, R. I., April 23—With two weeks to sift the history of Charles R. Dickenson, 30, of Kenosha, Wisconsin, federal agents today continued their investigation to determine whether he was involved in the Mattson kidnaping and murder in Tacoma, Washington, last December.

Dickenson is held on a technical charge of vagrancy in the Providences County jail, pending a hearing on the vagrancy charge set for two weeks from today.

The young "Knight of the road" taken into custody after police had been informed by a correspondence detective school student, Roy Batten, he answered the description of the Tacoma kidnaper entered a plea of not guilty to the vagrancy charge.

Judge M. Walter Flynn's order that Dickenson furnish bail of $5000 appeared to cause him any concern.

"I would like to ask you a question, Judge. Is this a serious charge," said Dickenson.

The court replied: "Well the penalty can be three years or it can be one day. It is a misdemeanor."

Dickenson was specifically charged with being a person abroad without funds and without visible means of support.

Federal agents, working in strictest secrecy, are determined to gather every bit of information concerning Dickenson's movements over the past five months.

Clothing Dickenson wore on the night he was arrested, was taken from him an a new garb was given him when he faced court.

State police officers reiterated their original assertion that up until the time of his arraignment they had been unable to connect Dickenson with either the Mattson case or any other crime.

Principal activity of the investigators centered today in Washington, D. C., and Tacoma, scene of the kidnaping of the Mattson child.

14 Slain in India Clash

Simla, India, April 23 (AP)—Police fired on a rioting crowd in Behror Village, Alwar State, today, killing 14 and wounding 42. The British administrator began an investigation of the trouble.

R. I. Mattson Suspect Held as Vagrant

Boston Evening American Photos

Charles R. Dickenson, 30, of Kenosha, Wisconsin, suspect in the Mattson kidnaping case, on his way to the Providence County jail pending a hearing on a technical vagrancy charge, while federal agents investigate his past. He is accompanied by Rhode Island State Trooper Joseph Gallivan of the Hope Valley station.

DORCHESTER K. OF C. OPENS WAR ON REDS

The first activity in Massachusetts of a nationwide anti-Communistic campaign sponsored by the Knights of Columbus will be conducted by Shawmut council of Dorchester under the direction of Grand Knight Wilmore F. Holbrow.

Taking advantage of an opportune time, when so much labor unrest is being attributed to Red influence, the Dorchester council will present a series of lectures on Communism and its purpose.

Rev. Michael J. Ahern, S. J., of Weston College, will give a lecture on the topic "Is Communism a Menace to Civilization?" in Dorchester High School for Girls auditorium Wednesday evening.

NATIONWIDE FIGHT

This fight against Communism is being waged vigorously throughout the United States and State Deputy Patrick Moynihan has issued a call to all councils in the Bay State to join forces and combat the Red menace in this Commonwealth.

Grand Knight Holbrow, in announcing the Dorchester council's participation in the announced drive, said:

"The start of this campaign comes at an opportune time when there is so much unrest and labor troubles throughout the nation because of Communistic interference.

"This un-American and un-Christian society spreads its propaganda in an underhand manner and can only be combated by open warfare.

"To this end members of my council will do their utmost to cooperate with the state council to curb Communistic activities in Massachusetts."

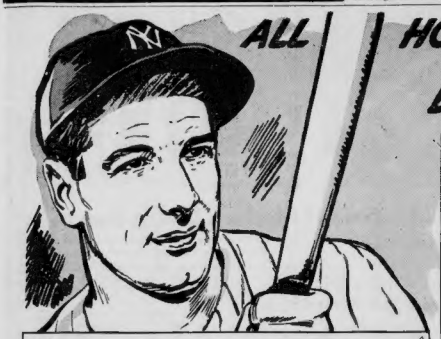
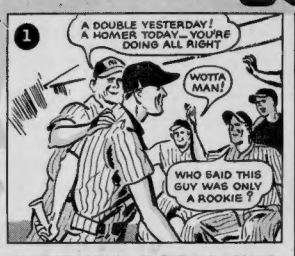
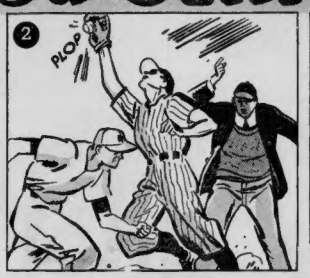
ALL HONOR TO A GREAT ATHLETE
LARRUPING LOU GEHRIG
OF THE WORLD'S CHAMPION NEW YORK YANKEES



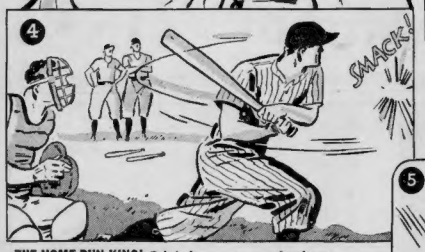


THIRTEEN YEARS IN THE BIG LEAGUE. "Rookie" Gehrig signed up with the New York Yankees in 1923 and started making baseball history. By 1927 he was the American League's MOST VALUABLE PLAYER. And won the same honor again in 1931, 1934, and 1936.



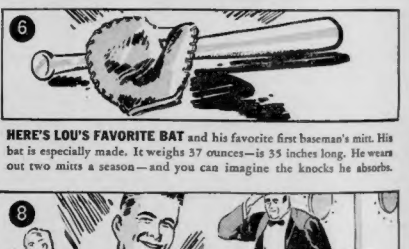
A GREAT FIRST BASEMAN. Lou's prowess as a slugger is matched by his play at first base. His record last year was only 6/1000ths short of PERFECT. He had 1,377 put-outs, 82 assists, and 128 double plays.

LOU HOLDS MORE RECORDS than any other man in the game today. Here are a few for any four-game World Series: most runs batted in (9); most home-runs (4); most bases on balls (6). During the regular schedule he has scored 100 or more runs and batted in 100 or more runs for 11 consecutive seasons. Lou has hit for 400 or more bases every year for the last five years.

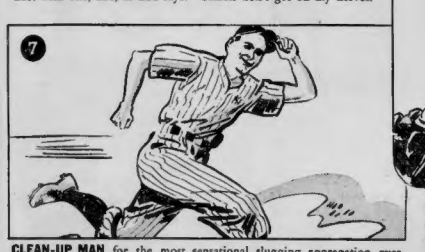


THE HOME-RUN KING! Gehrig has an average of 38 home-runs per season. In 1931, Gehrig shared the crown as the American League's home-run king with 46 circuit clouts. He led with 49 homers in 1934 and 1936. Gehrig's follow-through is shown above. With only 2/5ths of a second to size up a pitched ball, it takes healthy nerves to connect with one, and, as Lou says: "Camels don't get on my nerves."

BASEBALL'S "IRON-MAN"! When Lou steps out on the field, this month, for the first game of the 1937 season—he'll be playing his 1,809th consecutive game. Injuries never stopped "Iron-Man" Gehrig. Once he chipped a bone in his foot—yet knocked out a homer, two doubles, and a single next day. Another time, he was knocked out by a "bean ball," yet next day walloped 3 triples in 5 innings. Gehrig's "Iron-Man" record is proof of his splendid physical condition. As Lou says: "You can bet all the years I've been playing, I've been careful about my physical condition. Smoke? I smoke and *enjoy* it. My cigarette is Camel."



HERE'S LOU'S FAVORITE BAT and his favorite first baseman's mitt. His bat is especially made. It weighs 37 ounces—is 35 inches long. He wears out two mitts a season—and you can imagine the knocks he absorbs.



CLEAN-UP MAN for the most sensational slugging aggregation ever known. Pity the pitcher who faces the Yankees' starting line-up. Three heavy hitters to face—then Gehrig! Lou holds the American League record for runs batted in. He's walked more than any other player today.

X MARKS THE SPOT where once there was a thick juicy steak smothered in mushrooms—Lou's favorite dish. Gehrig is a big man—6 ft. 1 in. tall—weighs 210 pounds. And he has a big man's appetite. Lou eats what he wants and isn't bashful about coming back for "seconds." Read what he says below.

PETERMAN'S DISCOVERY

Spray From the Streams

Trout Anglers Eye Ponds Soon to Open

While leaden skies dulled the interest in fishing the early part of this week, and small catches were being reported after the first few days of the season, many sportsmen of Massachusetts are turning their eyes to new waters that will be opened May 1.

Trout season will open in Vermont and New Hampshire on that date; the trout season will open in Maine as soon as the ice clears in the streams—some are already cleared.

One of the relatively new fishing preserves in the Bay State which will open May 1 is the Maxwell Parker state forest, near Andover in the Merrimack valley.

Fishermen who know the spot are beginning to cast longing eyes at the chain of nine ponds, created partially by the CCC camp there, and stocked with trout of three varieties—rainbow, browns and squaretails.

Two ponds will be opened on May Day—Frye Pond, of 12 acres, where only fly-casting will be allowed, and Berry Pond, of five acres, which will also be open to bait fishing.

In Frye pond there are 3000 rainbow trout from one to three years old, varying between 6½ and 11 inches. Trout in Berry pond are three to five years of age. Other ponds in the chain will not be opened until July 1.

Now a beautiful natural park, serviced with fine gravel highways constructed by the CCC camp and furnished with picnic tables and fireplaces, the park is a splendid location for a week-end party for the entire family.

* * *

One of the happy things about the angler's hobby is the way it develops resourcefulness.

Shortly after the Community Fund campaign was well under way, one well-known fisherman stomped into a downtown tackle store, pulled one of the fund's red feathers out of his lapel, threw the feather on the tackle counter, and said:

"I might as well give you this. It isn't any good to me."

William Read, the tackle expert, took the red feather, wrapped it around a hook, and created a new trout fly.

He called it, "The Community Special," a combination of a golden pheasant with a long red feather, peacock and gold crest.

Now comes the word that out of a number of good catches at Handy's ponds at Wareham within the last week more trout were caught on the "Community Special" than any other fly.

Which all goes to prove that fish have a charitable nature too, or that you never can tell what trout will strike.

* * *

An odd angle of the origin of this new lure is that Read offered to tie a fly free for each customer who brought in a Community Fund feather. He tied about 50 flies. It caught a popular fancy, so he made up several dozen, put them in regular stock. He's thinkin of suggesting to the Community Fund people to give 'Community Special' trout flies instead of red feathers for donations next year.

* * *

NEARER HOME NOTE: Good trout are being taken in the Charles river. We hasten to add, near Needham, so that Harvard students will not stage a pacifist demonstration at Weld boathouse to preserve fishes.

Six fish were reported taken Monday, five browns and one rainbow. Largest of the browns was 17 inches long.

* * *

NORFOLK—Small black gnats and hackle curses, wet or dry flies, are bringing them in at the Massachusetts Fish & Game Association's preserve here. Most anglers use size 18's or 20's.

* * *

OPENING DAY POST-MORTEM —G. R., or Ray, Armstrong, Jr., of Watertown, took a 16-inch, two-pound squaretail out of a small creek flowing into Walden Pond, Concord, on the first day of the trout season.

After casting the waters of the pond in vain, and despairing of the many anglers who thronged the banks of Walden the first day, he decided to try the smaller streams. With him were William Hyman, of Watertown, and Charles Goldstein, of Beacon Hill.

* * *

Sportsmen who rushed the season two weeks ago, taking the first fishing train offered to Maine's Sebago lake, will have an opportunity to go again May 8, under—we hope—better weather conditions.

Another fishing trip is being organized for that date. The party—anyone who likes to fish is invited—will leave Saturday noon. May 8 by train from the North Station will arrive in Portland by 2 10 p m and be in camp by 3 30 p. m.

Business men who left the office at noon will be fishing in Sebago by 4 30 p. m., with four good fishing hours before nightfall. They can fish Sunday until 4:30 p. m. At 5.45 p. m. the party will catch a train at Portland, be back in Boston by 8:30 Sunday night.

Entire cost of the trip is expected to be about $15, including three meals, train and bus fare, lodge accommodations, boat rental and a week-end fishing license.

* * *

Perpetuating the ancient feud between the artificial lure anglers and the bait fishermen, three sportsmen who recently fished one of the branches of the Westfield river—they wouldn't tell which—returned with this one.

They caught 42 trout in two days, all on dry flies, while all around them the worm fishermen were catching nothing.

The trio are "Snag" Cunys, Paul Chanis and Edgar Martin. They spent the last week-end in the Berkshires.

Six large brown trout, all more than 13 inches, were taken on gray bivisibles. The other 36 fish, between 10 and 13 inches, were caught on small bucktails.

* * *

ADD—ARTIFICIAL LURE NOTES. Two new streamers are this season's gift to the salmon fishers.

One, called the "Rose of New England," has a lot of patriotic appeal to the fishermen, if not to the salmon. It is a buck tail, with silver body and jungle cock feather.

The other has a more utilitarian nature. It's called the "Twin-Face Special." This streamer is a golden pheasant on one side, a gold crest on the other, with a long red feather down the top. If the salmon doesn't like one side of the streamer, you cast on the other side of him, and show another color. Well, well, well!

* * *

Gray Ghost streamers were bringing best results in Sebago the last two weeks.

On the first fishing train special to Sebago two weeks ago, 16 salmon were taken, only one of them on smelt bait. The others were all caught on grey ghost streamers.

Largest fish taken was the landlocked salmon weighing four and three-fourths pounds, caught by Francis Keegan, Boston broker.

WRONG BLONDE 'CAPTURED'

Her resemblance to the much sought-after Mrs. Ruth Freedman, blonde alleged girl member of the Dickens-Power gang, had one young lady looking down the muzzles of police revolvers in a Commonwealth avenue, Brighton, apartment early today.

When the "tip-off" came that the Freedman woman was in the Brighton apartment a cordon of officers was thrown around the block and minute preparations were made for her capture with drawn guns.

After questioning the girl police admitted they had the wrong blonde. The "captured" girl told them she had moved here recently from Philadelphia with her husband.

Except for this false clue police have been unable to unearth any trace of the blonde girl who was in the company of William E Dickens when he was shot to death by Special Officer Michael J. Culinane.

Auto Death Cause

BLOW ON CHEST OFTEN FATAL

St. Louis, April 23 (AP)—A cause of death or abnormal incause of sudden death on the nation's highways which has not been recognized before, Dr. Ray W. Kissane of Columbus, O., said today, is the effect on the heart caused by a blow on the chest from the steering wheel or other part of an automobile.

Addressing the closing meeting of the American College of Physicians, Dr. Kissane declared that this cause of death was discovered in experiments on dogs in which sharp blows on the chest "produced various types of heart irregularities."

In most cases the electrical recording of the heart's action, by which the effects of the blows were measured, showed that it returned to normal beating almost immediately, the Columbus physician declared.

"But on the other hand we were able to produce serious and fatal irregularities, such as fluttering and heart block or complete stoppage which produced death almost immediately," he said.

In such cases of death examination at autopsy did not reveal any

Sub-Masters Club Dinner Wednesday

The Sub-Masters' Club of the Boston public schools will hold its 25th annual banquet at the Boston City Club on Wednesday evening, April 28.

The committee includes Charles Oliver Halloran of the Thomas N. Hart School, chairman and toastmaster; Francis P. Frazier, club president; Gerald O'Donnell, Rooert G. O'Connell, Edmund H. Barry and John J. O'Brien.

1000 Y. D. VETS IN REUNION

North Adams, April 23 (AP)—Grayer and heavier than they were 18 years ago, upwards of 1000 veterans of the old 26th (Yankee) Division's 104th Regiment came to the Berkshires today for reunion and remembrance of the historic World War battle at Apremont, France, April 10-14, 1918.

Men of the present 104th Regiment joined the veterans for the first time in their two-day celebration.

Company banquets in Adams and North Adams and an informal street parade here will open the reunion tonight. Afterward a military ball will be held at North Adams State Armory.

Tomorrow the 104th Infantry Veterans Association sponsoring the reunion, will hold a business session in North Adams and an afternoon parade, in which the present regiment will march. Governor Charles F. Hurley and Adjutant General Charles H. Cole have been invited to review it.

Contest Awards Given at Jordan's

A celebration with special entertainment for the 25 prize winners in the National Shirley Temple Doll Contest will be held tomorrow morning at 10 30 o'clock in Jordan Marsh Company's Fashion Center sixth floor, main store.

At this party awards will be presented to the winners and Miss Barbara Burke, of 110 Eutaw street, East Boston one of the national first place winners, will receive a check for $25.

The contest, run from coast to coast closed January 16th. Shirley Temple, whose birthday is today, saw all the winning entries, including that of Miss Burke.

YOU'RE BOUND TO FORM CARBON WHEN YOU BURN GASOLINE
All gasolines form carbon when ignited—carbon is an unavoidable by-product. No matter what gasoline you use, you are manufacturing carbon in your motor with every drop of gasoline you consume.
But you can combat it in your Motor..... with Solvenized
Let no one tell you that it is possible to have full rated power and get satisfactory gasoline mileage with hard carbon deposits present in your car! Valves can't seat firmly, piston rings won't function properly. You simply can't have cool, efficient operation with a motor choked by hard carbon. You don't have to put up with the waste and nuisance of hard carbon! Hy-Power and Aero Solvenized gasolines dissolve gum, the carbon binder, so the loosened carbon can be blown out the exhaust.
ONLY JENNY CAN GIVE YOU SOLVENIZED GASOLINE
the exclusive and patented motor fuel which helps overcome the carbon problems motorists have endured for years.
Most gasolines sold today are uniform quality. But JENNEY gives you a fine gasoline, plus top cylinder lubrication, *plus Solvenized*—three values for the price of one. With JENNEY Hy-Power or Aero you see remarkable improvement in your car in the first few hundred miles and feel a steady increase in power the farther you drive it. If you want the most for your money—*use Hy-Power or Aero Solvenized.*
JENNY GASOLINE
Chases Carbon
HY-POWER....AERO....Now Both SOLVENIZED

BOSTON after DARK

(More than ever, if such is possible, the Holland and his pretty pulse-pilots weren't on speaking terms yesterday, the gals in uniform having shoveled six of George's pals out into the rainy night to end a bridge game in Holland Hall.

GEORGE HOLLAND

Against Pete Hedstrom and Warren Hopkins, the ice lad and member of the Engineers' Club, were noisily pitted the Holland and Johnny Lydon, the tournament jouster. Tommy McArdle, the Kerry Village pol, was kibitzing for this team, while Al Taxier, Theatrical Club mgr., and Jim Hardy, the Ranny Weeks mgr., were turbulent antis.

"Eighteen hundred points or no eighteen hundred points, out you go," chorused the irate nurses when the strain became too great.)

In Grimm Jest:

As sports editor of this sheet, Jack Conway gets all the Chinese ducats for sports events, the skulls with the holes in them . . . To save him headaches he sometimes assigns Geo. Grimm, a smoothie, to take the raps in dealing them out . . . So this time the demand was heavy and the ducats scarce . . . Grimm's phone rang, but he had told the girl he was out to everybody . . . "Your wife wants to talk to you," said the doll . . . "Oh," quoth the smoothie and came on the phone . . . It was Conway—wanting to know if Grimm could spare two for him . . .

Lesson in Nonchalance:

While the jury which might send him to the chair was out deliberating, Stephen L. Mabey, the ex-jockey, beckoned to a reporter . . . "I'd like to sell your paper my story on horse-racing," said the accused slayer. "I'll have to sit down with you and go over the stuff when everything is all over. It'll run in serial form. I did something like that for the Telegraph and they boosted circulation about 50,000" . . . The jury gave him second degree murder—life, in a day-to-day serial . . .

Once Over Lightly:

Shubert Theater and Columbia Pictures will put a motor-treasurer in a specially-built booth, to sell tickets at the curb . . . Has "numbers" of dresses may buy tickets, park and then . . . Candid-camera addicts praise the . . . Western Elec's new . . . estly from which they've been able to snap excellent shots . . .

Gertrude Dolan, Rox. dance teacher, whipping St. Leo's May Minstrels into shape for May 3-4 showing . . . And the housemaid's knee of her first aide, Johnny Mack, the Holland's comforter at St. Elizabeth's, coming along nicely . . . Priscilla Hoff, Radcliffe's p. a., collects phone directories from all cities . . . Has "numbers" of them . . . Haw . . .

Suffolk Court Officer Pat Crowley happy again . . . The lost mirror he's carried 31 years, even through police and fire depts., is back . . . "When I first looked into this mirror I was a good-looking guy," said Crowley when it was found . . . That radio interview with Ed Rosenbaum, "Lost Horizon" p. a., by Ruth Moss, was interesting . . . He brought the first Ziegfeld Follies here (1907) to the Colonial . . .

Joe Kiley, display supervisor at Hovey's, ring-shopping . . . There are heartaches in the basement . . . Sam Stratton, Ringling Bros. circus p. a., already in town . . .

Barry Sullivan, who's been pitching in the Boston "Brother Rat" Co., traded to N. Y. company . . . Straight swap, no cash . . . Another company trade sends Stage Mgr. Walter Scott to N. Y. and brings the N. Y. company mgr. here . . . Latter's dad is ill near Hub . . .

Civil War impending in the West End . . . Pals of Congressman Johnny Higgins, who'll candidate for mayor, gunning for City Council Pres. John I. Fitzgerald on the claim he's trying to create false impression he'll be a candidate, too . . . Higgins, however, will be with Curley . . . It's a long trail, mates . . . Curley, as gov., appointed Judge Joseph Riley to municipal court bench . . . The jedge is a brother-in-law of Joe Lomasney . . . Joe Lomasney is brother to the late Martin . . . Ariel Martin Lomasney was John I. Higgins' pal . . .

Heavyweight Research:

There's no sense to this, but Jim McEnaney, the Round-Man Reporter, who learned to read through the labels on bottles, had to call the Knights of Columbus state headquarters and found the number was Hancock 1492 . . . and the Roslindale council number was Parkway 3492 . . . It was only a step from there to the Irelands and he found there are 20 of them in the book and 12 persons by the name Irish . . . Well, you could hardly stop him at this point . . . So there are 149 Hollands (including George and Eddie but not the wine shops), 26 Polands, 22 Englands, 6 Spains (one of them living in Independence ave., Quincy), 5 Dutch (not counting the Dutch Cake Co., in Holland st.), but only one France, Canada and Russian . . . This sort of study must be very wearing, particularly to a fat man . . .

GOOD NEWS DEPT:

Telegram from Tim (Haddock) Sullivan to the Holland says: So Simmons to the Holland says: So you are getting better? That's just enough proof. When you are well again everybody will celebrate. Just as it used to be. Signed on by Dr. William Nathan of Hay State road. A great success. Can now see Boston After Dark. Could not before (the weakened lad was nearly blind.)

Fun Aplenty On Met's Screen

By PEGGY DOYLE

You'll wake up and laugh where the yeast begins when you see "Wake Up and Live," high class film lowdown on the country's most celebrated endurance bicycling bout which features the parties of the first and second part, Walter-the-Winch Winchell and the Old Maestro? Ben Bernie.

Undaunted by the deluge, the customers jammed the Met to the windowsills at yesterday's opening show and the word- 'mouth verdict is:

"Terwuh, it's swelegant."

Twentieth Century-Fox should clean up on this one, which is a faithful and uproarious film transcript of the famous Winchell-Bernie say-it-with-scallions feud, and the two contestants, Boston's own Jack Haley, Alice Faye, Patsy Kelly, Grace Bradley, Walter Catlett, Leah Ray, Director Sidney Lanfield and all the other lads and lasses involved should share a greenhouse of orchids among 'em.

A fistful should go to Gordon and Revel, ace Hollywood songwriters, who are responsible for the nine new songs in this swell musical comedy, all of them hits. They'll be on the tip of your tongue inside of a week, so put these titles in your bowler: "Never In a Million Years," "Wake Up and Live," "It's Swell of You," "Oh, But I'm Happy," "I Love You Too Much, Muchacha," "There's a Lull in My Life," "Bernie's Love Song," "I'm a Bubbling Over" and "Red Seal Mail."

* * *

The gag contest between the Boston Sunday Advertiser's famous columnist and Bernie, the "Old Maestro" of the other lanes, provides the background for "Wake Up and Live" story of a small-time vaudeville performer, Jack Haley, whose "mike-fright" loses him his big radio opportunity.

Disgusted, Grace Bradley, his partner, walks out on him and is given a nightclub contract by Walter Catlett, whose chiseling booking agent is one of the best things this grand actor has ever done.

Through his sister, Patsy Kelly, who is Winchell's Girl Friday, Haley gets a job on a Radio Center uniformed guide (and what fun Script-writers Jack Yellen and Harry Tugend have at the expense of this cathedral of amusement centers!). There he meets Bernie and the "Wake Up and Live Girl" of radio, Alice Faye. He sells the former gags and the latter "sells" him her "wake up and live" philosophy as an aid in overcoming his mike-fright.

Haley tries out her theory one night in a deserted control room while listening to the Bernie radio program. Believing that he is singing into a "dead" microphone, he is unaware that he is on the air, warbling to the Bernie orchestra accompaniment. The station is snowed under with fan mail for the unknown singer and Bernie, at his wit's end to identify him, tries to pass off a fake "phantom troubadour." The wily Winchell exposes the hoax. Alice Faye is the first to discover the singer in a million and practices a bit of deception on him that eventually wins him a topspot on the air.

* * *

Haley is absolutely ALL right, from the top of his nibbled eyebrows to the tip of his nimble toes, and Miss Faye never looked nor acted better in her life. Winchell and Bernie are so natural and unforced in their humor that you might be keyhole-peeping on their private lives. Patsy Kelly is a delight and her sourpuss-sweetheart, Ned Sparks, is simply swell. But aren't they all, you'll summarize when you see the picture, the most contagious thing that's hit Boston since the Boston tea-party.

The Met stage show this week, like the RKO-Boston, is also featuring a skating skit with Helen Reynolds' skating octet and "The Seven and Four Loveliss" parties pating. Then there are Al Bernie, Leo Fuld, French Casino singer; Mildred MacMurray Law, dancing daughter of a local police lieutenant; the Three Sophisticates; John Lonergan, dancer; the Harris-Howell "Harlemaires" act and Lydia and Joresco, dance duo.

A Pair of Thinkers

Jean Harlow and Robert Taylor appear to be doing some heavy thinking in 'Personal Property," which has been held over for a second week at both Loew's State and Orpheum.

Nolan Stars in First Lead Role

Lloyd Nolan plays his first lead role in "King of Gamblers," a Tiffany Thayer story of the smashing of the million-dollar slot-machine racket, which, with "Melody for Two," co-starring James Melton and Patricia Ellis, makes up this week's screen-bill at the Paramount and Fenway theaters.

Akim Tamiroff plays the title role in "King of Gamblers." He is a ruthless racketeer who does not stop at murder to protect the gusher of gold that comes from his crooked, catchpenny devices. Claire Trevor plays the night club entertainer who does not love him but accepts his bounty. Newspaperman Nolan, assigned to the slot-machine racket story, meets her. They fall in love. While he is still working on the story, Miss Trevor's girl-friend, shot by Tamiroff's henchmen because she knew too much about the racket, gives him information on her deathbed that enables the police to smash the racket.

This film offsetup of underworldings behind the scenes is a grim and graphic story brightened up by a pleasing love angle. Nolan, who can always be counted for a capital performance, is excellent as the newspaperman.

Robert Florey directed this fast, hard-hitting thriller which has such sterling performers in its supporting cast as Porter Hall, Larry Crabbe, Harvey Stephens, Evelyn Brent and lovely Helen Burgess whose sudden death recently terminated a most promising career.

Naturally with that title and that Merton tenor on it, "Melody for Two," co-starring James Melton and Patricia Ellis, makes up this week's screen-bill at the Paramount and Fenway theaters.

The story concerns the romance between a singing orchestra leader Melton, and his young woman soloist Miss Ellis. In the course of the unerring Miss Ellis become Melton's greatest professional rival and the torch-singing Wini Shaw edges into first-place in his affections—but briefly.

Al Dubin and Harry Warren and M. K. Jerome and Jack Scholl have provided a snappy selection of swing tunes. Louis King directed the dances of the picture and Gilbert Gabriel and Isabel Dawn wrote the screen adaptation.

Club Star

Ramona who is one of the stars on the current show at the Brunswick Casino.

Gala Stage Show

The RKO-Boston stage show to end stage shows—for the summer season is actually two shows for the price of one and the choicest symposium of entertainment since the fourth Ritz Brother cracked the house records and his leg all in the same week.

Olympic Champion Kit Klein as graceful a lass as you'll see on ice, is the star of the "St. Moritz Follies," a dazzling depiction ice carnival that was a white light in yesterday's gray sky. Her thumbnail sketches of seatings as it is executed in Russia, Japan, Norway and other far-off countries were deftly limned in and her barrel jumping skill is something to have a look at. Bobby Hearn, also a world champion, can jump ten to Kit's four barrels and did on the K-B-S ice sheet.

Susan and Margo, two little maids in baby-blue costumes, did some Grade-A figure skating that will have you sitting on the edge of your seat in attentive awe. A bit of whimsy is provided by the ballet all, duded up in penguin outfits and performing with a Ti ny-Girl precision.

Frances Arms is easy the star of the Glorified Revue. Her dialect stories and songs are given expert delivery and from the instant she opened her pretty mouth, the Lucabee character comedienne had her audience in the palm of her hand.

Frank Gaby and his dummy stooge are sure laugh-getters, particularly during the first and better half of his routine. Dick, Dinah and Don, billed as "dancing demons" are an amusing dancing threesome and Barbara Bonner the current lady with the fans at the K-B, is not only an eyeful but she is also a skilled acrobatic dancer.

The 16 Dancing Darlings opened the show and against the snow-scene backdrops and in their pretty fripperies they appeared all that their name implies.

Wendy Barrie and Binnie Barnes, both of whom own racing stables, are both aliases for Pal Gargan, a horse trainer, in "Freezing Home," the screen feature.

FIRST NATIONAL STORES

'CALL IT A DAY'

By Lewis Allen Browne

(From the screen play by Casey Robinson, adapted from the famous stage hit by Dodie Smith—A Cosmopolitan production, to be released soon by Warner Bros.)

CHAPTER ELEVEN

SYNOPSIS

From the amazing manner in which the entire household of Dorothy and Roger Hilton, living in a London suburb, is upset on the first day of Spring, there seems to be a lot of truth in the ancient English saying that the first Spring day is in the devil's pay.

Dorothy has met a stranger and is infatuated. Roger has an alleged business appointment with a noted, and notorious, actress, Martin, the son, plans to disobey his father and motor the continent. Ann, youngest daughter, reads Rossetti in bed, is morbid and believes she is psychic, while Catherine, eldest daughter love-crazy over a married artist, plans to meet him this night alone, on a wooded hill

Ann and Catherine Hilton walked the short distance home from Paul's studio as though treading on air; Ann, because of the original sketch by Rossetti that Paul Francis had given her; Catherine, because Paul had promised to meet her that night on Primrose Hill.

When Ethel Francis came back from the kitchen she saw Paul pacing up and down.

"What happened in that short moment?" she asked.

"Nothing."

His wife knew better.

"The girl is only 19," she said, with quiet meaning

"Hang it, Ethel, I'm only going to have a fatherly talk with her."

"I saw Tillie Marchmont, last week, she's gone to Majorca. We have never been there. The Edgar Smithsons have been there, we could go and ask them about it, this evening," Ethel said, with a meaning that her husband could not possibly misconstrue

"No," he said, then added, "I'll decide later."

It was 4 o'clock. Roger Hilton, pacing in his office paused as Elsie brought in some papers

"These stage people care nothing about appointments," he growled.

"But Mr. Hilton, see?" Elsie held up the appointment list and indicated the memo: "5:30—Beatrice Gwynne."

"It is only four, now," Elsie said.

"By jove—that's so. Never saw a day go so slowly."

Roger yawned

"Elsie, it's the day—did you ever feel as if nothing matters, but you are waiting for something thrilling to happen"

"Often, Mr. Hilton," Elsie said, and sighed.

"Ha! Did you, though? That's the way I feel now"

"So do I!" Elsie murmured, the color flooding her cheeks

They stood at the window, staring out. Somehow Elsie's hand brushed against his and he clasped it

"It's the spring," Roger said, half apologetically

Elsie knew better and was happy.

• • •

"We will go over and see brother Frank," Muriel said as she and Dorothy left the theater, "his lodgings are quite near."

"What is he like?"

"Good old thing, dresses for dinner—backbone of the Empire—" Muriel giggled and added —"thinks women are on a higher plane."

It was quite a climb to his quarters and the landlady told them he was out. They had quite a time making her believe that Muriel was her lodger's sister "They were finally admitted.

"The old dear probably ran out to get more tea things when I telephoned him I was bringing you up," Muriel explained.

"Did you?"

"Yes, when I went into the chemist's shop. Told him I was ringing Dotty Hilton up. Oh, thank heavens for the couch!"

She plumped herself down and removed her shoes

"Thank heaves, dear Frank will soon be married and old Dolly will be happy."

A Plotter

"Muriel, it's cold-blooded of you to plot to marry him off to someone he has never seen."

"Not a bit of it, Dorothy. Frank needs a wife and, heaven knows, Dolly wants a husband." She glanced at her watch. "I'll wait until six-thirty for him."

"I ought to go. I want to talk with Marvin, I know he is planning to make his father forgive by buying a car and going to the continent."

"You worry too much, darling. If I had a perfect husband like yours I'd never kick over the traces."

"Muriel Weston!"

"Well, George does and I know it."

"But you said you had—"

"And what do I have? Some day I'll let my hair down and tell you all about it!"

"Why not now? Dorothy pleaded, regarding her friend suddenly as though she were an entirely different being.

"Why not? Well, at first—"

• • •

It was just about this time that Beatrice Gwynne made up to the last grain of a skilled beautician's art, was ushered into Roger Hilton's office

"I am so late—I should have put you off," she gasped

"Glad you didn't. The collectors are getting urgent about your tax on your American earnings," Roger said, briskly, opening a folder of papers in a most business-like manner.

Beatrice cuied him in her best stage manner

"What is going to happen to me?"

"You'll have to pay."

"But I haven't the money—it just went, all I made in America."

"Oh come, now—"

"Don't scold, my dear man. I'm jittery enough now. A big cow of a woman spilled a tray with a terrific clatter right in the middle of my best scenes."

"Sorry. Now about your American earnings—you can deduct living expenses, you know, and—er—well, I suppose you put up at the costliest hotels?"

"Is it any of the Crown's affairs how I lived in America"

"It is, just, because of the taxes."

"Oh dear"

She leaned back and accepted a cigarette she puffed Roger's hand when he held a light for her

"Haven't you a drop of tea?"

She Wins

"Er—" She beamed on him and he pressed the button and ordered Elsie to bring tea.

"Tea!" Elsie said, looking at him reproachfully. She added, "there are some people outside—"

"Trying to get rid of me" Beatrice Gwyn asked, shaking a finger at Roger

"No—no, no—no. Tell them to wait or call tomorrow, Elsie, and bring the tea."

Elsie brought the tea and hovered about, helping to serve it.

"Thank you," Roger said: finally, "that will be all."

Again Elsie looked at him reproachfully, but she murmured, "Thank you, sir," and went out.

"Your secretary?" Beatrice asked

"Yes, most efficient."

"And true to form, she's in love with you."

"Nonsense."

"Men are so stupid in matters of love. Really now, isn't there some way of evading the tax?"

"Afraid not. But an actress of your great talents and one who earns so much money, can easily meet that payment."

"But I don't want to!"

"Note of us do. Of course, playing with Sir Harold, he has to turn in to the Crown exactly what he pays you, so—"

"Don't mention him, please. I'm fed up with him, as they say in America."

"The great lover, on the stage. Of course, off the stage—"

"A greater and more jealous lover. He's in love with me."

"Ah—congratulations."

"But I don't love him."

"Oh well, this isn't getting down to business. You can charge for a publicity agent in America, you know, and all sorts of luxuries that would be taxable here, that will cut it down tremendously."

Beatrice smiled at him, rubbed hers forehead

"Do you know, I've fallen in love with you!"

"Ha! I suppose that's a stage line, Miss Gwynne."

"It's a heart line. Look here, take all your papers and bring them to my apartment at 7:30 tonight."

"But I say, Miss Gwynne—"

"Afraid of me"

She leaned forward and put her jeweled hand over his

"No," Roger said, "I am not afraid of you"

CONTINUED TOMORROW

SPRING CLEANING'S all done in half of the hme,
When OAKITE removes the dark, greasy grime.
OAKITE
CLEANER THAT DISSOLVES GREASE

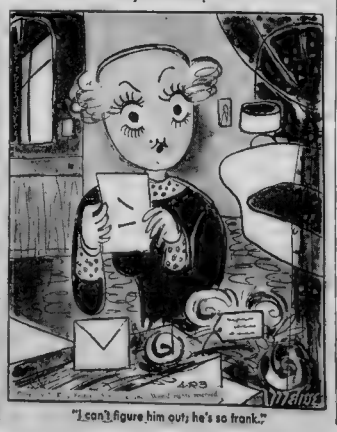
Siren Spanish Lace

SEDUCTIVE shadowy lace, close around the hips, and cascading into old-world skirt fullness . . . if you're tall and slender as a flame, you'll do your rhumba-ing in something like this, and let the frenzied little ruffles and brief boleros go hang! Miss Betty Albers, Brookline debutante, models this Fashion Congress selection. All the-black lace hovering over a black satin slip gives lovely glissando lines to the figure. The halter neckline arrangement is fresh American youth in derivation, so that only the black lace, the molded lines, the sweep of skirt belong to old Castille. You will certainly want it for the Viennese Ball in May if you're going to spend most of your time in the rhumba room, with only occasional visits to the waltz and swing divisions. And many a smart girl will get black lace for the country club summer dances, with an eye to taking it with her as a standby on her next Christmas cruise' For shopping information, phone Annice Brink, Fashion Editor, Liberty 4000, or write her at the Boston Evening American.

FOOTWEAR fashions are footloose and adventurous this spring. Instepa, heels and toes are resentlessly sheared off to reveal pretty feet. Both toes and heels are bared to the breeze in a new sandal that mounts four shades of blue kidskin over thick piping to form toe and heel straps. Literally footloose is a dashing wing oxford of suntan completely pierced by cool diamond shaped perforations.

Diary of a Good Girl

By MELISSE



"I can't figure him out; he's so frank."

Married Comrades

By Adele Garrison

CHAPTER 284

THERE is a Scriptural verse which begins "Out of the mouths of babes," and I found myself mentally quoting it as Roderick announced that he had another idea concerning our projected trip, explaining that it was "about that Mis' Gibbs."

Nell Gibbs, of course! She would I was sure, provide the solution of the problem of Katherine's accompanying me on the mountain trip

Roderick was waiting for a reply from me, and he was palpably anxious to explain what he had meant by his reference to Mrs. Gibbs. So I turned to him with an encouraging smile

"Well? what about Mrs. Gibbs?" I asked, and he broke into voluable speech

Why! I heard 'em say she was a trained nurse, and she a awful fond of Aunt Katherine—she knew her years ago, I heard 'em say—and you saw how she came right over to help Aunt Katherine take care of Noel, and I thought—I figgered—that maybe if she knew Aunt Katherine wouldn't go on account of Faith, she might say she would take care of Faith. She could, you know."

"Aren't you afraid Faith might be frightened if she were left with a stranger?" I asked, more to see what he would say than because I had not already solved that problem.

"Not if I was around, or especially Mary," he explained eagerly. "You wouldn't be gone all day, would you?" he added with unconscious wistfulness.

"Oh! no," I said. "We'll start quite early, after everybody has had breakfast and Faith is all ready for the day. We'll have lunch at some mountain inn, and get home some time in the afternoon, well before dinner time

"Then that would be all right" he said with a sigh of relief "Mis' Gibbs would have time to get breakfast and supper for her folks, and Mary certainly could keep Faith while Mis' Gibbs went home and got lunch

"Or maybe Betty's grandmother would get lunch. She's an awful good hand at cooking and keeping house, Betty says, when she doesn't go fishing. When the fish are biting, Betty says, you can't keep her off the water."

Feeling a bit bewildered as to whether Betty or her grandmother were the restless angler with the troublesome backlashes, I nevertheless withheld all comment until Roderick should have finished his wrestling with the problem he was so gallantly endeavoring to solve for me

'Your Figure, Madame!'

CALORIES HOLD SECRET OF HEALTH

By IDA JEAN KAIN

(Copyright, 1937, King Features Syndicate, Inc.)

MOST people favor some special plan of their own for dealing with avoirdupois.

Some of you simply leave out of the menu certain foods with a fattening reputation, others "diet" by going hungry, and still others restrict themselves to less than average servings.

To each of these methods, the objections are as definite as the results are indefinite. By the first plan you are quite likely to miss some food element essential to health and beauty.

The second plan of "dieting" inevitably ends in over-eating and the regaining of lost weight. And by cutting down on all foods, you fail to discriminate between the protective foods and the non-essentials.

The results of any one of these homemade plans are not to be compared with the improvement to health and figure on the scientific plan. Once you give the scientific diet a trial, you will find it easier than any other Here is the whole idea in a nutshell, so check up on yourself

Weight and calories are your first concern. You want to know what your normal weight is, and how many calories will maintain your weight at normal. Multiply normal weight for you by 16 or 17 (activity integers), and the result is your maintenance calories

BALANCED REDUCING MENU

	CALORIES
BREAKFAST	
Grapefruit, ½	50
Sugar, 1 rounded tsp.	30
Toast, 2 thin slices	100
Butter, ½ pat	50
Coffee, clear	
	230
LUNCHEON	
Asparagus on toast	80
Melted butter, 1 tsp.	50
Broiled tomato	75
Bacon, 2 strips, crisp	50
Apricots, 3 halves with juice	100
Skimmed milk, 1 glass	80
	435
DINNER	
Chopped steak, broiled	200
Baked potato	100
Butter, ½ pat	50
Carrots, ¾ cup cubed	40
Angel food cake	150
Tea, 1 lump sugar	25
	565
TOTAL CALORIES	1230

Your excess fat is inactive tissue and burns few calories, so your normal weight is to be used in these calculations. Now, take two-thirds your maintenance calories for your individual reducing diet. This reducing allowance will range from 1000 to 1600 calories per day, according to your weight and activity.

As to calories and diet

A good working plan is to allow as many grams of protein as there are kilograms in your perfect weight. (To save you looking it up—one kilogram equals 2.2 pounds avoirdupois.) Then include one-half as many grams of fat as protein, and have the remainder of your calories in carbohydrates, until you are using the full reducing allowance, or two-thirds your maintenance diet.

Working this out on the basis of 1200 calories—the average reducing diet—you would have 60 grams of protein, or 240 calories, 30 grams of fat, or 270 calories, 170 grams, or 700 calories of carbohydrates — sugars and starches.

Write for the leaflets "Protective Diet chart" and Pointers to Slimness," which will help you to plan your diet according to your calorie requirements. Enclose a stamped, addressed envelope—large size.

Bridge

Expert Versus Average

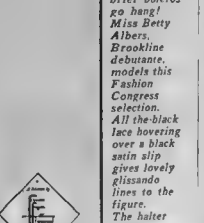
By JOSEPHINE CULBERTSON

It is an elementary rule of Contract that a player should not assist what he knows to be a four-card suit unless he also has four trumps.

Like every other rule, however, this one must be occasionally shattered.

The hand shown below is a perfect example of expert versus average player bidding

North, dealer.
Both sides vulnerable.



This hand occurred in a recent duplicate match in Crockford's Club, New York. It was a ten table Mitchell game, with expert and average players discriminatingly placed both N-S and E-W so as to balance the field. A remarkable result followed, so far as this one hand was concerned. At five tables the North-South cards were held by experts and at the other five by average players. Every pair of experts bid the hand precisely as follows

North	East	South	West
1 ◇	Pass	2 ◇	2 ♡
2 ♠	Pass	4 ♠	Pass.
4 ♣	Pass	Pass	Pass

Among the average players the bidding varied slightly, but in each case North opened with a diamond and South responded with two diamonds. After West had bid two hearts and North two spades, some of these South players bid three diamonds and some four but in no case was the spade suit supported

Obviously five diamonds was not in the hand North had to lose two hearts and a club trick even with a successful diamond finesse. The four spade contract reached by the experts was a laydown

It should not be imagined that these experts (South) supported spades only because they were playing duplicate and were therefore aiming at a few extra points They would have bid the same in rubber bridge The reason was that an eleven trick contract seemed too high

They properly considered the possession of King and Jack of spades the equivalent of an extra trump, and to this consideration was added the fact that the doubleton heart in the South hand would prevent declarer from having to ruff with the long trump suit.

Glace Fruit Dressing

¼ teaspoon salt
⅛ teaspoon paprika
2 tablespoons lemon juice
4 tablespoons olive oil
1 tablespoon diced glace cherries
1 tablespoon diced glace plums.
1 tablespoon diced glace apricots

Make a French dressing of the first four ingredients and then add the glace fruits. Pour over the salad. Approximate yield: 8 servings.

Keen Mind Valuable Asset

By BEATRICE FAIRFAX

At least half of the unhappiness in the world today is caused by the mistaken assumption that because one person loves another that other person must of necessity return the love.

Nothing could be farther from the truth. Love just will not come bouncing back like a rubber ball. And those who foolishly think it will are due for a vast amount of misery.

Each week I receive at least [illegible] from young women who just cannot understand why [illegible] or Peter or Frank does not [illegible] sweet things that would [illegible] be the music of heaven [illegible] to hear.

And I am supposed to supply [illegible] magic charm that will surely [illegible] the young men aflutter.

Of course all that I can do is [illegible] advise the young women to [illegible] because to the boys they [illegible] no street. Hair waves, [illegible] groomed faces and well-[illegible] bodies will help. But [illegible] more is needed.

The girl who really wants to [illegible] the love of a young man [illegible] SELL HER CHARACTER AS WELL AS HER PHYSICAL SELF. By intelligent conversation, wit and a sympathetic appreciation of the boy's ambitions and ideals, she must endeavor to make him enjoy her company.

Too many young women are so [illegible] up with pride that they [illegible] believe every man ought [illegible] need them out and favor them [illegible] all women. They just cannot understand that this is a very competitive age and that to hold fairly teems with [illegible] girls.

The wise young woman is kind and considerate in the presence of young men and matrimony [illegible] takes care of itself.

As the plotter and schemer [illegible] who exaggerates her [illegible] that loses the mar-

FAIRFAX

[illegible] a correspondent [illegible] column that a [illegible] creation had spoiled [illegible] and was a horrible [illegible] motherly mothers may [illegible] other and find it [illegible]

[illegible] since I submitted to [illegible] operation, and found [illegible] painful and incon- [illegible] normal childbirth. [illegible] weighed seven pounds [illegible] never had a moment's [illegible]

I suggest to your correspondent that she diet and continue to regain her figure? It is not too late. This may remind the minds of many women [illegible] desire to submit to a Caesarean [illegible] MODERN MOTHER.

[illegible] to this lady for [illegible] a heartening word about [illegible] Caesarian operation and the good health of her [illegible]

Recent science has lessened the dangers of this operation to a [illegible] degree as can the operation for appendicitis, which was [illegible] regarded as almost surely [illegible] BEATRICE FAIRFAX.

Proper Diet Puts Curb On Cold

By ROYAL S. COPELAND, M. D.

For many years scientists have been working to find the causes of colds.

Though some progress has been made many important questions are still unanswered.

Especially's work has been helpful in aiding individuals to prevent or overcome the common cold that at present which probably causes more waste of time and money than any other known disease.

A cold is an infection. When the body resistance is low, the individual is a ready victim to the germs that are ever about us.

Those who overeat, as well as those who are anemic and undernourished, also quickly "catch cold." It will be seen then that proper food, eaten in discreet amounts is of the greatest importance in combating a cold.

Recent experiments have proved that foods rich in vitamin A help to build up resistance, prevent infection and in many cases, reduce the severity of the attack.

It was also found that where vitamin A content was inadequate infections occurred in the eyes, nose, throat and lungs. Continued lack of vitamin A in the diet results in serious and permanent changes in the body.

While vitamin A is not a cure for colds, it does aid in their prevention. But please remember that it is wisest to include vitamin A foods in the diet at all times and not wait until you are suffering from a cold.

Science has told us that this vitamin is of the greatest importance in maintaining vitality and nutrition.

Velvet-Toned Cream

POSED BY MERLE OBERON

New Cleansing Product Is Easy on the Purse

By ARLINE GOULD

If you have been wearing yourself out in an unsuccessful search for a high-grade cleansing cream at a very minimum of cost, you can now relax for the quest at last seems ended.

Persons with a limited budget who have a yen for "luxury label" cosmetics will certainly be made happy to hear that a firm, whose name is synonymous with wealth and elegance, has evolved a delightful, new cleansing agent for very little money.

Another reason to endear it to budgeteers is the fact that this affair comes in a four-ounce jar — a size large enough for many weeks use.

The cream itself is of the light, fluffy variety and is recommended for all types of skins—dry, oily or normal. It is purely and solely a dirt chaser, and while it goes deep down into the pores and frees them of impurities, it won't of course eradicate wrinkles, firm sagging muscles or do the utterly impossible.

You must leave such work to more costly preparations of the same family tree. It seems amazing that a preparation which bears such a word-famous name can be obtained for so reasonable an amount, but we are assured that quality hasn't been sacrificed an iota, however.

To learn the name of this velvet textured cleansing cream that comes in a four-ounce jar, call Arline Gould, Liberty 4000, or write to her at the Boston Evening American, enclosing a stamped, self-addressed envelope.

Beauty Answers

Question: I have been following the new five-day Hollywood diet which you sent me, and already I have lost about eight pounds. I want to lose about 10 pounds more and am undecided whether to continue the diet now or wait a few weeks and then resume it. I am afraid if I lose weight too rapidly, my skin and face will suffer. What do you advise.

R. W., Roslindale.

Answer: Too rapid loss of weight is harmful to the health as well as to one's looks. Since your avoirdupois is of the kind which is lost easily, I think it would be wise to wait for a while before continuing.

The nice thing about this diet is that you never feel the pangs of hunger while reducing.

SECURITY ACT RESERVE HIT BY DAVIS

Special to Boston Evening American

Washington, April 23 — Elimination of the Federal Reserve Fund created under the Social Security Act was urged on the Senate by Senator Davis (R.), of Pennsylvania.

Declaring the reserve will total 40 or 50 billion dollars by 1980, Davis said its elimination would permit reduction of the old-age pension tax on employer and employe, make it possible to begin pension payments in 1939 or 1940 instead of 1942, and would pave the way for larger pensions.

I said to the Senate:

"I am a member of the non-partisan Social Security commission sponsored by the Hearst newspapers. For many months this commission has been studying social security, consulting with experts and making suggestions for strengthening the act.

"The members of this commission are very sympathetic with the purposes of the act, and most of them have been active in the field of old-age insurance and unemployment compensation for a number of years.

"I feel the conclusions reached by this commission should be made available to Congress and the Social Security board, as well as the special commission soon to be appointed by the board."

BURDEN ON INDUSTRY

Assailing the reserve fund as unnecessary and an unwarranted burden upon industry, Senator Davis said.

"In the next ten years about ten cents of every dollar of employer-employe taxes taken in will go to build up the huge reservoir that presumably will be between 40 and 50 billion dollars 40 years from now.

"This situation cannot be avoided unless the law is changed or the Congress refuses to appropriate hundreds of millions of dollars each year to be invested in government debts and spent by Congress."

Davis urged consideration of the non-partisan Social Security association's recommendations as the basis of an amendment to strengthen existing weaknesses in law.

Guard Against Holy City Riots

Jerusalem, April 23 (AP)—A heavy police guard was on duty as thousands of Moslems in headdresses and flowing robes of the desert tribes, marched into Jerusalem today for the annual feast of Nebi Musa, Islam's counter-demonstration to Christian Easter. There has been serious rioting in past years.

Drinking at Bars May Be Permitted

Hartford, Conn., April 23 (AP)—Legislative leaders indicated today that a sub-committee had virtually completed work on a general amendment to Connecticut's liquor control act which would permit, among other things, drinking at bars.

Barrymore's Old—and New?

ELAINE BARRIE JOHN BARRYMORE

John (Caliban) Barrymore and Elaine (Ariel) Barrie snapped during a dinner tete-a-tete only a few weeks ago. It looked like a reconciliation then, but Elaine was given her decree today. The judge said: "Better luck next time."

International News Photograph Service.

SALLY ALLEN JOHN BARRYMORE

A Hollywood premier the other night attracted John Barrymore, who escorted Sally Allen. Barrymore's romantic elopement and subsequent rift with Elaine Barrie were much in recent news. The divorce action is scheduled to be heard today.

ELAINE GETS DIVORCE FROM BARRYMORE

Los Angeles, April 23 (AP)—Elaine Barrie, 21, won a divorce today from John Barrymore, 55-year-old actor of stage and screen.

Only Elaine and her mother, Mrs. Edna Jacobs, testified at the brief trial that marked the end of Barrymore's fourth marriage—a union that lasted little more than four months.

After hearing the testimony, Superior Judge Walter S. Gates declared:

"I certainly think the plaintiff is entitled to a divorce. I grant the divorce. Better luck next time."

Neither Barrymore nor his counsel was in court.

Elaine, attired in a blue ensemble with turned up sailor hat adorned with a blue ribbon, calmly declared from the witness stand that her husband, who is widely known as "the great lover" was "extremely abusive."

"He used profane language and humiliated me before friends," she said.

Asked how, she replied

"He was sullen and morose and refused to talk to guests and me and would walk out of the house."

She asserted that at a party last Christmas he became abusive and "threatened to kill me."

Sometimes, she said, he would call her a "lire."

2 Gunmen Seize $3500 Pa. Payroll

Philadelphia, April 23 (AP)—Two men carrying pistols held up the president and four girl employes of the Herman Shoe Manufacturing Co. today and escaped with a $3500 payroll.

Clipper Reaches Hongkong

Hongkong, April 23 (AP)—The Hongkong Clipper arrived today from Manila, Philippine Islands, on a trial flight preliminary to the new airmail service across the Pacific.

Malden Woman Given Divorce

After describing alleged beatings which twice rendered her unconscious, Mrs. Mary M. McNeil of Malden today was granted a decree from Francis J. McNeil of Wellesley by Judge Joseph R. McCoole in Dedham Probate Court.

McNeil contested on custody of their children, Robert and Francis Jr., but following a bench conference, Mrs. McNeil was given custody with the father to have them week-ends. Alimony of $18 a week was granted.

Mrs. McNeil told the court she returned from a visit to her mother last February to have her husband seize her, carry her to a bedroom and beat and kick her. She quoted him as saying:

"I am going to beat you so your mother will never know you."

Facing Life Term, Slayer Is Suicide

Norfolk, Va., April 23 (AP)—Isaac Henry Bosman, 35, facing a life sentence in the state penitentiary for the murder of Katherine Elizabeth Ewell, 21, was found hanged himself with his belt in his cell in the Norfolk jail early today.

"I'll never go to Richmond to serve the sentence," Bosman was quoted by police as having told his wife after conviction on March 23.

Hungarian Nazi 'Fuehrer' Jailed

Budapest, Hungary, April 23 (AP)—The Hungarian Nazi "Fuehrer" Ferenc Szalasi was sentenced today to three months in prison, prohibited from holding office for three years on a charge of inciting people against Jews.

Szalasi and [illegible] were found guilty on April 17.

1 DEAD AS GALE WHIPS COAST

THIS IS LIFE
—BY—
Robert E. Rogers

I have just had a very pleasant and interesting experience reading the first half dozen installments of Austen Lake's stories from Ireland, which are going to begin next Sunday, April 25, in the Boston Sunday Advertiser and continue in the Boston American Monday.

ROBERT E. ROGERS

I have never met Austen Lake in the flesh, although I suppose I read his stories as regularly as a thoroughly non-sporting man can be supposed to. I have heard that he hails from Lafayette College, which is situated in Easton, Pa., and dates from the days when they used to recruit football teams of coal miners to play against their ancient and hereditary enemy, Lehigh.

As a sports writer he strikes me as an all-round newspaper man who can write anything, with a great deal of charm and humor and often real power. Better than his sports stories I like his tales of past experiences, the tales of his days in the war and the like.

Story of Little Dog Vivid, Pathetic

I shall always remember that vivid and pathetic story of the little mongrel mascot who died under fire in the trenches. It seemed to me a beautifully and strongly written story with a lot of personal appeal. And Austen Lake has written many such about the background of events, sporting and otherwise, which illuminate them mightily.

That is the feeling I have about these introductory stories of his about Ireland which I have just read. They are very far from being a dry recital of facts of modern Ireland's government and fiscal system, the agricultural system and the "devolution" of industry and that sort of thing. As a reporter Austen Lake can handle all sorts of material that sports do not allow opening for.

Like a good reporter—who deserves something better than an eternity of sports—he moves through this world or the stranger one across the water—he was in Ireland, nine years ago, by the way—with all his senses alert and impressionable and tenacious.

The opening story about the sights and smells and tastes of Dublin are constantly punctuated with bits of local color, odd quotations of rural speech, comparisons of Irish aspects and types and mannerisms with those of Boston—all of which give one a pleasanter and more humorous and more sympathetic picture of Dublin than one ever finds in the grim and scandalous chronicles written by the "new" Irish writers.

Beautiful New Series Effaces Sour Pictures

And it effaces completely the sour pictures of James Joyce in "Dubliners" and "Portrait of the Artist" and the mad, mad "Ulysses."

Five days he spends in Dublin catching its atmosphere and then sets out for the Wicklow hills a beautiful chapter about the first burgeoning of spring-time in the country. And always you get the effect from his stories of how alive and recent are the memories of the tragic days of the Easter Rebellion, the Black-and-Tans' reign of the heroes who died or starved or were imprisoned in the days of the "crossness," as the Irish call their civil war.

As you read along you run across unforgettable bits, like the story of the Lord Mayor imported by distressed people, who takes time out to relate a vivid episode of Easter Week, 1916; of Erskine Childers (the second of that famous name, whose active and hardworking wife Austen Lake remembered as a little girl of an old New England family in Exeter, New Hampshire, and whose story of how she came to marry the young revolutionist, now one of the pillars of the Free State, is in itself a romance.

Austen Lake Stories Worthy of Book Form

Somehow his pictures of Ireland today reminded me of the things I have read about the Russians who have time for endless hospitality and waiting, endless tea-drinking (though in Ireland there are other liquids on tap), endless disputation and argument, and unlimited allowance for hospitality and new acquaintances.

I am going to read all the rest of Austen Lake's stories with close attention and, I know, with increasing pleasure. Austen Lake is a working newspaper man and as such too busy to write books.

But I suspect from my first glimpses of his stories of visiting and stravaging around that they will make a good book. I recommend you all to keep an eye on them. They will repay it.

2D 'MRS.' Is Prize BEAUTY

LYNN WIFE WINS AWARD

When it comes to winning beauty contests this year, the married women, apparently, have it all over the "single" girls.

For the second time within two weeks, a pretty, young "Mrs." has won the coveted beauty contest title of "Miss."

She is 22-year-old Mrs. Alice Pope of North Common street, Lynn, who last night was selected "Miss East Lynn" at the annual ball of the East Lynn Post, 291, American Legion.

It was only a week ago last Tuesday that a married woman, mother of two children, Mrs. Mary Siwin of North Andover, won a similar title.

Mrs. Pope, a blue-eyed blonde, who has been married for four years, was chosen over 100 other women.

Mrs. Pope, employed in the business office of the telephone company in Lynn, today said she went to the dance with no intentions of participating in any beauty contest. She explained that there were no official entries but that a committee of two merely selected the winner.

"I didn't even know they were picking a 'Miss East Lynn,'" she said. "I thought it was going to be a contest selected from a certain group who entered their names.

"When I was told I was the winner I was stunned. But, of course, I was very much pleased."

She said she now plans to enter the beauty contest sponsored by the Swampscott American Legion post on May 20 to compete for the title of "Miss Essex County."

Ill War Veteran Rescues Parents at Lynn Blaze

Aroused by calls for aid, a bedridden war veteran rescued his 70-year-old blind father and his mother today when flames raced through their home at 140 Flint street, Lynn.

William Goldstein, recently returned from a war veterans' hospital, was awakened to find his aged father, Harris Goldstein, groping about in heavy smoke. The son carried both his parents to safety and then awakened his brother and his brother's family, occupants of the second floor of the dwelling.

Despite his illness, which had confined him to bed for the last two weeks, Goldstein again entered the house to carry out his two nieces, Selma 6 and Dorothy 3.

RENEW BATTLE OVER BAIL

Probable cause against two South Boston men, charged with violating Federal narcotics laws, was found by U. S. Commissioner Harry N. Guterman today, as another skirmish in the "battle of the bails" took place between Guterman and Assistant U. S. Attorney William T. McCarthy.

The two, ordered held for the grand jury were Patrick Shaughnessy of Burnham place, and Dennis Donahue of Eighth street.

They were charged with possession of 100 grains of heroin. A third, John Cooper of Bird street, Cambridge, was released when no probable cause was found.

McCarthy said:

"I'm going to ask for a low bail for these two men, say about $500 each."

"If they get $200 cash, it will be sufficient," retorted Guterman.

He based his finding of probable cause against the two on the testimony of the arresting agent, that he saw one of them dispose of a package of narcotics.

Couldn't Be Found So "Gives Self Up"

Boston Evening American Photos

"Peekaboo, I've found you!" Mrs. Mary Little of Hancock place, Cambridge, is saying to her erudite young daughter, Evelyn. But she didn't find her. Evelyn, four years old, gave herself up after a four-hour frantic search for the missing child, in which her mother called police. Evelyn calmly popped out from under the bed and said: "Here I am mother. I'm not lost at all."

Saved by Ill Lynn Hero

MRS. MYER GOLDSTEIN

SELMA GOLDSTEIN DOROTHY GOLDSTEIN
Boston Evening American Photo.

A sick war veteran, William Goldstein, proved to be a hero of a Lynn fire, when he rescued his aged father and mother and then took from the burning building his nieces, Selma, 6 and Dorothy, 3. The children are shown with their mother, Mrs. Myer Goldstein.

SNOW, Sleet Slow TRAFFIC

MANY MINOR ACCIDENTS

Snow squalls, sleet, rain and boisterous north-east gales swept New England today, driving coastwise shipping to cover, making highway traffic hazardous and causing one death.

Parts of Maine and northern New Hampshire were blanketed under a wet snowfall, reaching a depth of more than six inches in the vicinity of Portland.

Minor accidents were many all over Greater Boston.

One Cambridge auto death was attributed to poor visibility caused by the storm.

High winds which lashed the Massachusetts shore line reached a velocity of more than 65 miles an hour off Nantucket.

High Tides

Provincetown and other Cape Cod points reported damage from unusually high tides. Surf pounded waterfront structures and wrecked small boats blown from their moorings.

A grim battle against high-running sea was fought by the Coast Guard Cutter Ossipee which limped into the harbor today towing the battered fishing trawler Geraldine N. Phyllis.

Answering the distress call of the trawler, 260 miles east of Boston, the Ossipee set out Wednesday afternoon against a howling 60-mile gale.

After more than 12 hours struggle, the cutter reached the wallowing fishing craft and started back to Boston.

Tugs Hug Harbor

Seas were running so high outside the harbor when the Ossipee arrived that tugs were unable to leave the sheltered waters of the harbor to annex the Phyllis.

The Ossipee then brought the trawler to its berth at the Fish Pier.

Fog and storm brought Cape Cod canal traffic to a standstill, half a dozen freight-carrying vessels anchoring to await more favorable conditions.

Eastern Steamship liners between New York and Boston were delayed.

The coast guard cutter, Ossipee, brought a disabled trawler, Geraldine and Phyllis, into harbor here.

At Falmouth, telephone lines were down and highways were obstructed by stones and debris washed across the thoroughfares by the surf.

Rivers Swollen

The Nashua river was near flood-danger point at Fitchburg, Works Progress Administration workers were hastily rallied and set to building a dike of sandbags.

The victim of Cambridge's fatal auto accident was Louis Roderick, 34, of Lincoln street, Cambridge. His body was buried 20 feet, police said, when he was struck by a machine allegedly operated by Richard J. Carr, 19, of Murray Hill road, Cambridge. Roderick was crossing Norton square.

"Lost" Miss Little Promises Never to Fool Ma Again

Every day we learn something, even a four-year-old, and so today little Evelyn Little, who is just that age, was received never to play such a distressing prank on her Mom again.

Evelyn thought it would be great fun to hide on her mother, and the girl disappeared, throwing into a panic the entire neighborhood about her home at 3 Hancock place, Cambridge.

After a search had failed to disclose the youngster, Mrs. Little frantically called police, and those experts in the search began a new one.

The house was being searched thoroughly and other officers were questioning young companions of Evelyn, when she suddenly popped her head out from beneath a bed and cried

"I'm not lost, Mom. I've been here all the time."

The temptation to spank was strong, but Mrs. Little was too overjoyed at recovering her little girl to carry it out.

After a lecture, however, Evelyn promised.

MABEY TO SORT UNDERWEAR

Sorting underwear in the commissary at State Prison will be Stephen L. Mabey's next job.

The 56-year-old former jockey, who once wore the silks in a Kentucky Derby, today started the first 24 hours of a life sentence, imposed yesterday in Suffolk Superior Court, for the cyanide "cocktail" poisoning of Mrs. Mildred L. Bosse, of Dorchester.

He was interviewed by Deputy Warden Frank Graves, then was fitted out with prison clothes and assigned to his task.

Still maintaining his innocence, Mabey was transferred last night to the State Prison. He had previously been confined since January, 1936, in Suffolk County jail, awaiting trial.

He still clung to a hope that his counsel, Attorney John M. Boyle, might yet find a way to obtain a review of the case.

Probe of 'Firings' Demanded by Club

Bringing the total now discharged to 26, four more employes in the office of John Patrick Connolly, clerk of Suffolk superior civil court, were out of work today as Attorney Paul Dever received a demand from the Massachusetts Women's Political Club for an immediate investigation of their dismissals.

The employes discharged, according to a list released by the clerk's secretary, were Louise Crowley, of Winchester, sister of the late superintendent of police; Catherine Mullen, of Huntington avenue, Boston; Helen Barry, of Dorchester, and Paul Marble, of Brighton.

With the demand for rooms and apartments steadily increasing, discriminating renters will find a choice selection of vacancies in today's classified columns that will meet all their requirements as to price, description and location.

GIRL ABOUT TOWN
—BY—
Marjorie McBride

An American on tour will sometimes do things to the foreign language he's trying to speak that will make the natives furious . . . and cause fellow travelers to blush for him. Let them blush, advises Charles J. O'Malley, Boston globe trotter.

MARJORIE McBRIDE

Mr. O'Malley has just come back after one of his trips around the world. On the way, he took the trouble to jot down some of the quaint renderings into English of the thoughts of Orientals. Most of them are from guidebook people.

The first gem he ran across was something put out by a travel firm in India, which stated: "Concerts are given twice a day on the terrace of the Casino, in a framing replete with seduction."

In Ban-Gnoi, a town on the Chinese coast, he picked up a pamphlet which described the town's advantages by referring to the bay as one of the finest in the world . . . "The Russian fleet met there in totality before being destroyed by Japanese . . . a splendid scene."

Saigon Strolls Save Shoes, Anyhow

In Saigon, a booklet telling of the beauty of walks around the suburbs, said they "were to be made by car." At Oudon, same country, tombs sought by the sight-seers were advertised thusly: "This is where Cambodian kings have their remains kept after being burned out."

It was in a town called Delat, in Siam, that O'Malley encountered the choicest piece of English on his travels. Describing some of the natives in the back country, the circular for Americans read:

"They live in portable and light straw houses topping high bamboo feet for preventing the occupants from tigers and other wild animals. A few tribes are in touch with Europeans but most of them live in the deep forests and leave their villages when there is any doubt of their being no longer quite there."

• • •

Sorry, No Address With This Item

If the manager of a certain downtown restaurant doesn't know it yet, "Happy Birthday to You" is a magic phrase that is likely to be overworked in his place in the next month or two.

One of the executives in a business firm had a birthday, and five associates took him to the restaurant, where they all lunched daily. One of them lifted the first . . . and usually last . . . cocktail, and toasted:

"Happy Birthday to You."

So the manager hustled over. They were good customers. He presented them with a large bottle of champagne.

Stenographers heard of it. Six of them went to lunch there every day. None of them was celebrating a birthday but one experimented: Lifting a cocktail glass, she said: "Happy Birthday to You."

And the manager hustled over and hustled up a bottle of champagne for them!

Now the office boys think they'll try it.

• • •

If all automobiles were painted white, road accidents at night would take a sharp decline, contends Franklin E. Jordan, manager of the Automobile Club of Boston. He is in earnest about it, and would be inclined to support a law compelling car owners to do it. He pointed out that traffic police on duty nights usually wear white belts and shoulder straps with their uniforms.

• • •

Maybe It's Useless, But There's Fun in It

What do amateur collectors collect? Walter I. Nichols, Boston auctioneer and authority on antiques, discloses the secret.

They will pay real currency for glass hats, old Valentines, whaleoil lanterns, McGuffey readers, barber poles, Currier and Ives lithographs, fans made of silk and ivory, historical plates, sleighbells, mustache cups, mounted butterflies, totem poles, Russian icons, decanters of blown glass, stereopticon views, ship models, scent bottles of hobnail glass, old dime novels, shaving mugs.

That gives a faint idea. Nichols thinks even a suit of red flannel underwear or a pair of old wristlets might have a special value if he could find a client with a big enough car and a big enough drawing account to take care of all the samples.

PHONE YOUR NEWS TIPS TO THE BOSTON EVENING AMERICAN AND SHARE IN $50 CASH AWARDS THAT ARE OFFERED EACH WEEK
Do you want to make some money for being alert? If so, the Boston Evening American and the Sunday Advertiser are presenting the opportunity. Every week a total of $50 in prizes will be given for news tips telephoned in to the News Tip Editor at Liberty 4000. There will be given $25 weekly for the best first exclusive news tip received, $10 for the next best, $5 for the next best and $1 prizes for each of the 10 next most valuable tips.

Betty Alden on 'Beacon Hill'

Series of Breakfasts to Aid Cambridge Welfare Fund

By BETTY ALDEN

"BREAKFAST FOR 500, please James . . . and don't burn the toast" . . . will be the modest order of hungry Cambridge residents this coming Sunday morning . . .

Ordinarily Sunday morning breakfast in Cambridge, as in every other town, is a hurried, nibbled necessity, worked into the day's program somewhere between three or four extra sets of forty winks, and a hasty departure for church . . .

Andre Snow Photo
MRS. PHILIP S. HESSELTINE

But day after tomorrow morning, the luxurious forty winks will have to be reduced to twenty, or even ten, because for once, breakfast is to be the feature of the day's program . . .

All this emphasis on the morning meal is the result of a clever idea evolved by the members of the committee for the Cambridge Family Welfare Society . . . In searching for a novel method of raising money for the society, they hit upon the idea of giving a number of breakfast parties at the same time, instead of one large luncheon or dinner . . .

As the plan has been worked out, about fifty hostesses all over Cambridge, and even in Weston and Belmont, have each invited ten or fifteen guests to come to her house for breakfast . . . Each hostess is serving the breakfast favorite of her particular household . . . and each guest will donate seventy-five cents to the Family Welfare fund . . .

Both hostesses and guests are looking forward to the occasion because the former will have an opportunity to present her proudest epicurean creation for the approval of an appreciative audience outside her own family circle . . . and the breakfasters, on the other hand, will be able to find "something different" to satisfy the jaded Sunday palate . . .

According to Miss Harriet Stimson of Prescott street, one of the hostesses, the usual eggs, cereal and coffee are frowned upon in the best Baltimore circles, so she will serve what is known as a "Baltimore Breakfast" . . . and will have the fun of seeing her guests literally lick their chops over waffles with maple syrup, and kidney stew . . . Among her guests will be Mr. and Mrs. James F. Pugh, Mrs. Charles Lindsey Ware and Mr. Montgomery Reed . . .

Dr. and Mrs. Arlie V. Bock of Memorial Drive have searched far afield for their culinary inspiration and will serve a Bermuda Breakfast . . . which, contrary to the wee-acres' immediate reaction, does not consist of onions . . . but is comprised of several different fish delicacies served in a tempting style . . .

A number of ingenious hostesses have created novel settings for their parties . . . Mrs. Willard Helburn of Fresh Pond Parkway is having a regular Aunt Jemima mammy serve a southern breakfast to her guests and the coffee will be poured from steaming pots in the fireplace . . .

* * *

Party Will Serve as Housewarming

MRS. ALDRICH DURANT is entertaining a crowd of hungry Harvard students . . . Mrs. Theodore Miller's party will be more or less of a housewarming for her new residence on Juniper Hill . . . Mrs. Charles P. Smith is hoping it won't rain for she has planned to have her party on a sunny upstairs porch . . .

Professor and Mrs. Clarence Haring are also counting on a warm sunny morning, for with three other couples they have made plans to take their guests up the river to a secluded grassy plot where they can enjoy a picnic breakfast . . . Their co-hosts will be Edmund Barnard, Mr. and Mrs. Paul Gring and Mr. and Mrs. Warren MacPherson . . .

Mr. Martin Mower's studio will serve as the cozy setting for the party Mrs. Mower is giving . . . and another very jolly group will gather around the breakfast table of Mr. and Mrs. Theodore G. Amet, who have arranged a tempting menu for the early morning golfers who will just about finish the 18th hole when the breakfast bell rings . . .

Mrs. Reginald Hill of Weston is opening her home for a party and other hostesses will be Mrs. Richard Eaton and her sister, Miss Katharine Sturgis, who are entertaining at their mother's home . . . Mr. and Mrs. John Ellis, John L. Warren, Dr. and Mrs. Hilbert Day; and Professor Edwin Hall and his daughter, Constance, whose guests will include Mr. and Mrs. Wayland Minot, Mr. and Mrs. Henry Chapman Jones, Mr. and Mrs. Jerome Greene, Mrs. Henry Metcalf, Mrs. George Hodges, Mrs. Edward Jones, the Misses Jessie Pierce, Cynthia Hutchinson, Eleanor Blackall, Rachel Hall, Arthur Drinkwater and Dr. C. M. Hutchinson . . .

Mrs. Philip Carleton, chairman of the breakfast committee, and Mr. Carleton, are entertaining Mr. and Mrs. Stoughton Bell, Mrs. Henry D. Greene, Mr. and Mrs. Henry Shreve, Mr. and Mrs. Carlysle Roberts, Mr. and Mrs. Albert Bradley Carter, Mr. and Mrs. Stuart Grecom, Commander and Mrs. Sherwood Picking, and the Misses Emily Hopkinson, Emily Sibley, Mary Shreve and Frances Robinson . . .

* * *

All Plan Dishes Decidedly Different

GUESTS OF Mr. and Mrs. Leonard Cronkite will include Rev. and Mrs. C. Leslie Glenn, Professor and Mrs. George Kittredge, Mr. and Mrs. Charles Whiting, Dr. and Mrs. W. E. Preble, the Misses Comstock, Florence Gilman, Dora Kittredge, Eleanor W. Allen and Louise Jackson . . .

Mrs. Weld Arnold has invited a number of friends to her Scott street home . . . among them Mr. and Mrs. James Mitchell, Mr. and Mrs. Robert Davison, Mr. and Mrs. Ralph Boyd, Mr. and Mrs. Richard Chute, and Mrs. Lawrence Rossiter of Pasadena, California, the hostesses' sister . . .

Mr. and Mrs. Ralph Wales are having a neighborhood gathering at their house . . . and so are Mr. and Mrs. Arthur D. Hill of Fresh Pond parkway and Mr. and Mrs. Leonard Wheeler, Jr., of Coolidge Hill road . . . Mr. and Mrs. Donald Born have invited Mr. and Mrs. Paul Buck, Mr. and Mrs. Henry Brigham, Mr. and Mrs. A. Lawrence Hopkins, 2d, Mary Greene, Mary Hurd and William Green . . .

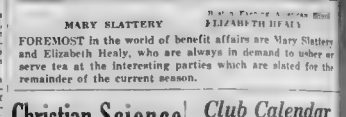
Albert de Quevedo Guild Completes Dinner Plans

ALWAYS
In Demand as Ushers, Pourers

MARY SLATTERY



ELIZABETH HEALY

FOREMOST in the world of benefit affairs are Mary Slattery and Elizabeth Healy, who are always in demand to usher or serve tea at the interesting parties which are slated for the remainder of the current season.

Committees Busy

AFTER SPENDING winter evenings learning about "Character" from Rev. William A. Carey, S. J., professor of philosophy at West College, members of the Albert de Quevedo Guild of Boston are finding interest in the gayer things of life.

They're planning a get-together dinner at the University Club, Tuesday evening and will have Father Carey as guest of honor. Mary R. Harris of Winthrop is arranging the dinner, and Ellen Flynn of Roxbury is secretary of the reservations committee

Officers and board members of the guild will serve on the reception committee which includes John C. McCargar of Dorchester, Mary Cusick of Brookline, John R. Horgan of Brookline, and Kathleen Donahue of West Somerville

Toastmaster for the affair is Edward Breau of Newton Center. Music has been planned by Alice Hurley and Elisabeth Shea, and decorations are in charge of Isabelle Jacobs.

Ushers are headed by Grace Bulnan, assisted by Paul Bouvier, Bertha Shepard, John Healey, Grace Robinson and John Clifford. Helping Marion Marsh, chairman of the ticket committee, is Marguerite Kimball

Also serving on the reception committee are Mrs. John R. Horgan of Brookline, Julia Visali of Winthrop, Anne Boyle of Cambridge, Annette Otis of Dorchester Mary R. Harris of Winthrop, Marion Curtis of Somerville, and Frances O'Halloran of Newtonville.

Members of the guild who will serve as hostesses at the various tables include Margaret McGrath, Alice Kelliher, Mary Doherty, Josephine Sullivan, Katherine Lyons, Mildred Collins and Rosamond Adams, chairman of the group.

* * *

West Roxbury Group to Meet

A farewell to the season will be the keynote of the luncheon which the West Roxbury Catholic Women's Club is holding at the Hotel Vendome Wednesday afternoon.

Election of officers will take place, reports will be submitted at the business meeting, at which Mrs. Thomas Clifford will preside. General chairman of the affair is Mrs. John J. Connell, who is being assisted by Mrs. William Casey, Mrs. William Peck, Mrs. Richard Cronin, Mrs. Daniel Sutton, Mrs. John Donovan and Mrs. James Shattuck.

Reception and the seating of guests will be in charge of Mrs. Frank Flanagan, Mrs. Thomas Godvin, Mrs. Albert Nott, Mrs. Joseph Sherry and Mrs. Frank White.

* * *

Club Girls Will Honor Mothers

Miriam C. Donald is chairman of the group of Junior Philomathelans arranging the communion breakfast at the Club Chalet on Mother's Day, May 9.

The affair will be quite a festive one. Souvenirs for the occasion are being selected by Alice Kiley and baskets of spring flowers for centerpieces are being arranged by Ruth Harrington and her committee.

Door arrangements are in charge of Dorothy Crennell and Frances O'Halloran. Catherine Egan will chairman the reception committee.

The day's menu is being planned by Florence Cook, publicity is being directed by Catherine Curley and Lois McCarthy is in charge of the usher group.

* * *

Literary Circle To Attend Play

Mrs. Lawrence Harrington of Cambridge, who acquired quite a name for herself a few years ago on the legitimate stage, will direct the one-act play, "An Old Magazine," the highlight of the meeting of the Joyce Kilmer Literary Circle Monday evening at the League House, 1 Arlington street.

Taking part in the presentation will be Mary Cressettiers and Mildred Cusack, both daughters of members. Others contributing to the evening's talent will be Florence Matthews, Alice Sullivan and Virginia Parker. Current events will be reviewed by Helen Haney and the president of the circle, Mrs. Richard T. Howard, heads the reception committee.

Educators to Hold Harvard Conclave

Modern education problems raised by the progressive schools, the Civilian Conservation Corps, and the adult education movement will be discussed by leading American authorities in three special conferences to be held at Harvard University during June and July it was announced today.

Gathering a forum of educators from Columbia, City College of New York, the University of Minnesota and Harvard, the convention will convene one week before the opening of the regular summer school session and will last for six days.

Christian Science Declared 'Good Government Aid'

Francis Lyster Jandron of Detroit, a member of the Christian Science Board of Lectureship addressing a large audience in the First Church of Christ, Scientist Back Bay, on the subject of "Christian Science, the Science of Good Government" declared:

"Christian Science brings to you a message which will heal you, if you take it into your consciousness and let it abide there. If you will receive it as a friend it will reveal to you the divine principle of all true government, by which alone man should be and must be governed."

He was introduced by Miss Florence S. Middaugh, second reader in the Mother Church

Harvard Move Aimed at Tutoring

In an effort to curb "excessive tutoring" Harvard University's faculty council of arts and sciences today passed an order prohibiting scholarship holders from acting as extra-curricular instructors.

The move, coming on top of the Harvard Student Council's recent unfavorable report on tutoring schools in the vicinity of the University, was believed a forerunner of more stringent action against the current practice.

Club Calendar

THIS EVENING

6:30 p. m.—Women's City Club of Boston, at the clubhouse, dinner

7:00 p. m.—Quincy Junior Women's Club Victoria room, annual meeting and banquet.

FRIDAY

Socialites At Show

Peggy Parker found last evening's storm quite a contrast to the warm balmy breezes she just left behind in Bermuda, but that did not stop her from donning her prettiest evening frock and sallying forth with a party of friends to hear the D'Oyly Carte company in "The Pirates of Penzance" and "Trial By Jury."

Inside the Colonial lobby all was bright and cheerful, and Peggy's black lace frock, trimmed with powder blue satin to match her slippers and the flowers in her hair, was one of the most outstanding outfits in the audience

Mr. and Mrs. Nicholas Danforth (Nancy Wellington) were one of the dressy young married couples, the bride in a flame lace gown with a jacket of vari-colored woven fabric. Mr. and Mrs. Louville Niles, Mr. and Mrs. Sumner Weld, Mr. and Mrs. John K. Rheeves, Mr. and Mrs. Howland Shaw Warren and Mr. and Mrs. Horace Morison were others in the large audience.

Flower Mart Opens

Boston's flower lovers found the Flower Mart, which opened in Horticultural Hall today, for the benefit of the Massachusetts Society for the Prevention of Cruelty to Children, so interesting that Mrs. George S. West and Mrs. S. Huntington Wolcott, Jr., had to accept the services of additional volunteer waitresses to cope with the crowd at tea.

These additional waitresses were Mrs. Nelson Aldrich, Mrs. David Chester Jr., Mrs. Alfred Hallowell, Miss E. L. Hollingsworth, Mrs. Alexander Ladd, Mrs. James Parker, 2d, Miss Priscilla Weld and Mrs. Thomas Whiteside.

In addition to the flowers and plants offered for sale at booths representing many sections of Boston and the suburbs, all sorts of garden gadgets are on display and costumed debs and sub-debs in costume wander about in the crowd selling cigarettes and candy. Among the latest to add their names to Mrs. F. DeHart Houston's list of candy and cigarette vendors are Anna Benedict, Daisy Pickman, Abigail Adams, Faith Fisher and Margaret Howell.

Those active in organizing the South Shore booth and who are assisting at Horticultural Hall today and tomorrow include: Mrs. Wilfred G. Funnell, Mrs. Douglas Buchanan, Mrs. James L. Crawshaw, Mrs. Robert M. Prouty, Mrs. F. Warren Crane, Mrs. N. Gorham Nickerson, Mrs. Herbert H. Albee, Mrs. Paisley Crane and Miss Ada Dewson, who will be married to Edward Iselin of New York on May 15.

Mrs. Carleton Rowe is chairman of the Milton booth and assisting her are Mrs. Jesse Baxter, Mrs. Ralph Forbes, Mrs. Samuel Johnson, and Mrs. Philip Y. DeNormandie.

Mrs. Samuel Morison is chairman of the committee in charge of the North Bennett Street Industrial School booth and among the other members are Mrs. Lucius Hill, Mrs. Richard Eaton, Miss Alice Smith, Miss Ethel Forbes, Mrs. Frederic L. Day, Mrs. Edward Reynolds, Miss Alice C. Jenckes, Miss Ethel Tremaine and Miss Katherine Homans.

* * *

Dr. and Mrs. Hollis Batchelder of Dedham sailed yesterday for a ten-day vacation in Bermuda. Their daughter, Barbara Batchelder, who is engaged to John Marshall Lockwood of Brooklyn, is planning an early July wedding.

THE FAMILY ALBUM

Everyone likes to pore over the old family album. Here is a page from the family album of Boston society. Can you recognize any of these girls? They are identified on page 24.

NORTHEASTER HALTS RED SOX-YANKEES OPENER

Doerr, Mills, Higgins Infuse New Life in Local Lineup

R. FERRELL OSTERMUELLER ALMADA HIGGINS MILLS GAFFKE CRAMER DOERR CRONIN

"HEAVE HO!" shouts Manager Joe Cronin in the role of coxswain as he readies his charges for the opening of the American League baseball season tomorrow with the New York Yankees furnishing the opposition. This crew shot of the Red Sox certainly is appropriate with all the rain we've been having.

MR. BOSTON

Sox Prima Donnas See the Light | *Club Ought To Go Somewhere*

By JACK CONWAY

NEW HOPE has been rekindled in the hearts of the Red Sox as they open their 1937 American League season in Boston.

Mr. Boston

The men of Yawkey, Collins and Cronin have abundant room in their hearts for hope, as they were in the depths of despair when the baseball curtain dropped at the end of the 1936 campaign.

They had seen a strong pennant contender on paper crash. They had watched some of the highest priced players in major league baseball perform like Class D castoffs.

Spring always brings new hopes and ambitions. This year is not an exception, and you will find players and fans on edge once more as Sox and Yankees clash in their series at Fenway Park.

The Sox have displayed a new hustle and fight in their games [illegible] every man on the club is playing heads up baseball. The prima donnas of other days are in the trenches working [illegible] the gang. They now realize that inflated heads [illegible] get base hits or pitch winning baseball.

The Sox have a class ball club if every player does as he is capable of doing. There is a real punch in the batting [illegible] defense is above par, while there are some better [illegible] pitchers on the staff.

The [illegible] makers didn't hand the Sox a soft touch for [illegible] home series. The Yankees have real power, and [illegible] to win the American League pennant again.

[illegible] are right, they don't have to ask for favors from [illegible] as a result it will be interesting to see how they respond from the keen competition they will receive from Joe [illegible] outfit.

FOXX AND DIMAGGIO OUT

JIMMY FOXX, Sox home run hitter, is still nursing an attack of sinus, while Joe DiMaggio, the spark plug of the Yankees, is trying to get over the effects of a tonsil operation. As a result these famous players were not to participate in the opening game here.

Foxx is expected to be back in the lineup next week, and he will aid the Sox with his powerful hitting.

DiMaggio was responsible for the success of the Yankees [illegible] He gave the club the extra punch it needed to [illegible] pennant winner. Joe is a natural hitter and may get [illegible] before the Yankees leave town on Sunday night. The Yankees and then the Athletics come to town, after [illegible] tour of Cronin journey to New York for a short series [illegible] the trail for their first Western invasion.

"LUCKY" TETER'S DARING

I WISH TO offer "Lucky" Teter as the No. 1 man in daring [illegible] I took in "Teter's [illegible] show at the Garden, [illegible] of my seat more than I was in it.

[illegible] gasps at death throughout his sensational program. [illegible] through the air in an auto with the same nonchalance [illegible] Doolittle used to show when he was piloting an airplane.

I shall always remember the night when Jimmy's machine [illegible] the top ring rope at National League Park by barely [illegible] The ringside crowd at a Crosscup-Fuhon show gasped [illegible] feared the plane would crash. Then the versatile Doolittle [illegible] the plane toward the summer sky and was gone amidst [illegible] of his engine.

"Lucky" Teter while in an auto jumps over trucks, goes through a wall of fire and turns his car over from wheel to wheel. It is the most amazing exhibition of stunt driving seen anywhere, and it is a miracle that "Lucky" comes through it alive.

Apart from his own ability as a stunt driver, "Lucky" is a brilliant leader. He inspires every man in his outfit,

OUR OLD FRIEND Lefty Grove, ready and waiting. Lefty has been given the honor of opening the home season against the Yankees tomorrow afternoon, and he promises to repeat his success of last year when he shut the champions out with two hits.

Weatherman Halts Yanks, Sox Game

By BILL CRIMES

The Red Sox and Yankees will have to wait until tomorrow to raise the flag at Fenway Park for the season's opening game. The northeaster's rain and snow made conditions unfavorable for today's game.

Manager Joe Cronin will string along with Lefty Grove as his first game pitcher, while Manager McCarthy of the invaders will hold Monte Pearson responsible for the Red Sox activities.

At this time a year ago, the Red Sox were being toted far and wide as the potential champions of the American League. Even Joe Cronin admitted—and for publication—that the Red Sox would grab off the buntin'.

But that's about as far as they went in the championship race. Injuries, internal dissention and lack of the old urge to win ruined the 1936 Red Sox.

PUNCH IN OUTFIELD

During the off-season, the Red Sox added new blood to the team. Manager Joe Cronin brought up enough newcomers to install some much needed strength and also some very much needed hustle.

Bobby Doerr and Pinky Higgins, the former up from the Pacific Coast League and the latter from the Athletics, rounded out one of the best of all time Red Sox infields. Doerr is a rookie, receiving his baptism in the major league but Higgins is a seasoned veteran and the peer of any third sacker in the game.

Along with Higgins and Doerr, the Red Sox also took on three outfielders all of whom have shown a better punch with the willow and far more hustle than their predecessors.

Fabian Sebastian Gaffke, Colonel "Buster" Mills and Dominic Dallessandro are the three new outergardeners. Gaffke and Mills are playing regular and the former has displayed more slugging ability than any member of the Sox. Mills is just beginning to hit his stride after he's long lay off, which was caused by a spiked foot.

ALMADA ON FIRST SACK

Due to the absence of Jimmy Foxx, who is still in the Philadelphia Jewish Hospital, Melo Almada will cover first base for the Red Sox during the Yankee series and until "Double X" recovers his health, which has been better par for almost six weeks.

Naturally, the loss of Foxx will weaken the Red Sox attack, but Almada will strengthen the club defensively, for he's an exceptionally clever first sacker.

With Joe DiMaggio out of the lineup, the Yankees will not be at war strength. They are, however, still one of the most powerful aggregations in the annals of the American, or for that matter, any other league.

There isn't a soft spot in the entire Yankee batting order, from Little Frankie Crosetti right down the line to the pitcher. And the fact that outfielders are hitting in the No. seven and No. 8 spots speaks volumes for the ability of the other regulars.

O'HARA OPENS RIDING CLASS

Tom Thorp Gansett Dean

By TRACKMAN

Pawtucket, R. I., April 23—It's President Walter E. O'Hara and Dean Tom Thorp of the O'Hara Horseback Riding College these days.

For you must know now about O'Hara's plans for apprentice riders, which goes into effect with the opening of the New England racing season at Narragansett Park, Saturday, May 1.

There will be schooldays, and classes for those little knights of the saddle. And O'Hara is going to provide ample opportunities for apprentice riders.

The popular Celt is staging one race each week for apprentices who have never ridden a winner, while two other events each week will be for apprentices who have not ridden five winners.

And two nights each week after the crowds have wended their way home with the completion of the final day's race, there will be classes held for the apprentice riders.

Cleaner Sport

Tom Thorp, the steward with an understanding of the horseman's sincere and honest way, presides over these gatherings.

Thorp will have the leading riders of the meeting, those veterans of the saddle brigade, lecture to the youngsters on the various riding techniques such as whip riding, breaking from the post and the art of finishing.

This move on the part of O'Hara is proof enough that Narragansett's managing director is doing everything possible to put horse racing above reproach.

Gansett Topics

Post time at Narragansett for the Spring and Summer meetings has been set for 2:15 p. m. The daily double will be on the first and second races . . . More than five hundred horses are already on the grounds and, according to Racing Secretary Pat Horgan, there will be more than 1,000 by opening day . . . George "Buddy" Wingfield, new head starter, was an arrival and immediately took charge . . . Nick Nardi, popular young trainer, has a capable plater in Scotch Queen which should win several races at the spring meeting . . .

The Bahr gate will be in use for the three meetings . . . George Seabo will again ride for Paul Codd . . . Mrs. Walter E. O'Hara's Arabo Stable checked in from Maryland in charge of Trainer Bobby Curran. Heading the shipment were the handicap stars Mucho Gusto and New Deal . . . Danny Shea, well known in local society horse show circles, is here with eleven horses, including eight two-year-olds, the property of the Flying Horse Farm of Sumner Pinaree.

Program Selections At Havre De Grace

(By Bay State News Service, Inc.)

1—Addis Ababa, Distract, Happy Hazel.
2—Lightning, Lord Tournament, Patch Pocket.
3—Smoke Signal, Singing Slave, Miss Oak.
4—Grand Duke, Patsey Begone, Sunned.
5—Gay Dog, Midshipman, Xandra.
6—Pernill, Rollick, Worthington.
7—Koterito, Sylvia G., Icy Wind.

Eagle Freshmen To Open Tuesday

Coach Dave Concannon's Boston College freshman baseball team will open its season against the Northeastern freshman nine at Alumni field next Tuesday afternoon.

$1000 in Prizes for Newton Horse Show

The Ard Righ Horse Show and Festival for the benefit of the Sacred Heart parish, Newton Center, will be held on Saturday, May 15, at Mrs. Edward C. Donnelly's estate in Dover, Massachusetts.

It is New England's largest one-day horse show.

There are over one thousand dollars in cash prizes and many trophies and prizes.

So great has been the demand for boxes that 75 have been already reserved. On the occasion of the previous Horse Show, held in the fall of 1935, 6000 persons attended, and a larger number is expected to be present at this year's show.

There will be many other interesting events for the entertainment of those who attend. Mrs. Matthew P. Scullin will direct the Puppet Show activities in the Ard Righ Playhouse.

Hugh Nawn will have charge of transportation. He has arranged to have Boston Elevated buses run directly to the Donnelly estate.

John Foley and James H. Murray are in charge of the committee on festival activities. Thomas Carens is to be the supervisor of lighting. Richard J. Dunn, George Shannon, Mrs. Evelyn V. Mitchell, Mrs. Gaol Coakley comprise the committee on sponsors.

Matthew J. Sheehan, Harry Blake, James H. Connors, William B. Carolan, Maurice Drummey, Louis Hoffman, Maurice J. Lacy, James Linnehan, William J. Lyons, John Walker, Matthew F. Scullin, M. J. McCarten, Harry MacDonald, Harold Fitzgibbons, Timothy Regan, George Mahoney, William H. O'Leary, Thomas Foley and Dr. Edward B Sheehan are members of the program committee.

George H. Collins is chairman of the refreshment committee. John Donnelly is director of grounds.

Members of the reception committee are Mrs. Edward C. Donnelly, Mrs. Edward C. Donnelly, Jr., Miss Mayline Donnelly, Miss Catherine Donnelly, Mrs. John Donnelly.

One of the prizes to be awarded is an automobile, donated by Allan J. Wilson, chairman of the Horse Show committee, and another prize is an all-expense tour to Havana, donated by Maurice Drummey.

Mrs. Allan Wilson has charge of the sale of boxes.

Sox Ticket

Holders Take Notice

Red Sox officials are requesting all fans holding tickets for today's game (Friday) in the reserve section and the boxes to exchange them at the box office before tomorrow's game. People holding stubs for box seats are requested to exchange them at Gate 12.

The box office at Fenway Park will be open at 9 A. M. tomorrow in order to accommodate people wishing to exchange and buy tickets.

Gilbert Loses Derby Chance

By Associated Press

Johnny Gilbert, one of the turf's outstanding riders from Pittsburg, Kans., will miss the Kentucky Derby, although he has had several chances to ride in the event. He will be needed at Jamaica, May 8, to ride a starter for his employer, John Hay Whitney, in the Rosedale stakes.

Jack Westrope, holder of the American jockey record for one year, has left Havre de Grace to take up his job as contract rider for W. H. Furst, whose horses are stabled at Churchill Downs. The one-time apprentice sensation, winner of 301 races in 1933, will ride his employer's Gerald in the Kentucky Derby if the son of Pharamond 2nd starts.

The suspension of Sammy Renick at Havre de Grace Wednesday has left the Alfred G. Vanderbilt stable with only one jockey, Lloyd Knapp.

Harvard Cubs Play

Harvard's freshman baseball team, defeated the last two times out, lines up against the strong Huntington School nine on Soldiers field today. Coach Dolf Szamborski has selected Eddie Moore for the hurling duties.

SCRATCHES

AT HAVRE DE GRACE

1—Chiriqui, Lady Briar, Acautaw.
2—Envoy, Masked Gal.
6—Jimmy D., Snow Coat, Paddys Sister.
Weather, clear; track, slow.

AT KEENELAND

1—Real Play, Spies Box, Frosen Mask, Dixie Land, Meadow Sweet, On Delivery, Frances Sweep, Brarye Jackson.
6—Victory Miss.
Weather clear, track fast.

AT ARLINGTON DOWNS

1—Taptime.
2—Chaumont, Spearulus.
3—Little Reigh.
6—Miss Darling, Loiset, Check Signal.
8Luna Bright.
9—(Declared off).
Weather cloudy; track good.

Cotton Wins

Moorpark, Eng., April 23 (AP)—Henry Cotton, member of the British Ryder cup, today won the £5000 Silver King golf tournament with a 72-hole score of 279. Cotton put together rounds of 73, 64, 70 and 68.

WAR ADMIRAL TOP CHOICE

Wilson's Choice in Fifth

By DAVE WILSON
(Selections for Fast Track)
BEST BET—WAR ADMIRAL, FIFTH RACE

Havre De Grace, Md., April 23—War Admiral, its aye, aye sir with Trainer George Conway and Jockey Charley urtsiKnger in the $10,000 added Chesapeake Stakes, mile and one sixteenth feature here tomorrow.

"Best horse I've trained since Crusader," said Conway. "War Admiral should romp home," he added. "He's a champ if there ever was one," declares Kurtsinger. "He'll win the Kentucky Derby, too," adds the flying Dutchman.

War Admiral picked up 118 pounds and stepped six furlongs in 1 1/12-5, the fastest time of the meeting, to win in hand from Clingendael, Airflame and others in his 1937 debut under colors That performance, in my book, was the finest effort shown by any Ken tucky Derby eligible this spring and it's little wonder that Conway and Kurtsinger, as wel as the writer, are so enthused over his chances.

War Admiral has never raced over six furlongs in active competition, but breeding and morning trials indicate that he can run all day. Jockey Eddie Decampmiss, who gallops the bay son of Man O'War and Brushup, is of the same opinion.

I look for War Admiral to make every pole a winning one in the Chesapeake. Next to the Glen Riddle colorbearer, I fancy the Foxcatcher's Farm Fairy Hill, winner of the Santa Anita Derby, and the Bomar Stable Siam in the order named.

FIRST—Masked Gal, She Knows, Top Tax.

MASKED GAL ducked today's card to wait this easier card. The Hyma Neuatsel colorbearer finished a bang-up fourth to Bill Donoghue, Sage Girl and Grand Duke in her last outing. In front of that, she was a winner over opposition similar to that encountered here. SHE KNOWS, on general Florida form, shapes up better than Top Tax in the fight for place honors. The latter suffered sharp early interference in his last outing. May be beaps better than rated.

SECOND—Bunny Baby, Stage O'Beauty, Busse Trumpet.

BUNNY BABY, second to Radio Charm in last race, needs only to duplicate that good effort to insure brackets. The opposition is little more than she drubbed in her last outing. Contention, if anything, is furnished by STAGE BEAUTY. The latter whirled four and one-half furlongs in :55 1-5 to lead home Heraldo and others in her maiden debut only a few days back. BUSSE TRUMPET performed well during that winter's racing in Florida. Mud will help his chances.

THIRD—Deflate, Black Highflow, Joyride

DEFLATE, a speed marvel, cut out a dazzling early pace in her last race only to give way to Mucho Gusto and Purple Knight in the stretch run. That effort stamps the J. P. (Doc) Jones color bearer vastly superior to this field of platers. BLACK HIGHBROW failed to finish among the first four in his last race, but the Blackwood color bearer was beaten only a trifle over two lengths by the winner Sunned for all the money that day. JOYRIDE finished far in back of the top selection in his last start, but I have a hunch that effort was much too poor to be true

FOURTH—Purple Knight, Chance Ray, Army and Navy

PURPLE KNIGHT, the Vanderbilt castoff, came from far out of the clouds to finish a fast going second to Mucho Gusto. Deflate, Weston adn others finished behind him that day. That race was six furlongs, and the two mile route of this number should be right to measure CHANCE RAY was pited too amazingly in last Saturday's Philadelphia. Going back to previous top form the Denemark colorbearer looms all over the danger ARMY AND NAVY, a distant third to Brown Twig and Silent Shot in his second debut, may improve enough to save the show.

FIFTH—War Admiral, Fairy Hill, Siam

WAR ADMIRAL galloped a slow mile and a quarter in 2.11 last Wednesday—all that was needed to put him on razor edge for tomorrow's big race. He is slated to receive a short pipe-opener at Bowie tomorrow. FAIRY HILL has literally burned up the local strip since being shipped from the Foxcatchers farms early last week His five-eighth final in 1.01 over a heavy track yesterday morning was easily the outstanding trial of the morning. Dick Hanlin's charge had previously worked a mile in 1.42 hard held on a dry track. SIAM received his final tightness in active competition—drubbing shiftly three year olds in six furlongs sprint last Wednesday.

SIXTH—Naval Cadet, Secret Vote, Capt. Jerry

Toss NAVAL CADET's last effort into the mud. The American gelding showed a complete distiking for the muddy footing that prevailed in his most recent endeavor. Going back to a previous good outing a third to Some Ball and Middlebrook he looms all over a winner. SECRET VOTE fourth to Tragedian Post Brigade and Peloo did not show at all badly in that recent effort considering that he was beaten less than four lengths for all the money. CAPT. JERRY was heavily backed in similar company the other day, but faded right out of the picture after making a strong bir on the far turn

SEVENTH—Paddy Sister, Eudes, Black Mischief

PADDYS SISTER, well tightened in sprint races, should be sufficiently zeppe up to turn back a weak field of this sort. Eudes could pull a wagon and drub a field of the caliber last summer. The J. J. Martin color-bearer has been on the slow side of late this spring, but morning trials indicate a vastly improved effort. BLACK MISCHIEF isn't a bad-looking nag, but he'll have to show marked improvement over recent dull form to head the top pair.

Seek Stall Space At Agawam

Springfield, April 23—Interest in the approaching horse meeting at Agawam Park is reaching new heights as the racing strip gradually is being put into shape.

This morning, Ralph E. Garth, Jr., of Long View Farm, Hartford, shipped in three thoroughbreds to join nine charges of Phil Schwartz, Suffield sportsman, which have been quartered here for the past three months.

In the mail arrived a request from Mrs. F. B. Smith of Saratoga Springs, N. Y., for stall space for six horses. A. G. DeMarco of Hartford also asks room for six of his thoroughbreds.

Racing Secretary Ty Shea is sitting back with a contented, welfed appearance as the new applications pour in.

Stars Laud Star Edition

"IT'S QUITE A PAPER," chirps Billy Ames, Narragansett press agent, as he looks over the Night Pink. He suggests to those who ca nnot get down to 'Gansett that they follow the horses in the Pink every night.

Boston Evening American Photos

ADD ANOTHER NEW READER. Kit Klein, world's woman speed skating champion, now appearing at the R. K. O. Boston, is all enthused about the completeness of the Pink in the world of sports.

SEES BIG Winter Sports BOOM

KIT KLEIN REAL SKATING QUEEN

The glory and plaudits were welcome while they lasted. Now that they're over Kit Klein is going to settle down to that good old philosophic idea—that in order to eat, one must work.

To fans interested in skating, the name of Kit Klein is as familiar as is Dempsey to the fight fan. Kit is the young lady from Buffalo who proved that she was the world's fastest woman speed skater.

She beat what every American could offer and then went over to Germany last winter and took the international titles. It was really an Olympic title but unofficially so.

It seems that the U. S. and ten other nations wanted to list women's speed skating as a regular event, and the Germans were willing.

That is, it was O. K. with them until their champion upped and married. When this happened, Hitler's gang then chirped "Nein."

Good Looking

Kit, having a grand sense of humor though refuses to be the least bit worried over her failure to be known as an Olympic champion for, as she says:

"I started to skate back in 1932 when the winter sports Olympics were at Lake Placid. I became so enthused that it was my ambition to compete and win a world championship in 1936.

"It has happened and, whether it is official or not, I've accomplished what I set out to do and I am satisfied."

Now that the fun is over our speed queen, who by the way stands five feet six inches tall and is very pleasing to any eye, has taken to the stage to make her living.

Unlike other athletic celebrities who can do nothing in the entertainment field but who cash in on press clippings, Kitty really has a grand act.

Jumps Barrels

She is appearing at the RKO Boston this week in an ice skating act.

Kit is the headliner and she does a dance on skates, exhibition speed skating and does some mighty clever barrel jumping. The act is novel and has plenty of appeal.

Now that Kit is a pro and has chosen the stage she spends long hours planning new routines. She knows the public tires on sameness and is constantly striving for new effects.

For as she says:

"Winter sports are now on the rage. During the next two years, the fad will rise to unprecedented heights. Then it will drop off. The people want something new all the time."

Silver Skates

Just before she went on the stage, Kit had this parting word:

"One of my big regrets was that I missed the Boston Evening American Silver Skates Derby last winter. I was in this section of the country but was kept so busy I could not get away.

"Next year, though, I hope to be on hand. Rumor has it that Irving Jaffee is putting on plenty of weight. If I find this true, I will challenge him to a championship race—but he must enter fifteen pounds overweight.

"The Silver Skates Derby does much to help the sport. I would like to see the idea put over in every city as well as it was done here in Boston."

LaRocca Optioned

New York, April 23—The New York Yankees released Pitcher Jack LaRocca to Newark on option just before they entrained for Boston

Mat Results

Providence, R. I.—Don O'Mahony, 226, Ireland, scored repeat victory over Nick Lutze, 218, California, in straight falls.

Columbus, O.—The Great Mephisto, Meet Ara, Ft., light heavyweight, threw George Becker, New York, to 38:14.

Jump Rope Test

Twenty-two girls, representing every part of the city, will compete in the Boston Park Department's annual novice jump-rope championship tomorrow morning.

Faces Long Stay In Hospital

Skyrocket Toomey, 22-year-old motorcycle operator with the Lucky 13 Tetet troupe of Hell Drivers now at the Boston Garden will be confined to the City Hospital for the next two months.

Toomey fractured his spine the opening night of the show and is now in a plaster cast at the hospital. He will recover, but it is doubtful if he ever performs again for the Hell Drivers.

Crimson Squad Off for Cornell

Seeking its second league victory and a chance to climb back into the running for the Ivy league hunting, Harvard's undefeated baseball team today departed for Ithaca, where it will line up against Cornell in an Eastern Intercollegiate league encounter tomorrow.

Coach Fred Mahaney also sends a winning combination will send veteran Ed Ingalls to the box and send Sophomore Bob Gannett to left field in place of the weak-hitting Reino Grondahl.

Michell Acquitted In Doping Case

Miami, April 23 (U.S.)—Bert Michell, trainer for the Mrs. Emil Denise stable, has been exonerated of complicity in the drugging of the horse A. Abound at Tropical Park March 24.

The Florida racing commission, deciding that Michell had no knowledge of the administration of strychnine to the horse, limited his previous indefinite suspension to 60 days.

This punishment was meted out to him under the fine pointing responsibility of the condition of thoroughbred horses on the tracks.

What the Stars Did

By Associated Press

MONTE STRATTON, White Sox—Limited Browns to five hits in 6-1 win over Browns.

AL TODD and BUTCH BRANDT, Pirates—Former drove in two runs with triple; latter fanned eight batters in 4-2 victory over Cubs.

DUCKY MEDWICK and JOHNNY MIZE, Cards—Medwick doubled and singled, batting in three runs. Mize hit homer and single as Cards whipped Reds 14-11.

Boston Net Star In Dixie Final

White Sulphur Springs, W. Va., April 23—Virginia Rice Johnson of Boston and Pauline Dean of San Antonio, Texas meet here today in the final round of the women's Mason Dixon tennis tournament.

In the semifinals the Boston player defeated Florence Le Boutillier of New York 6—2, 6—2 while Miss Dean ousted Millicent Hirsch of New York in three sets.

Derby Candidates

By Associated Press

TEDDY GREEN (H. H. Cross)—Scored easy victory in mile and a sixteenth race at Keeneland. Timed in 1.47 2-5.

KERWAY (Tall Trees Stable) and MAIN MAN (J. R. Rogers)—Finished second and third, respectively, back of Teddy Green.

PARIS PRINCE (T. B. Young)—Also ran in event won by Teddy Green.

IT'S ON THE AIR! "Jobs by the Minute" are broadcast each morning over Radio Station WORL between 7:45-8:00 A. M., one hour later on Sundays.

CARRIGAN SAYS:

Sox Need ORGANIZATION *As Unit*

By BILL CARRIGAN

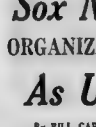
(Manager of Boston Red Sox, world champions in 1915 and 1916, who came down from Evanston for the box opener.)

What the Boston Red Sox need if they are to go places in the American League is a SET ball club. And by a set club I mean one that has a set outfield and a set infield. Knowing what to expect and what to do.

The trouble with the 1936 edition of the Sox was that every time the club started a winning streak the key man was knocked out. Manager Joe Cronin was never able to have a set ball club.

The Red Sox of last year had an idea they didn't have to work very hard in spring training. All they had to do was to open the regular season and go on to clinch the pennant. And though the new spapers were boosting the team to the sky the effect was a enervating.

This year as the Red Sox prepared for the league campaign the case was different. The team worked hard.



Bill Carrigan

Another thing that will help the Boston entry most is not having that pennant tied around its neck. One must admit that the pressure is off and that the team to man is our for vindication.

During last season the Red Sox had many bad breaks and were unable to get organized as a UNIT.

Infield Settled

From all indications it appears as if the infield is settled. Foxx at first, Doerr at second, either Cronin or McNair at short and Higgins at third. Only the outfield remains the problem now.

I would say have two outstanding pitchers in Lefty Grove and Wes Ferrell. Johnny Marcum is due to improve. This should be his best year. Jack Wilson and Fritz Ostermueller are apt to come through any time. It is only a just a matter of confidence with them.

Back in 1915 and 1916 when the Red Sox won world championships in successive years we had a defense team.

In those two years we had plenty of good pitching. The staff included Jean Dubuc, Dutch Leonard, Carl Mays, Babe Ruth, Ernie Shore and George Foster. I was doing the catching along with Cady and Thomas.

These moundsmen were the best collection ever gathered together. There never has been such an aggregation of pitchers on one team before or since. The whole team was set, with the pitching figuring more than 51 per cent toward the success that we attained.

During those days we had the infield of Dick Hoblitzel, Jack Barry, Everett Scott and Larry Gardner. We had Mike McNally and Harold Janvrin as substitutes. The outfield had Lewis, Hooper and Speaker with Hendricksen as utility. Hendricksen was never a great outfielder, but I will say he was one of the best pinch hitters in the game.

Cronin's Job

I think on the whole that Rick Ferrell of the preggnt Red Sox was better than our catching department. But the rest of the club was far superior to the present box.

Boston fans deserve a pennant.

The New York Yankees are not going to have the clutch they had last year. Cochrane and Greenberg back in shape, Detroit should be improved. The other clubs should be at least as good as last season. Cleveland, Chicago, Washington and the Red Sox should be right up there.

I think Tom Yawkey has done a wonderful job for Boston in giving the fans a superior ball team. He has tried in every way to build for the fans a first class baseball team. Yawkey has surrounded himself with very able men, including Eddie Collins, Billy Evans and others.

Boston fandom should realize that Joe Cronin has a difficult job. It is tough enough to hold down the shortstop berth without the managerial troubles. Either job is enough for one man.

It should be opportune at this time to say that I am confident the Sox will have a much better ball club this season. I hope so, anyway. I had three pleasant years with Bob Quinn back in 1927, '28 and '29.

One must admit that interest in baseball is growing daily. You will find that in the last few years baseball has come back by leaps and bounds. Not only in the big leagues but through the entire country.

The reason for college baseball going back lies in the fact that the colleges themselves are not doing anything to build it up. All they think of is football where the receipts are, and that is what is needed to run athletic programs with.

Who's Who in Joe Cronin's 1937 Red Sox Squad

Doerr Babe Of Fens Flock

MIKE HIGGINS

The new Red Sox third baseman was born in Red Oak, Texas . . . now lives in Dallas . . . he was born May 27, 1909 . . . he is 6 feet, 1 inch tall and weighs 185 pounds . . . bats right handed and is considered the best third baseman in the league today by many authorities.

Boston Evening American Photo

One of the amusing little pranks on exhibition by the Lucky Teter troupe of Hell Drivers at the Garden. A five-ton truck passes over the chest of Galen Gough, strong man with the auto tricksters. Gough was formerly a sparring partner of Max Schmeling.

Try This Chest Developer In Morning

MR. BOSTON

Continued from Page 19

and is the directing genius as the other members of his troupe do their own exhibitions of daring.

Leslie Kimris, the girl in the airship, and her partner add to the thrills of the show by their exhibition near the roof of the Garden. They laugh at death as they give their per- formance without any safety nets under them. If either of them should make a mis-step, it would mean instant death.

"Lucky's" unusual show will continue at the Garden tonight and tomorrow night. It is well worth seeing.

RANDOM SHOTS AT TARGET

BOBBY GOLDMAN was in from Narragansett Park with the information that the track would be very good for mudders if there was any racing today. The Walter O'Hara track gets going a week from tomorrow in what should be the opening day of New England's greatest racing season . . . Mort Manony, mutuel boss at Suffolk Downs and Rockingham Park, predicted when in Boston recently, there would be a 20 per cent pickup in mutuel handle at Our New England tracks this season.

Applicants for jobs in the Narragansett Park mutuel plant have been requested to report to Mort Shaw for interviews on April 26 and 27. Former employes will be given preference in filling positions . . . A meeting of the New England Turf Writers Association has been called for the Hotel Lenox for next Wednesday night. It will be fol- lowed by a dinner which will be tendered by the Narragansett Racing Association . . . There are already 500 horses on the grounds at Narragansett Park. Here's hoping that those nags upon whom I risk $2 will be able to run. L. E. Ogle's horses are due in from Maryland today . . . Dave Wilson, New England's ace handicapper, will also soon be stepping into town from the Maryland races. Dave has had a large season in the South in the matter of picking winners. Tops as usual.

Who's Who

Continued from Page 22

GEORGE WALBERG

"Swede" rates as the old man of the squad ... was born in Seattle, Wash- ington, July 27, 1896 ... stands 6 feet 1 inch tall and weighs 195 pounds ... now lives in Phila- delphia ... is a left handed hurler and also bats left handed ... showed very little last year until the last six weeks of the season, when he turned in several fine perform- ances.

Rube Walberg

Hikes on Sunday Through Fells

The success of the Metropolitan District Commission and Works Progress Administration 10 mile hikes has prompted Commissioner Eugene C. Hultman and Edward L. Farrell, M. D. C. recreation offi- cials, to announce a series of these long hikes for every Sunday morn- ing and afternoon during the month of May.

The next hike will be held Sun- day morning at 10:30 a. m., a 10- mile jaunt over the Skyline trail in the Middlesex Fells section of Medford. Hikers will meet at the M. D. C. police station on Fellsway West in Medford and will carry their own lunches to be cooked over open fireplaces near the Sheepfold, five miles from the starting point. The Stoneham car from Sullivan square passes the starting spot.

The five-mile nature walk also will be held Sunday in a different section of the Fells. The group will meet at 2:30 p. m. at the junc- tion of Fellsway in Medford and East Border road near the Jerry Jingle road. This spot can easily be reached by buses from Malden square.

Tomorrow afternoon at 2 o'clock at Houghton's pond in the Blue Hills the children of Greater Boston will participate in another day of outdoor play. The young stars will meet at the base of Great Blue Hill.

Crimson Ruggers Revamp Lineup

Defeated twice in early season games—once by Nasseau College and once by L. I. U.—Harvard's Rugby team planned to present a revamped lineup today for the Boston Rugby Club's invasion of Soldiers Field.

Clark-Casey Bout Vital To Both

When Steve (Crusher) Casey, gray Irishman, and George (Dar- rell) Clark, scientific and gabby Scotchman, collide in the feature wrestling match at Boston Garden next Friday night, it will be the most important assignment either has had in his wrestling career.

Today Casey is riding the inside track to the first crack at Yvon Robert's world championship.

A defeat in his match with the Scotchman would not eliminate Casey from consideration, but in- stead of finding himself the No. 1 contender he would be back in a merry scramble with any number of other front rank matmen.

The match is even more im- portant for Clark.

The Scotchman, until he met Casey a few months ago, was un- heard of and, like Casey, was being considered for a first crack at Robert. Then he was beaten on a questionable decision by the Irish- man.

Another defeat would positively eliminate Clark from the field fighting for a title shot.

Boxing Results

Tampa, Fla.—Carl Goggins, 136, Tampa, outpointed Charley Alvarez, 132, Tampa, 10 rounds.

Portland Me.—Babe Beatty, 188, Sher- brooke P. Q., knocked out Bill Ferguson, 168, South Portland, third round. Frankie Campbell, 147, Boston, scored technical knockout over Sammy Hall, 147, Portland, when ninth round referee stopped it in favor of Campbell. Kenny Nelson, 147, Lisbon Falls, outpointed Freddie Lamare, Fall River, 145, outpointed Pete Tarpley, 148, Miami, 10 rounds.

Dallas—Al Tribbosas, 160½, San Diego, Cal., outpointed Billy Reed, 161, Atlanta, Ga., 10).

Missoula, Mont.—Richie Fontaine, 158, Missoula, outpointed Frankie Castillo, 131½, Los Angeles, Cal.

BEES Aid Giants OPEN

McFAYDEN ON HILL TODAY

Continued from Page 19

they had no strength left. That was on Patriots' Day, when they marched on to drop a 2-1 morning decision in 11 innings and a 1-0 af- ternoon verdict to the Phillies.

They trust it will be different today, but if it is they'll have to do something no National League club has accomplished since last July.

King Carl Hubbell, southpaw su- preme, has been named to make his season's bow on the Giants hill. And the last time the King lost to a league rival was on July 1, 1936, when the Cubs managed to beat him.

DEPENDS ON WEATHER

"Hub" then reeled off 16 straight victories to give the Harlem horde the pennant. He made it 17 by winning the opening game of the World Series, but the Yankees proved he was human by taking him over the hurdles in the fourth game of the classic.

Manager Bill McKechnie was undecided this morning whom he would start against the peerless portsider. It depends on the weather, he says.

A warm day will see "Dapper Dan" MacFayden, victim of last Monday's 1 to 0 heartbreaker, peer- ing down from the mound through his glasses at the Terrible Terrys.

Cold winds will find "Terbacker Jack" Lanning trying to hoodwink the home boys.

A Hubbell-MacFayden duel should be something to write home about. Last season, Carl had the lowest earned run aver- age in the majors. In second place was Somerville Dan.

The two were the only regular hurlers in the senior circuit to al- low opponents less than three earned runs per game.

McGOWAN OUT AGAIN

Daniel showed he hadn't gone back by holding the Phillies to four singles and fanning eight of them, while being beaten by an unearned run last Monday. "Hub" was his old invincible self in Grapefruit league contests.

This does not mean that the Bees haven't a chance if Lanning pitches. On the contrary, "Ter- backer Jack" has turned in the most brilliant effort of any of our hurlers this spring, a three-hit af- fair against the Dodgers down South, and what he's done once, he might do again.

The Bees, swinging into league action for the first time since opening day, will be strengthened by the return of Gene Moore to his right field post, but Frank Mc- Gowan's ankles are bothering him again, so Debs Garms and Eddie Mayo will remain in left field and at third base, respectively.

JOE DiMAGGIO'S TOWN

With Wally Berger absent Moore will bat in the fourth slot back of Garms, Mayo and DiMaggio. Cuc- cinello at second, Fletcher at first, Lopez catching, Warstler at short and the pitcher will complete the Boston batting order.

Little Old New York City is manifesting a lot of interest in Vince DiMaggio.

Brother Joe DiMaggio owns this town, and his American League admirers are storming the Polo Grounds to kill two birds with the same stone by rooting against the Giants and rooting for brother Vince.

It's reported that Joe, convales- cing from a tonsil operation, may be ...

The Giants, making their first of- ... in Vince's rooting section ... ficial appearance in their own back yard since they dropped the sixth and final game of the world series last fall, will present two new faces.

At first base in place of Manager Bill Terry will be Johnny Mc- Carthy, erstwhile Dodger, while Lou Chiozza, formerly of the Phils will be at third base succeeding Travis Jackson who, after 14 years at the Polo Grounds, has moved across the river to manage the Giants' farm at Jersey City.

Incidentally, Horace Stoneham, owner of both clubs, has passed up the Giants' inaugural to attend the season's opener of his Skesters this p. m.

If Mel Ott, Hank Leiber, Joe Moore, Dick Bartell, Burgess Whitehead, Gus Mancuso and Hub- bell find gems along with him it would be O. K. with our Bees.

But all these Giants stars will be on the home lot, so all our swarm can do is try to make them wish they had taken the tube over to Jersey with the "prexy."

Wah-Hoo!

Rolfe-Olson 'Day' Sunday

It will be Dartmouth Day at Fenway Park Sunday when the Red Sox clash with the world champions New York Yankees.

Led by Coach Jeff Tesreau, some seventy five students and townspeople of the pic- turesque college town, Han- over, N. H., are coming down to the Hawkey ballwick to pay homage to Red Rolfe and Ted Olsen, former Dartmouth players.

Rolfe is with the Yankees while Olson is with the Red Sox.

Traveling bags will be pre- sented to the players.

HOME TOWN BOY

Fletcher Made Buffalo a Pennant Winner

By JOE CASHMAN

With Elbie Fletcher added to a cast of veterans that had gone nowhere the year before, the Buffalo Bisons were the International League cham- pions of 1936.

The Pride of Milton's 345 pounds phenomenal first-sacking and con- sagious hustle turned an otherwise mediocre outfit into a pennant winner.

Big league scouts reported that he was the best first baseman in the minors. If he hadn't been Bees' property they'd have been making record bids for him.

As it was, many an ivory hunter stuck close to the Bisons in the hope that the Boston management might give up its claim to Elbie. They based this hope on the fact that "Buck" Jordan was pecking fair country ball for the Bees.

QUINN'S TRIP

As slim as was the chance at any time, it no longer existed after Bob Quinn made a special mid- summer trip to long Fletcher over- ages for ten days, the press returned to Boston looking years younger as a result of what he had seen.

"I never saw a player improve more in a few months than Fletcher has," Bob asserted. "In the spring I had some doubts whether he'd ever be a big leaguer. Now I'm convinced he can't miss.

"He had several batting weak- nesses at bi. Pete. Smart pitch- ing could stop him. He's over- come them all. All pitching looks alike to him now. And his field- ing is as remarkable as ever!

"The most important and en- couraging change in the young man, however, is that he's finally grown up.

"He was still a boy with a child- ish attitude toward life in gen- eral and baseball in particular until he went to Buffalo. Now he has all the poise and polish of a big league veteran.

"Manager Ray Schalk deserves the credit for that. He has Elbie rooming with Frank McGowan, who has been around the game for 15 years and is an admirable instructor of youth.

"I can't say who'll be our first-sacker next season. That's up to Bill McKechnie. But if Fletcher can play the same kind of ball for us that he's now playing for Buffalo, I predict he can't be kept off our club."

Ray Schalk, in refusing to burn up the Bees' prediction he'd be the game's leading manager for the ... next 15 years ...

Elbie stroked the spectators in the stands with his fielding in last Monday's opener, 2-1 game. He wasn't passing even his head. Tex that was every day. He's in a class by himself defensively.

He hasn't got but with the stick as yet, but there's no cause for alarm.

ELBIE CONFIDENT

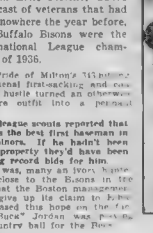
If we remember correctly, he made only a hit or two in his first 12 games at Buffalo last spring. In fact, he stood so helpless that such a manager as Jimmie Dykes had him back and sent him to another ...

"My impatience almost cost me the pennant," remarked the Buffalo boss in recalling the in- cident.

"Bill McKechnie will have better sense. He'll forget all about Elbie's hitting the first couple of weeks, and then the lad will prove his best hitter.

McKechnie makes no such claim, but he's confident Elbie will hit more than enough to hold his job. Elbie feels the same way about it.

Most confident of all, though, are those New England fans who, through the Boston Evening Ameri- can Boston Sunday Advertiser con- test, picked their baseball judgment as second to that of the smartest scouts by naming Elbert Preston Fletcher the best young ball player in its a neck of the woods.



RAY SCHALK

HOWARD *Hitting with Fitting* Exceeds Any League's!

■ Whether it be baseball or business...there is one dominant factor that counts and that is team work. Everyone pulling together...with one thought in mind...to lead the league. It is this sort of pertected team work in our own tailor plants, where only the highest skilled union tailors are employed...that makes Howard Clothes so outstanding in value.

Howard Clothes have won acclaim from men in every game... for the clothes are designed to give absolute satisfaction in the fullest measure. May we suggest that you visit Howard. Let the styles speak for themselves. The definite completeness of everything...Smart style.. all wool fabrics...distinctive patterns and the unusual variety of sizes to fit men of every proportion up to 52 stout, will convince you beyond all doubt that Howard are the clothes you want...the clothes you like to wear. You will see how easy it is for a man to plan a complete Howard wardrobe and you will agree that Howard Clothes are remarkable values that hit the style mark

Howard Suits . . . Topcoats . . Tuxedos and Full Dress . . .

Radioland Reflections

By N. F. T.

WITTICISMS with backfire in the Winchell-Bernie manner have striking appeal as promised (WEEI) on the air tonight during the "Hollywood Hotel" hour highlight between 9 and 10 o clock.

Another galaxy of gifted personalities from the picture "Wake Up and Live" will ride on the dais at the same time. Anyone otherwise starting to doze about then may want to put on and listen instead. Louella Parsons will preside. The "O Mar..." and "... for ... Alice ... Jan ... Pa ... "N F T" Fred M... Wa... and ... Ba... Page ... Fa... orchestra.

THIS AND THAT AIR

Rudy Vallee denies publicity stunt in moving time which brought, or at least helped him, as well as Babe Ruth, Dizzy Dean, Jack Dempsey and Joe Louis about ten times as much money as ever was paid to equally great performers of another day, namely, John L. Sullivan, Jim Jeffries, Ty Cobb, Tris Speaker or Jack Donahue.

Publicity takes shape as occasioned by the eagerness of an enthusiastic generation to know more about celebrities—it's a trend of the era in which we live.

Rudy should have no kick coming, particularly since it was personal and not professional conduct which caused him being hailed into court.

Forget it, Rudy, you're a good "mike" showman, so carry on! Just remember that so long as publicity and news exist, people will know how to find out what time you are on the air to entertain them.

• • •

Ethel Waters, one of the first entertainers to rise to fame from the Cotton Club before it moved from Harlem to Broadway, will be Louis Armstrong's guest star on the "Harlem" broadcast (WBZ) this evening at 9 o clock.

• • •

Deems Taylor adapts to his musical whimsy tonight (WHZ) during his "Coronet-on-the-Air" hour, two such dissimilar compositions as Debussy's "Gollywog's Cakewalk" and Beethoven's last sonata, Opus One Hundred and Eleven.

Just to show that he believes no amount of variety bewilders modern radio audiences, Mr. Taylor plans to present a weird tale of psychic powers, a more than revealing lecture on the shoe and why some people don't like it; meaning from 9 30 to 10 o clock.

INDIAN IMPRESSION

Tom-toms and Indian bells will sound (WNAC) this evening when John Held, Jr. broadcasts his "Varsity Show" from the campus of the University of Oklahoma. He comes through from 10 30 to 11 00 p. m. Five full-blooded Indians, students at the University, will present a group of native tribal songs, with authentic accompaniment, as their part of the program.

• • •

Locally the schedules reveal the return of Alton Hall Backington for a new series of his "Yankee Yarns" in which he treats unusual stories that have traditional and current New England background. Twice weekly airings by "Hackie" have been arranged for Wednesday and Friday nights henceforth at the same time.

• • •

One more memo from Charlie Cowan, the genial Chamber of Commerce secretary, will interest tomorrow morning loudspeaker patrons.

Unveiling exercises at the Paul Revere Statue on the Charles River Esplanade will take place (WNAC) to be heard between 11 00 and 11 30 a. m.

Governor Hurley has a piece to speak, and Cyrus Dallin, now past 70 years of age, the statue designer, also has remarks to deliver befitting the ceremonies.

• • •

It's conversational quality that is destined to popularize the radio voice of tomorrow — not forcefulness!

Best Bets Tonight

5:45 p. m.—WMEX—Uncle Newt reading the comic pages of the Boston Evening American.

6:30 p. m.—WNAC—Alton Hall Blackington, beginning a new series of "Yankee Yarns" about interesting New England people and places.

8:00 p. m.—WNAC—Concert Hour with Lucille Manners, soprano; Rosario Bourdon's Orchestra; the Revelers; and Ross Graham, baritone.

9:00 p. m.—WEEI—Hollywood Hotel with Louella Parsons, introducing Walter Winchell, Ben Bernie, Jack Haley, and Alice Faye in "Wake Up and Live" with Fred MacMurray, Shirley Ross, Igor Gorin, and Raymond Paige's Orchestra.

9:00 p. m.—WBZ—"Harlem" Program with Louis Armstrong's Orchestra; Eddie Green and Gee Gee James, comedy team; Derby Wilson, tap dancer; and Les and Scotty, piano team.

10:00 p. m.—WMEX—Frank Ward and his Rhythm of the Dawn.

10:00 p. m.—WAAB—Harvard and Yale Universities debating the subject, "Resolved—That This House Approves the President's Plan for the Judiciary."

10:30 p. m.—WNAC—Variety Show broadcast from the University of Oklahoma with John Held, Jr., director.

ADMINISTRATION WORRY

Tax on Gold Imports
IS LATEST IDEA
To Halt Huge Inflow

By LEWIS HANEY
Professor of Economics, New York University

New York, April 23—The stream of unwanted gold continues to pour into the United States and that means into the United States treasury. (As individuals we, the citizens of the United States, cannot have any.)

This situation continues to worry the administration. Before they began to "sterilize" the gold it resulted in swelling excess reserves and an enormous inflation potential. Now, under the sterilization policy, it results in steady additions to the government debt incurred for the purpose of buying and carrying the gold in an inactive account.

Naturally, therefore, rumors of steps to be taken to stop the gold inflow keep coming in. The latest ones seem to lean to the idea that it may be well to impose some sort of a tax or penalty charge upon gold imports.

But this idea of a direct barrier against imports is not so simple. We should at once note that such a procedure has no effect whatever upon the cause of the gold imports. It would leave unchanged the reasons for exchanging gold for our paper dollars. Probably, therefore, it would be evaded.

In order to make such a protective tariff against gold really effective, we would also have to prohibit exports of our commodities and securities. Otherwise, people with gold would buy dollars in foreign markets and then make their purchases here with dollars.

• • •

Our experience with sterilization should be a warning. By preventing gold imports from becoming effective in the normal way of broadening the credit base we prevent the natural remedies for such imports. If they were allowed to take effect they would lead to rising prices for goods and a falling value for gold in this country. That would shut off this gold imports automatically.

The most serious point, however, is the fact that the proposed restriction of gold imports would amount to a sort of gold embargo. It would go far toward snapping the already tenuous thread that connects the paper dollar with the gold dollar.

It would destroy the last pretense that we are on a gold standard.

And with that I think that there would ensue great confusion in international trade and foreign exchange. The tripartite agreement would be fatally weakened. A drop in the franc and the pound sterling might be precipitated.

• • •

While some steps toward a final settlement of the international currency might thus be hastened, a ban on gold imports would be seriously disturbing for a time.

All this discussion fails to go to the root of the matter, which is the undervaluation of the paper dollar in terms of gold. This is what causes gold to flow in. It provides a highly profitable arbitrage operation. You sell gold (if you have any), buy dollars and then buy goods.

The only remedy is as follows: We must either (1) increase the amount of gold in the gold dollar, which means cutting the paper "price" of gold; or (2) allow the paper dollar to depreciate in domestic trade, which means rising prices for goods. It must be one or the other.

Make sure, be sure that the present administration does not want deflation, we may be sure that it will not take the final remedy.

STAPLE Prices LOWER
STEEL SCRAP DECLINE NOTED

By ERIC FRIEDHEIM
International News Service Staff Correspondent

Washington, April 23 (INS) — Wholesale commodity prices continued downward this week with the Commerce Department noting the first decline in steel scrap quotations since last November.

Prices for steel scrap soared to boom levels with the heavy demand by foreign armament programs. The week's fractional slump in the quotation was caused by a temporary easing of foreign orders.

President Roosevelt's recent criticism of mounting prices for durable goods was reflected partly in a slight drop in the price index for all metals.

The downward price movement started early this month. During the week, moderate declines were recorded in foods and farm products, although meats and butter were somewhat higher

Higher quotations for livestock were more than offset by sharp breaks in cotton, grain, milk and egg prices

Industrial production so far this month has been maintained close to the high level of March, with automobile output moving upward as a result of settlement of labor disputes. Steel mill operations continued at close to peak volume, while lumber production expanded slowly

Freight car loadings showed losses for month, largely because of a reduction in coal loadings. Virtually all other classes of freight showed minor recessions

In the securities markets, both corporate and government issues recovered a small part of the losses sustained during the past several months

The Federal Reserve member bank condition statement for the week ending Wednesday showed a marked cessation in "dumping" of treasury bonds, with holdings of these securities by the banks declining only $1,000,000

In its first analysis of March income tax returns, the Internal Revenue Bureau reported that corporations paid $277,000,000 of the $689,000,000 income levies received by the treasury during the month. This represented an increase of 61 per cent over March 1936. Total corporation tax receipts for the current fiscal year amount to $721,000,000, which compares with $530,000,000 for the corresponding period a year ago.

Rail Stock Rise Halted

The index of 419 common stock prices, as compiled by Standard Statistics, lost ground in the third and fourth weeks of March, this chart shows. Prior to the drop, the index was at the highest weekly level since early in the depression period.

Railroad stocks, 32 of which are used in the general index, also sagged to average price in the fourth week of March.

Roughly speaking, the recovery in rail stock prices since the 1932 low levels has not been as strong as the general market recovery. Thus, a widening gap is noticeable between the two groups in recent years.

White, Weld Co. Files Brief With SEC

Pointing out that the report of Trial Examiner Armond to the Securities and Exchange Commission specifically exonerated White, Weld & Co. from any charges of bad faith, business dishonesty or moral culpability in transactions in A. O. Smith stock in 1935, White, Weld & Co., in briefs submitted today to the commission, took issue with the examiner's conclusion that newspaper articles a violation of the Securities Exchange Act had occurred.

The White, Weld briefs contend that the examiner, in effect, determined that any substantial purchases of stock on an exchange by a firm holding an option of the kind here involved, constitutes a violation of the statute regardless of the investment nature of such purchases, and urge that the commission overrule this interpretation of the statute

The White, Weld briefs contend that in the light of findings by Trial Examiner Armond, any conclusion that there had been even a technical violation would be clearly erroneous and based upon a mistaken assumption as to the purpose of this option and an incorrect construction of the statute.

Reviewing the salient facts in the case the White Weld briefs state that the firm in March, 1935, received from two sisters of L. R. Smith, president of the A. O. Smith Corporation, an option on 10,000 shares of stock at $55 per share under the direction to place this stock privately in the hands of a limited number of investment buyers, and with the understanding that no part of the option stock should be acquired by the firm for its own account

The option contained the usual agreement on the part of the Smith family that none of their other holdings of Smith stock would be sold during the option period. The briefs state that the option stock was placed privately with a small group of investment buyers composed of substantial institutions and individuals of the type contemplated at the time the option was accepted.

The White Weld briefs call attention to the fact that at the time the purchases complained of were made the firm, as well as others having no connection with the firm, had knowledge of the development by the A. O. Smith Corporation of a new patented process for the manufacture of oil casing pipe and of the important negotiations then being carried on with United States Steel Corporation and other pipe manufacturers covering the grant of royalty licenses.

The briefs point out that it was expected that a large increase in earnings for the Smith Company would be reflected in the market value of its stock would result from this new development. Because of the favorable outlook for the company, the firm and certain of its customers determined that the stock would be an advantageous purchase. As already stated, no part of the option stock could be acquired by the firm for its own account and, accordingly from time to time, both during the option period and subsequently, the firm accumulated shares on the New York Curb Exchange

Out of the total of 3600 shares held by the firm for its own account when these proceedings were instituted, 2726 shares, costing about $146,000, were acquired after the option stock had been completely distributed

The briefs state that the firm did not in any sense engage in a public distribution or selling campaign in the stock. In fact, the firm, together with the partners and their families, have increased their holdings to a total of 9874 shares (including the above mentioned 3600 shares) and this amount of stock, which represents an investment costing in excess of $500,000, is still held intact.

Carloadings Up in Past Week

Washington, April 23 (AP)—The Association of American Railroads reported today 751,228 cars of revenue freight were loaded during the week ending last Saturday.

This was an increase of 35,284 cars, or 4.9 per cent compared with the preceding week, an increase of 99,000, or 17.0 per cent, compared with a year ago, and an increase of 140,187, or 22.9 per cent, compared with two years ago.

Aluminum Shares In Sharp Drop

New York, April 23 (AP)—Shares of Aluminum Company of America sold off by as much as $7 in the New York Curb Exchange today following announcement of a suit against the company charging violation of the anti-trust laws.

The decline was viewed by brokers as moderate in view of the relative high cost of the stock and its volatility in the market. It closed yesterday at $157. The high price for the year was $177.50 and the low $145.

Derby Oil

Derby Oil & Refining Corp. announced a dividend of 32 on the $4 preferred payable July 1 to stock of record June 15, leaving arrears unchanged at $47 a share

REPLY To Douglas AUGUST
I. B. A. HEAD SEEN IN ORDER

By LESLIE GOULD
International News Service Financial Writer

New York, April 23—When the financial district snaps back at a member of the Securities and Exchange Commission that is news as measured by that well known "man biting the dog" yardstick of newspaper copy readers.

And that is what happened at the Bond Club of New York. Only Mr. Edward B. Hall's speech could hardly be called "biting" Prof. William O. Douglas of the SEC.

It was just a moderate display of denial work

Dr. Douglas addressed the same group a few weeks back and told the assembled investment bankers and their staffs they were not unfriendly to the pocket-picking fraternity and he thereupon proposed reforms which would revolutionize, if not wipe out entirely, investment banking as it is known and practiced today.

HALL IS PICKED

So the bankers got their dander up and decided that for once the Wall Street worm would turn, and after collecting buddies in various parts of the country worked up a reply to Professor Douglas and picked M. K. Hall, who is president of the Investment Bankers' Association and therefore head man of the industry, to champion the cause.

Mr. Hall's speech was a dignified, scholarly presentation of the bankers' side, even though it did lean a little on the sleep-producing side—particularly after a heavy lunch. Many of the more peppery suggestions for the speech went into the waste basket—the calmer heads having the final say.

In fact, Mr. Hall's talk and his quiet manner of delivery were more those of a college professor than those of the SEC commissioner, who is a full fledged one. The commissioner assumed more the role of a political stump speaker, and it naturally made headlines.

AMPLIFIES REMARKS

The bankers' collective reply—for that is what Mr. Hall's speech was—really is anti-climax. For it is learned that Professor Douglas has amplified his remarks. This amplification amounts in a large measure to a retraction of the main part of his suggested reforms. So maybe the milder reply by the bankers was in order.

On the matter of competitive bidding for new securities issues—one of Dr. Douglas' suggestions—Mr. Hall presented some convincing arguments, chief of which was his pointing out that in the depression the cities of New York and Chicago waived competitive bidding and appealed to bankers to underwrite their bonds on patriotic grounds.

The Wall Street man pointed out that continuing relations between bankers and business firms work to the latter's advantage particularly in hard times, for the banker feels he has a responsibility

New England Power

Primary production in kilowat hours of New England Power Associates for the week ended April 17, 1937, shows a gain of 12.9 per cent over the corresponding week of 1936.

BUSINESS FACTS

Spectacular Gains
FOR PAST FOUR YEARS
In Labor's Income

By MERRYLE STANLEY RUKEYSER
Copyright, 1937, by Universal Service

New York, April 23—It is a misreading of the essential business facts to assume that the series of strikes in the United States means that working condition are becoming more intolerable.

On the contrary, there have been spectacular gains in the last four years in hourly rates of pay and in total wage disbursements.

The strikes are a symptom of improving economic conditions and prospects.

Canny union strategists do not strike out in the red ink years of depression when owners, incurring losses, would prefer to close down rather than meet increasing demands from workers.

They hit out in times of improving profits, when management is eager to maintain production in order to fill expanding orders.

It should not be necessary to point out these elementary facts, but statements by politicians, labor leaders and others indicate the need of such clarification.

Even the brilliant Miss Dorothy Thompson, who always writes interestingly and entertainingly, falls into pitfalls of phrase-making, rather than fact finding, when she discusses the split of business proceeds among capital and labor. She gives the impression that capital takes more out of the gross receipts of industry than labor. Writing in the Herald Tribune, she recently remarked:

"Not all the opposition to trade union practices comes from economic royalists jealously defending the larger portion of the pie." She also says: "Not only must labor get a larger slice of the existing pie; we need bigger and better pies altogether." Earlier in the same article, she declares: "Few enlightened or reasonable people will question Mr. Lewis' primary premise: That labor is entitled to a larger slice of the pie of production. Not only are labor entitled to it, but it is in the interests of the general welfare that labor should have it . . ."

Wouldn't those remarks give the impression that labor is a minority partner in the proceeds of industry?

Leaving aside word mongering, what does national bookkeeping show concerning the division of the proceeds among capital and labor?

As a result of a three years' investigation, the Brookings Institution at Washington, in its volume entitled, America's Capacity to Consume, estimates that those in gainful occupations—the workers and the self-employed—get 80 per cent of the national income and capital only 15 per cent. Of course, of the distribution to capital in the form of dividends and interest a large share goes to people of moderate means

Dealing specifically with income from production, the Brookings volume states

"In view of the observed shift of individuals from the enterprise neurial to the employee group it should be of interest to estimate the income of the two groups and compare the total with the income obtained by investors and property holders from current production. The appendix table . . . affords such a comparison between unincorporated income and investment income. Between 1910 and 1929, the occupational income is shown to have increased from 22.4 billion dollars to 67.5 billion, a rise of 200 per cent. In the same period the investment and property income drawn from productive enterprises (exclusive of corporate savings) rose from 4.1 billion to 12.3 billion, also 200 per cent. In both 1929 and 1979 the occupational income constituted about 85 per cent of the total. During the 21-year period from 1910 to 1929 the figures ranged from about 84 to 87 per cent.

"The remarkable stability of these percentages is of special interest since they represent largely labor income as against property income."

During the red ink years of depression the record is even more striking. Many corporation in those years not only paid no profits for the use of capital, but also dipped into corporate savings in order to keep going. Only when conditions labor often received considerably more than 15 per cent of the gross available for division between workers and owners.

As the meaning of each bookkeeping is grasped it becomes clear that what the country needs is larger productivity rather than a more redistribution of existing wealth and income

Admitted to List

New York Stock Exchange has admitted to the list National Gypsum Company common stock of $1 par value

ADVERTISING
Newspapers Receive Huge Slice

Reporting that 44 cents from each advertising dollar spent in 1936 went to newspapers, the bureau of advertising of the American Newspaper Publishers' Association observed today that greater promotion would return greater benefits to the newspaper business.

"Newspapers have the greatest medium and the largest present day volume of advertising," said the report, signed by Chairman Edwin S. Friendly. "This volume will grow if we are willing to promote it on a scale equal to the efforts of competing mediums."

Newspapers generally, he said, are more nearly conscious of this opportunity than ever before

Newspapers received approximately $188,000,000 in revenue from national advertisers in 1936, Friendly said, as compared to $167,000,000 in 1935, a gain of 12.5 per cent.

Dividing the average "advertising" dollar he said newspapers received 44 cents, magazines 32.6 cents, car cards 5-10 of one cent, chain broadcasts 16 cents and outdoor advertising mediums 7.9 cents

The Bureau reported as the A. N. P. A. bureau admission of 15 new newspapers to membership during 1936, and the resignation of 10.

BOSTON FUND, INC.
Mass. Distributors, Inc., Appointed

Massachusetts Distributors, Inc., has been appointed general distributors for shares of Boston Fund, Inc., an investment trust of the "Boston type" originally established as Wamad Associates in 1932. They will continue to serve as general distributors for shares of Massachusetts Investors Trust.

Boston Fund, Inc., is a corporation of Investment Trusts. Edward W. Marshall, vice-president, one of the original trustees of Wamad Associates and executive secretary of an important closed-end investment trust; O. Kelley Anderson, treasurer, also an original trustee of Wamad Associates, president and director of D. Dyke Co. Inc. has been retained under contract, with the Management Corporation to serve as consulting economists

Directors were elected as follows: Thomas Adams, banker, trustees and director of prominent business concerns; and George Peabody Gardner, Jr., chairman of the board of Atlantic Coast Fisheries and Wilson-Jones Co. and a director of other companies.

Statistical, research and management services will be provided under contract by Boston Management & Research Corp. The officers and directors of the Management Corporation are Messrs. Fraser, Marshall and Anderson. Lloyd D. Dyke Co. Inc. has been retained under contract, with the Management Corporation to serve as consulting economists

BUSINESS GAINS

Bay State TRADE BEST Since '29

By HUGH E. BRADSHAW

Massachusetts business, as pictured by the State Planning Board's index, swung sharply upward during March reaching the highest point since 1929.

All five components of the index played a part in the increase which resulted in a gain in industrial activity of 27 per cent over March, 1936.

Individual improvement for March this year over the same month last year amounted to 16 per cent for factory employment, 26 per cent in the floor area of new construction started, 29 per cent in shoe production, 36 per cent in cotton textile activity and 25 per cent in electric power consumption. As between the months of February and March this year the same components exceeded by more than half the seasonal increase which usually takes place between the two months.

* * *

The spectacular gain in new building activity revealed by the Planning Board's figures is worthy of detailed comment. The floor area increase of 26 per cent is a local figure which naturally observes the actual recovery in home building. Actually the $16 new one and two-story homes started last month represented an increase of 253 per cent over the same month in 1936. The trend is decidedly heartening to observers of Bay State recovery progress, for they have realized for months that until construction picked up materially real prosperity would be difficult to achieve. While this is true in next every section of the country, it is particularly important here because practically all other lines are at, or close, to peak levels.

* * *

When the figures for April are compiled it will be interesting to see if the rise in building costs has interrupted, or appreciably slowed, its trend which developed in Rock Current reports to be found in the financial press tend to support such a view, which, if proven true, will suggest to many observers a temporary halting of the rate gains in the latter part of the year.

* * *

If the technical stock market position is as strong as many analysts think it is, the upward thrust which began yesterday will be practically completed by the time the edition carrying this column is on the street. If so then it is logical to look to the rails to lead for the next upside movement which should result in the group's testing its bull market high while industrials consolidate or even go the highs established in the minor rally of late March and early April. On this selective performance will hinge the fate of the uptrend that is presumed to be the inaugural of a new intermediate leg of the bull market.

* * *

As we clearly indicated here yesterday foreign investors are expected to play a prominent part in our markets and it is suggested that readers make it a point to follow the movement of international funds during the next few weeks. Such interested close watch be kept on bond trends.

* * *

Notebook: Two medium-priced investment opportunities to our mind are National Lead and United Drywood . . . Both are doing well from an economic standpoint and are expected to do better . . . The latter improves on a long forgotten stock that cannot be passed by much longer . . . The merchandise issues have been working into attractive positions on the charts . . . But the remarks of a leading New York merchant anent consumer resistance to higher prices are disconcerting and we want to see how the group takes it . . . So for the present we will hold in abeyance our inclination to buy the group.

* * *

Consumer buying resistance bears retailers are in danger of being squeezed between rising costs and selling prices. What it means, of course, restriction of profits unless volume picks up sharply. And it applies to food and chain stores as well as merchants of consumers goods.

Maine Central

At the annual meeting of shareholders of the Maine Central Railroad, President French stated that the outlook for 1937 is more hopeful than at any time in the last six years.

Directors were re-elected.

Bank Statement

Boston Balance $19,000,000
Boston Clearance $60,000,000

Massachusetts Bonding AND Insurance Company

The Board of Directors have declared a quarterly dividend of 87½ cents a share on the capital stock of the Company, payable May 1, 1937, to stockholders of record at the close of business April 21, 1937.

DONALD FALVEY, Treasurer.
April 21, 1937.

MARKET Is Quiet AFFAIR

NARROW CHANGES RULE

New York, April 23—Dealings were exceptionally quiet throughout and prices were well jumbled near the fourth hour in today's stock market.

A dip in U. S. Government securities was far from helpful, as were generally lower tendencies displayed by corporate bonds and commodities.

Several rails, rubbers and specialties finished their best to get into the up the upward track. They found the struggle difficult at times.

Pointing higher most of the day, some up a point or more at the finish were Atlantic Coast Line, Southern Pacific, Southern Railway, Lackawanna, Atlantic Coast Line, Goodyear, U. S. Rubber, Goodrich, Montgomery Ward, J. C. Penney, International Harvester, Douglas Aircraft, Schenley, National Distillers, Standard Oil of N. J., Houston Oil, Tidewater Oil, Du Pont, American Can, North American, Briggs Mfg., Motor Products, Howe Sound, Container Corp., Fajardo Sugar, A. O. Smith, Otis Elevator and Cluett Peabody.

Backward were U. S. Steel, Bethlehem, Republic, Boeing, Chrysler, Hudson Motors, United Aircraft, Pennsylvania, Texas Corp., Socony Vacuum, Anaconda, Kennecott and Standard Brands.

Current Items

Another argument for analysts who have been forecasting a moderate setback in business over the next few months was found in the weekend survey of Dun & Bradstreet which stressed the uneven trends appearing recently in various lines.

Retail distribution this week, it was said, failed to reach its seasonal degree of acceleration, although advantage over the previous year was widened. Buying in wholesale markets was consequently disturbed, it was added, with orders under the expected volume. Unfavorable weather was thought to have been partly the cause.

While a few leading centers failed to equal the gain of the preceding week, distribution for the country as a whole was placed at from 8 to 10 per cent above the corresponding week last year.

Sterling and the French franc were slightly lower in terms of the dollar at the beginning of foreign exchange transactions, the former at 94.93⅜ and the latter at 4.63⅜ cents.

Excavators Find Old Arab Temple

New Haven, Ct., April 23 (INS)—Uncovering at Khirbet El-Tannd, in the transjordan area, of a pagan temple of the time of Christ was announced today by Professor Miller Burrows of the Yale Divinity School, president of the American Schools of Oriental Research.

Excavation of the temple affords new and valuable material for the study of the Nabataeans, a little-known Arab people, who in Roman times held a strong kingdom in northeast Arabia and Transjordan.

Bar Nude Statues In Colorado School

Boulder, Colo., April 23 (AP)—Two nude stone statues must be removed from the new half-million dollar high school building, the board decided last night by a 5 to 4 vote after a heated argument.

Harvard Honors

Rudolph E. Uhlman, of Cambridge, today was awarded a research fellowship for the 1937-38 academic year by Harvard Law School. Fifteen others were honored.

The highest award, the Ezra Ripley Thayer teaching fellowship, awarded annually to "a recent graduate of high standing from the Harvard Law School who gives promise of becoming a legal scholar," was won by William B. Lockhardt, a Des Moines, Iowa attorney who graduated from Harvard Law School in 1930.

JUNIOR BIRDMEN OF AMERICA

LAWRENCE SHAW NATIONAL DIRECTOR

DEVOTED TO THE INTEREST OF THE YOUTH OF THE AMERICAS IN AVIATION

By L. F. ROSS
Boston Wing Commander

Immediate and widespread response, as was to be expected in view of the number and character of the prizes, has greeted the announcement of the third annual Novice Model Plane Flying Contest for Junior Birdmen, to be held on Saturday, May 1, at Franklin Field.

Throughout Greater Boston beginners have already begun construction of the all-balsa glider and the hand-launched stick models which will make up the two events.

Every model builder who has never won a fifth to first place in an official Junior Birdmen competition, is eligible to compete for the $60 in prizes.

An official contest is one held under the direction of wing headquarters such as the annual indoor and outdoor wing tournament previous novice contests and the monthly indoor meets at South Armory.

If you did not place first, second, third, fourth or fifth in any of these contests, you are eligible for the novice competition on May 1. If you are in doubt, get in touch with wing headquarters. Records at the office will show whether you may enter.

Of course all contestants must be Junior Birdmen so if a model builder is not a member and wants to enter, he should join at once. There is no formal entry to be made.

The novices should simply report at Franklin Field before 9 A. M. on Saturday, May 1, with gliders and stick models. Two hours will be devoted to each event, the longest flights to be the winning flights. The point system will prevail, with 100 points for first place in each event, 75 for second 50 for third, 25 for fourth and 15 for fifth.

Here are the prizes: High point scorer, a $25 merchandise order good at the Boys' Shop of Kennedy's store, 32 Summer street, Boston. Second, third, fourth, fifth and sixth places, model supply orders for $10, $7, $5, $3 and $2 respectively at the Remo Aircraft Co., 77 Summer street Boston. Next six winners will each receive a complete set of the Junior Birdmen handbooks. Next two will each win a winder from August Ruggeri's model plane shop in New York and next eight will each receive a Junior Birdmen sweater emblem.

"I still get a thrill out of winning last year's novice contest," said Bernard Woodman, Everett, "and I wish I could enter this year. The prizes are the best ever offered for beginners. Even the runners-up in winning those model supply orders from the Remo shop are getting first place awards.

Take "Bernie's" advice, Beginners. Start building your model's NOW. You have just time enough in which to construct your craft. Remember 22 boys and girls must win. Perhaps YOU will capture one of the major awards and, if you're lucky, maybe you'll win that first prize of $25.

The glider and the stick model follow the same specifications listed for these two events in the green manual for the wing championship tournament to be held later in the summer. Here are the specifications:

GLIDER

(A glider is a non-powered craft constructed entirely of balsa or other light wood.)

A—The area of the main wing must be no less than 36 square inches and no more than 150 square inches. Wings must be constructed entirely of balsa.

B—Tandem or multiple wings are NOT eligible. C—Fuselage must be constructed entirely of balsa, may be hollowed out and can be any length. D—Tail unit must be built entirely of balsa and may be any size. Tailless gliders are eligible.

E—Model may have weights in front for balancing. F—Landing gear is NOT permitted. G—Model must be hand-launched without the use of any type of catapult tiling, etc.).

STICK MODEL

(A hand-launched stick model is a flier other powered craft with fuselage of solid stick construction, having built-up wings and tail unit. It has no landing gear.

A—Model may be single or double propelled of the pusher or tractor type. B—Model must be powered with rubber strand motor.

C—The area of the main wing must be no less than 100 square inches and no more than 150 square inches. Models with two or many sets of main wings are NOT eligible.

D—Model, without rubber band motor, must weigh one ounce or more for each 30 square inches of wing area. (All models for this event will be "weighed in" WITHOUT the rubber motor). Putty, nails, gum or other excess material are NOT permitted to bring the weight of the model up to these specifications.

E—Wing and tail unit sometimes must be built up and covered with tissue, silkrollon or other covering on one or both sides.

F—Fuselage must be of solid stick construction. Hollowed-out or tubular fuselages are NOT eligible. G—Landing gear is NOT permitted. H—Model, for this event, must be hand-launched.

JUNIOR BIRDMEN OF AMERICA

(Membership open to all boys and girls 10 to 21)

I wish to join the Junior Birdmen of America. I enclose a dime (well wrapped) for my gold wings and other membership materials.

A Picture of the Cost of Bureaucracy

SENATOR BYRD of Virginia, chairman of the Senate Committee on Governmental Reorganization, makes effective use of a survey of Federal expenses by the Brookings Institution.

The survey reveals that eight structures as large as the Empire State Building in New York City would be required to house the staffs of government departments in Washington alone.

Fifty-two more such buildings would be required to house Federal employes outside of Washington.

This dramatic picture is useful, in giving the nation an idea of the astounding growth of governmental bureaucracy in recent years.

It explains why the level of Federal expenditures is now seven billion dollars a year, compared with three billion prior to 1930 and one billion prior to the World War.

It explains why the national debt has risen from 16 billions in 1930 to nearly 35 billions AND IS STILL GROWING.

It explains better than any other picture why immediate reorganization of the government, with elimination of costly bureaucracy, is NECESSARY.

Investigate Communism

THE Massachusetts Legislature should appropriate the $3000 fund that is requested for an investigation of Communism and subversive movements in this State.

The report of the Ways and Means Committee favoring the investigation was a step in the right direction.

Every fair-minded person agrees that Communism is more than a threat, that it is actually here.

We see evidence of it in our industrial disputes.

We hear boasts that Moscow has hundreds of followers in our schools.

We find disloyal and perfidious propaganda boldly circulated throughout the Commonwealth, and even on Beacon Hill.

Clearly it is time to find out how great the menace has become and WHO IS BEHIND IT.

The American Legion, the Veterans of Foreign Wars, the Daughters of the American Revolution, the Knights of Columbus and other truly patriotic and religious organizations will give the investigation the co-operation it needs.

It can be complete. IT MUST BE COMPLETE.

Massachusetts has too long tolerated the radical destructionist whose only purpose in America is to destroy America.

The day has come to PRESERVE AMERICA.

Let Both Be Cautious

FRANK A. GOODWIN, motor vehicles registrar, deploring the number of pedestrian deaths on Massachusetts highways, insists "the burden of avoiding accidents rests on the drivers."

He tells us that "of the 2533 persons killed during the past three years, only 959 were car occupants, while 1574 were helpless pedestrians."

Many will question the Registrar's use of the word "helpless."

The aged, the blind, the sick and little children obviously belong in that classification, but certainly not every ill-fated pedestrian.

For the person who deliberately steps into the path of an automobile or who drinks and then goes walking is undoubtedly more THOUGHTLESS than "helpless."

The old trolley car line slogan, "Stop, Look and Listen," is still a good one for the individual who walks. Also, the Greeks' ancient maxim, "The gods help those that help themselves."

Only a foolish man will rely too much on the ability of the stranger behind the automobile wheel to help him to live when he makes no effort to help himself.

The automobile is a powerful thing, able to deal death as readily as to afford pleasure. Conscious of this, every motorist should by careful driving show that he appreciates his responsibility.

He who cannot appreciate responsibility deserves every punishment that Mr. Goodwin and the law can devise for him, and no one will object to his getting it.

But, still, the pedestrian who really wants to live will continue to look out for his own safety.

Safe highways are possible only when both pedestrian and motorist make caution a constant, never-ceasing practice.

Fight Crime at Start

EDWARD C. R. BAGLEY, Massachusetts Deputy Crime Commissioner, discussing prisons and reformatories, wisely tells us:

"The place to attack crime is in the high chair, not the electric chair.

"It is an absolute waste of time to send a boy to prison as long as cities and towns fail to clean up the spots where the boys hang out."

That is the truth; the Bible's mandate, "As ye sow, so shall ye reap" is as pertinent to modern life as it was to the life of 20 centuries ago.

And a single street corner where criminals and near-criminals congregate can do more harm in three weeks than the best reformatory can do good in three years.

For our own welfare as well as for that of those who will be the citizens of tomorrow, we of Massachusetts should listen to Mr. Bagley.

WE MUST RESOLVE TO FIGHT CRIME AT THE SOURCE.

We must place greater emphasis on the importance of home life, religion, education and wholesome recreation.

For, as Mr. Bagley promises us, "weld good influences into every boy and girl in the State and you can rest assured that youth will not have a career of crime."

Good Will

THE Pan-American Exposition in Dallas, Tex., this Summer will be dedicated to the promotion of good will between American nations.

That is a splendid objective for an American city, and for the people of all the countries to be represented.

Good will between the nations of Pan-America is the richest asset of the Western Hemisphere.

New York Day by Day

By O. O. McIntyre

New York, April 23—Thoughts while strolling: Two dishes a country jake goes for when he hits the city restaurants — planked steak and Baked Alaska. So many dead pan voices on the radio—voices that never leave the ground. And why do elevator operators insist on pronouncing it "LongerA" instead of "LangerEE?"

O. O. McIntyre

Ukulele rhyme: No one can strum it, just like Frank Crumit. And along East 49th street, this couplet kept singing through my head: A sight on which I always gloat, is a nice, slim girl in a tiger coat. Sights one never sees: A flurry of trade in one of those Oriental rug stores.

A young look-alike for Queen Mary: Mrs. Vincent Astor. Getting started saying the name of Herschell Brickell, the book critic, and it's hard to stop. Martha Deans must get pretty well fed up sampling all those delicious goodies. And she's my nomination for the busiest lady in town.

Wonder how many know they can get a live chameleon by mail for 25 cents? Put him on your coat collar and he'll turn the color of your necktie. A Racine, Wis., firm advertises them—"Only Concern of Its Kind." Sudden thought: The swellest necktie,are found in the ready-made shops.

Exact quotation from a radio talk on good English just dialed a few moments ago: "Everyone of us can increase OUR vocabulary." Jo Davidson, the sculptor, might be a cousin of General Grant. Also to General Lee. We'd bet a cookie Eddie Peabody has a barlow knife somewhere on him.

On a lower reach of Fourth avenue is Schulte's dusty book shop, a Manhattan paradise for the bibliophile. Books, modern and classic, fairly tumble out in a disarray on sidewalk tables. Here the prowling book lovers are undisturbed. Sometimes they stand for an hour over a volume, reading and taking notes. And there is about the clerks the tiptoey, hushy devoir of a public library reading room.

O. Henry used to browse at Schulte's. So did Harris Merton Lyon and many now established writers, when they were leading garret lives in The Village.

Schulte's is also the market for reviewed books. Some of the reviewers after they have perused complimentary copies from publishers, hawk them for cut rates at Schulte's.

Schulte's is most crowded on rainy, foggy days. In such weather the libraries and their branches have more readers, too.

Among the better known and successful song chanters are Chic Endor and Charlie Farrell. They began chanting their brisk and sometimes ribald ditties eight years ago and have been together since without break. And without a single quarrel.

Theirs is a strange calling that encompasses about an hour and a half work a day. Mostly after tea time, a half-hour after theater and a half-hour around 2 a. m., and always going from their last performance to other cafes on business holidays. They are as well known in London, Paris and Palm Beach as in New York and tour this circuit every year.

Each has grown fairly well to do and models of preciseness in evening dress.

It is the fire commissioner's job, and perhaps nosey on my part, yet in the sudden upshoot of so many cafes lntime in the 50's I feel there is a great danger because of fire hazards. So much so there are several I avoid and others in which I always secure a table near the entrance for a quick break out in case of emergency. Entrances are cumbersome and the narrow aisleways are often clogged with food wagons.

A sudden burst of flame, it strikes me, could go roaring through a dozen of these places and leave a swath of disaster. It would please us for this paragraph to be the stitch in time.

And I shrink in passing that gloomy sprawl that is the Bellevue Hospital. In a slum neighborhood, it has the grim, dank atmosphere of an abandoned brewery. There is not about it so far as I know, anything can see a single dot of cheer. Yet it is one of the most famous hospitals with a notable record in medical research. With brightness and cheer it could do much more.

One more bleat—and we'll dial to a chain of swank cafes for light. But something should be done about that archaic and completely outmoded eyesore that is the Metropolitan opera. It is only the sheer power and beauty of its golden-throated artists and the gay plumage of its audiences that lift it out of the depths of dolor.

The opera here as in Europe should be one of the city's most inspiring temples. Kin Hubbard once brought a jasper from Indiana to town and when he saw the Metropolitan sighed: "So that's where they yell opera."

The Ever Active Volcano

By Nelson Harding

Old Mt. Congress, live volcano;
Not extinct, nor on the wane.
Smoke arises from the crater,
Rumblings echo o'er the plain!

Apprehensive are the people
Of the well known sounds they hear.
Those who live within the shadow
Of volcanos, live in fear.

On the Nail

By Benjamin DeCasseres

A modern morality story—

A pickpocket in Yokohama, Japan, stole $56 from Helen Keller, the "miracle" deaf and blind woman.

An anonymous donor, "For the Honor of Japan," reimbursed Miss Keller.

Miss Keller donated the $56 for the relief of the Japanese blind.

Thus the pickpocket, unknown to himself, was a philanthropist.

This morning in a small town in England the flags of 60 nations will be unfurled on its streets.

At their posts, under the flags of their respective countries, 60 diplomatic representatives will stand at high noon at attention.

The band in the square will play the English anthem as the clock strikes 12. Each foreign representative will then pull a cord unfurling the flag of his nation.

This ceremony is in honor of A POET—its greatest and most famous of all Englishmen, WILLIAM SHAKESPEARE, and, of course, takes place in the town of his birth, Stratford-on-Avon.

Little is actually known about the man Shakespeare. It is not even certain that he was born on April 23 (1564). It is, however, known that he died on April 23, 1616. This is said by some Shakespearean scholars to be the cause of the confusion. April 23 as his birth date cannot be far wrong, for he was baptized in the parish church on April 26.

Thus it is that Shakespeare, unusual in all things, has *his birth and his death celebrated on the same day.*

Another unusual fact about Shakespeare is that his birthday will be celebrated today in almost every city in the world.

No other literary man is so honored every year.

George Lansbury, Labor member of Parliament and professional pacifist, upon telling Chancellor Hitler that he has already talked with President Roosevelt, Premier Blum, of France; Premier Van Zeeland, of Belgium, and the Scandinavian premiers, about his "world economic conference."

He admitted he had not yet consulted Josef Stalin.

He says, however, that he "would like Mr. Roosevelt to call the conference, but am not sure that he will."

This is the same Mr. Lansbury who on landing here some months ago saluted us in this "good neighborly" fashion:

"I want you people of the United States—"

While Mr. Lansbury's colleagues in Parliament sweat over taxes, national defense and coronation details, he himself certainly succeeds in having a riproaring time as self-appointed ambassador in the wide-wide world.

The auctioneer's mallet that was used the other day at the sale of the treasures of the House of Rothschild in London pounded out the history of the most romantic banking name in the world.

The Rothschilds for nearly a hundred years financed rulers, empires and even wars.

Mayer Anselm Rothschild was so trustworthy that when the Landgrave of Hesse-Cassel was compelled to flee on the entry of the French in 1801 he placed his money in the hands of Rothschild, who buried it in the corner of the garden.

Later he dug it up, invested it and returned it intact to the Landgrave with **five per cent interest.**

His son Nathan of London was the greatest of this family. He helped to finance England against Napoleon, used carrier-pigeons to carry despatches, and invented the modern check system during the Napoleonic wars to prevent gold shipped from the continent to England from falling into the hands of robbers.

Nathan's son Lionel was mainly instrumental in having Parliament remove civil disabilities against the Jews in 1858.

The story of Nathan is now known all over the world through George Arliss' incomparable portrait of that financial genius in the moving picture, "The House of Rothschild."

The Rothschilds proved that money, honor and humanity can go hand-in-hand.

The decree has gone forth that American ambassador to England Robert W. Bingham and James W. Gerard, President Roosevelt's special representative at the coronation of King George the Sixth, must wear knee-breeches.

Ambassador to England George Harvey, appointed by President Harding, wore knee-breeches when he presented himself at court and caused quite a flutter and a little back home.

Knee-breeches as general wear for men went out some time at the beginning of the nineteenth century.

But **who was the first President of the United States to go into long pants?**

That's That

By Bruce Gustin

The murder of W. W. Baker, young G-Man, who was fatally wounded by two New York gunmen he tried to trap in the Topeka, Kan., postoffice, is another indictment of the asinine parole system which frees desperate criminals to commit worse crimes. The desperadoes Baker sought to capture are paroled convicts. EVERY G-MAN WHO HAS BEEN SLAIN IN LINE OF DUTY HAS BEEN THE VICTIM OF A PAROLED CRIMINAL. No wonder Director Hoover of the Federal Bureau of Investigation is so bitter in his denunciation of the abuse of the parole power!

In some parts of the country, convicts are paroled to make room in penitentiaries for more criminals. A more foolish policy could not be conceived. It would be many times cheaper to build bigger prisons. The saving in human lives and from the prevention of crime would more than offset the cost of additional cellhouses. The administration of criminal law in this nation has been called a disgrace. Parole abuses are its most disgraceful feature.

In demanding the death penalty for the slayers of G-Man Baker, federal officials are not bloodthirsty. The law enforcement officials of this country are engaged in a war—a war against crime. They receive no quarter from the enemies of society. Criminals who do not hesitate at murder to escape arrest do not deserve any mercy. The slaughter of officers shot down in the performance of their duties must be avenged.

The Associated Press estimated that at least 103 persons were killed in traffic "accidents" over the week end. That has not created any excitement or concern in Congress. Eight persons, supposedly the perpetrators of diabolical crimes, were lynched in the United States last year. A bill providing for the federal prosecution of officers who fail to prevent lynchings and calling for the payment of heavy monetary damages by counties in which lynchings occur has passed the lower house of Congress. If there were as much sympathy in law-making circles for the victims of automobile killings and atrocious crimes as there is for rapists and murderers, this would be a safer country in which to live.

Suppose a confessed murderer is seized by a mob in one county and taken across the line into another county and lynched. Under the Gavagan Anti-Lynching bill BOTH counties would be financially responsible. Even though no official and no citizen of the second county knew anything about the lynching, that county would be held accountable. The mildest thing you can say about such a law is that it would be absurd.

Americans looking for something to worry about can find it in the prediction of Senator Walsh of Massachusetts that "drastic" tax increases will be necessary this year or next. He says "we cannot continue to spend money as we have been without drastic increases in taxation all along the line." And there seems to be no disposition on the part of our taxspenders to retrench. They talk about cutting down, but their actions are in the opposite direction.

A survey at the Indiana State Teachers' College shows that students employed under the National Youth Administration have a higher scholarship rating than the general student body. NYA students, under the work system used, averaged 68.5 as compared with 55.3 for the entire student body. The outside work that employed students do may or may not serve as a stimulus to mental study. But the young man who is interested enough in getting an education to work his way through college is more likely to succeed than many who have had college handed to them on a platter.

Marry —Go— Round

By Helen Rowland

Love is that miraculous power which holds two people together until they have become life-long friends.

A girl soon discovers that spring love affairs, like resurgent crocuses, are all of the same stock, with scarcely a perceptible difference in flavoring.

Jealousy in a woman is merely a pain in her vanity; in a man, it is a sword-thrust through his egotism, his aplomb, and his belief in his divine right.

"The average man spends too little for clothes," observes a modern Beau Brummel—probably because the average woman spends too much.

Hyacinth is the popular shade for bridesmaids' costumes, this spring—which permits a pallid bridegroom, slightly blue around the lips, to blend perfectly into the color scheme.

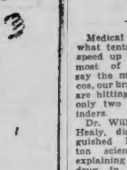
If some man isn't making a woman suffer, she is usually "suffering" because she HAS no man to make her suffer. You can't rob a woman of her inherent right to be a martyr!

A little flattery is good for a man; but beware of overdoing it. The more a cigarette is puffed, the smaller it becomes —and it's the same way with some husbands.

Mental "Gasoline"

The Human Side of the News

By Edwin C. Hill



Edwin C. Hill

Medical science offers, somewhat tentatively, a new drug to speed up sluggish brains. With most of us, say the medicos, our brains are hitting on only two cylinders.

Dr. William Healy, distinguished Boston scientist, explaining the drug to the New York Academy of Medicine, puts it in the above figurative context by calling it a "high octane number gasoline," which, it is hoped, will enable brains to "hit on all cylinders."

Of course, it has nothing to do with gasoline, but it is fuel, nevertheless, serving as an "activating material" for the glands and enabling them to supply better brain tissue chemistration. Dr. Healy is one of many medical researchers through the world who draw more closely the analogy between the human organism and the machine; who believe that intelligence is a factor of bodily metabolisms and that it may be heightened by functional controls achieved through a greater knowledge of organic chemistry.

In glandular therapy, they have proven much of their theory, restoring certain idiots to sanity and normal life by drugs. The successful transfer of glandular deficiences and aberrations. In their bearing on normal intelligence, is an old story. The quest of an open sesame to the gates of higher intelligence, in the domain of the normal, rather than the pathological, leads science to a new level.

A NEW DAY SOUGHT

Can we add orbits to our stature by taking thought? The new brain stimulant is benzyl methyl carbinamine sulphate. Dr. Healy finds it pertinent to his lecture on "personality structure, development and widening human relationships." Emotion, too often the raw tincture of hatred and suspicion, long has been one of the most potent drugs in human relationships.

What shall we do to be saved? Deep in the racial unconscious has been this realization of inadequacy. Avidly we have searched for panaceas, for the alchemy of health and well-being. The story of drugs, beginning far back in the deep fogs of ignorance and superstition, is the story of man's unceasing quest, not only for surcease, but for a magical enhancement of life.

Nearly all new substances, organic, or inorganic, are first endowed with healing properties. Potatoes were used as a drug mixed with horseradish compounds, long before they became food. Nutmegs—in fact, nearly all spices— found their first use by the apothecaries, with no one ever dreaming they might have any other use, but always look first for the miracle—utility afterward.

STRANGE CURE-ALLS

In the middle ages, and for centuries later, the powered horn of the unicorn was a brain stimulant, as well as a remedy for virtually every known ill. No presumption by the most expensive Park Avenue doctor ever was taken with more faith in its efficacy. Many a king of England took a bit of unicorn horn during the way we take our favorite headache tablet. And when the king was dying and all the physicians of the realm were stewing up everything they could lay their hands on, the powdered horn was the last desperate resource. When that failed there was no hope.

Hippocrates, around 300 B. C., would have known better, and he probably knew all about the unicorn, too. Some Greek Charles Fellows circused the thing up out of a narwhal horn, which the Greeks had found in fossilized form. Hippocrates and Galen made the beginning of a scientific approach in the study of drugs, with none of the later blithering nonsense about crocodile scales, ambrosia, goat's gall stones and such, with which later dark ages confounded the subject.

The Romans discovered most that was interesting and important about herbs, but from then until 1866, when Britain put the crackpot apothecaries out of business, drugs were something out of a witch's cauldron.

Rational, scientific medicine has come into its own. It widens its outlook to a view of the broad social implications of an understanding of the human organism — as does Dr. Healy in carrying through research which may mean an enhancement of intelligence. Novel and unsellable research it would seem, for certainly no patient is going to say: **"Doc, I'm feeling awfully stupid today; I think I need a jolt of your new medicine."**

We laymen, with as yet no means of stepping up whatever brains God gave us, are apt to be governed by our lifetime conditioning in thinking of these matters.

Listen, World!

By Elsie Robinson

Elsie Robinson

You're always complaining because you have so little freedom . . . because you're so tied down.

People . . . work . . . circumstances in general . . . they all tie you down.

If only you could be free! Well — why aren't you? Just how much freedom have you? I'll tell you . . .

You have just as much freedom as you want!

That isn't true!" you say indignantly. "I want lots more freedom than I have."

Then why don't you take it? What's holding you?

At once you name a dozen shackles on your liberty. You don't like your work. The home folks are utterly unreasonable. You haven't as much education as you need, nor as much money.

All the circumstances of your life are discouraging. You never did get a square deal.

The further down the list you go, the madder you get and the more sorry for yourself. Don't be! Keep cool . . . do a little honest thinking.

SEVEN GET BREAKS

Take this matter of your job. You're sure this uncongenial job is standing in the way of your freedom. Then why don't you get a job that you do like? You can. Other men have. It wouldn't be easy, of course.

You'd have to study at night . . . and quit fooling around. . . maybe read a book . . . get used to a new place . . . run some risk . . . lose some money . . . But you could get a job if you really want to. BUT DO YOU REALLY WANT TO? NO, YOU DON'T. You'd like a new job — BUT NOT AT THAT PRICE.

And there's the family. They're another big block in your progress. Maybe it's a nagging wife. Maybe it's a lazy husband. Or a complaining mother. Or a pack of wasteful children.

Whatever it is, you're sure the family is blocking your freedom. And you're quite selfish when you pity you for not getting ahead. If you always use the family as an excuse. You say they tie you down.

You're wrong—and in your secret heart you know it. The family isn't tying you down. You're tying yourself down by your own spinelessness. You're too weak to accept nagger, cut off any waster, put the skids under any lazy bum, or support any loafer—IF YOU'LL EARN IT.

But taking a stand isn't quite as easy as it sounds. Independence is grand in theory but lonesome in practice. It means making your own decisions, shouldering your own responsibility, facing your own music, accounting for your own smoke. And most of us haven't the nerve to do it.

HAVING FREEDOM

If your family pests and a hindrance to your natural progress, you not only can, but you should fight against them, plainly and pronto. And it won't be cruel. It will be both kind and constructive.

But you'll probably get a pole in the jaw and a lot of unspoken hate for doing it. Whereas now, between tantrums, you're probably the Big Shot with the home folks.

Why does the family take you for a ride? That's Reader No. 2894.

For the shackles that bind you ARE ALL WITHIN. They are your own fear and laziness, ignorance and conceit, malice and dishonesty.

Stop lying to yourself and loafing on yourself and you'll truly be "master of your fate." BUT HAVE YOU THE GUMPTION TO TACKLE THE JOB? Or do you just prefer to cry around and think you're a martyr?

Bible Text: *Watch ye, stand fast in faith, quit you like men, be strong.—I Corinthians XVI., 13.* Suggested by the Rev. Dr. J. H. Pollars, pastor of the Bristol, Ct., Baptist Church.
